Math in a Minute for grade 5 includes essential math skills such  
 as finding factors and multiples, analyzing patterns and  
 relationships, and understanding the place value system. This 96-  
 page workbook also includes adding, subtracting, multiplying,  
 and dividing multi-digit whole numbers, identifying equivalent  
 fractions and converting customary and metric measurements  
 and more. Math in a Minute has fun math activities with pages  
 separated by skill, theme, and completion time. Activities range  
 in complexity from 1 minute to 10 minutes depending on the  
 grade level. This allows children to gradually build their way up to  
 more and more intense work. The repetition gives children an  
 opportunity to reinforce basic skills and concepts. Beat the clock  
 for fast-paced math practice!

Strengthen your child's math skills with Making the Grade Math for Grade 3. Created especially to follow state learning standards, this workbook provides practice for these essential skills: multiplication and division, fractions, and finding area and perimeter. Using an easy-to-follow approach, this math workbook for third grade will help your child create the strong foundation in math he or she needs to learn, practice, and apply basic skills. Making the Grade Math books will engage your child with appealing, colorful activities while providing high-quality practice to support basic skills. With the Making the Grade series, you can be confident that you'll choose the perfect workbook to reinforce the skills your child is learning in class. Each workbook in the Making the Grade series includes 48 pages that are full of standards-based activities featuring simple instructions and an answer key. The series offers grade-specific titles for these main school subject areas: Reading (PK-Grade 5), Math (PK-Grade 5), Basic Skills (PK-Grade 2), and Handwriting (K-Grade 5)

Engage students in mathematics using growth mindset techniques The most challenging parts of teaching mathematics are engaging students and helping them understand the connections between mathematics concepts. In this volume, you'll find a collection of low floor, high ceiling tasks that will help you do just that, by looking at the big ideas at the eighth-grade level through visualization, play, and investigation. During their work with tens of thousands of teachers, authors Jo Boaler, Jen Munson, and Cathy Williams heard the same message—that they want to incorporate more brain science into their math instruction, but they need guidance in the techniques that work

best to get across the concepts they needed to teach. So the authors designed Mindset Mathematics around the principle of active student engagement, with tasks that reflect the latest brain science on learning. Open, creative, and visual math tasks have been shown to improve student test scores, and more importantly change their relationship with mathematics and start believing in their own potential. The tasks in Mindset Mathematics reflect the lessons from brain science that: There is no such thing as a math person - anyone can learn mathematics to high levels. Mistakes, struggle and challenge are the most important times for brain growth. Speed is unimportant in mathematics. Mathematics is a visual and beautiful subject, and our brains want to think visually about mathematics. With engaging questions, open-ended tasks, and four-color visuals that will help kids get excited about mathematics, Mindset Mathematics is organized around nine big ideas which emphasize the connections within the Common Core State Standards (CCSS) and can be used with any current curriculum.

The standards-based Spectrum (R) Critical Thinking for Math for second grade guides children through problem-solving strategies including: -addition and subtraction -measurement -geometry Spectrum Critical Thinking for Math helps children apply classroom math skills to real-world scenarios. Spectrum Critical Thinking for Math provides problem-solving instruction, math reasoning questions, and word problems that encourage students to extend classroom learning to the real world. Complete with problem-solving instruction, reasoning questions, word problems, pretests, post-tests, and a completed answer key, this series helps children retain knowledge while introducing problem-solving methods for success. Providing comprehensive, grade-specific titles that encourages the skills and standards taught in today's classroom, Spectrum supports your child's educational journey every step of the way. Spectrum offers a variety of subject-specific practice to reinforce classroom learning, skill-specific titles to enhance educational concepts, and test prep titles to improve test-taking skills. Spectrum is here to help every child get ahead.
