Complete Dickens

Usborne Publishing Ltd
This exciting adventure story follows a family of slaves in the USA in 1860 as they escape from a cotton plantation via the legendary Underground Railroad. An enthralling story of courage and resilience, centring on 10-year-old Tommy, it will fascinate children who might not know much about this secret escape route into Canada that was used by as many as 100,000 people. Ten-year-old Tommy roams the cotton fields of Alabama owned by the notorious Captain Archer.

Intimidating guards with fierce dogs protect the land to prevent any slaves from leaving. That is until a supernatural spirit visits Tommy offering a way out. With his banjo slung over his shoulder, Peg Leg Joe guides Tommy, his family and other slaves

out of Southern USA, and into Canada through the legendary Underground Railroads. Stretched for miles across the country's vastness, the network famously facilitated more than 100,000 slaves to a new life. For Tommy and his family, the escape is far from an easy ride. The young boy is forced to mature through this testing period and allow his strong will to guide himself and others to safety under the guidance of Peg Leg Joe. Set in the 19th century, D'Adamo's well-constructed novel tells a story distant in time, remains grounded in a reality that still exists today. Millions of people across the globe continue to be enslaved, including children.

Combining rhythmic music and movement with cognitive reflection and mindfulness, this comprehensive handbook shows how drumming and other rhythm-based exercises can have a powerful effect in individual, group and family settings. Incorporating the latest research on how rhythmic music impacts the brain, this book features over 100 different exercises spanning five key

developmental areas: social and emotional learning; identity and culture; strengths and virtues; health and wellbeing; and families, teams and communities. It offers a safe entry to cognitive reflection through fun, experiential rhythmic exercises and is useful for working in settings such as school, child and adolescent counselling settings, mental health and drug and alcohol interventions, trauma counselling and relational counselling. Important sections on the use of metaphor and analogy show how to reinforce experiential outcomes. The book also contains helpful sections on working with specific populations, key facilitation skills and managing challenging behaviours. Downloadable resources such as evaluation forms, certificates and 52 session cards optimise the process of implementing this approach in practice.
