Journeys with Traditional Healers Oxford University Press on Demand
 This is the sixth volume of the ten-volume history of the county of Kent. Each of the 10 chapters begins by evoking a picture of Kent on the eve of World War I and looks at the changes between then and the present day in the area under construction.
Immigrant, Montana Vintage
 'Gaming Representation' offers a timely and interdisciplinary call for greater inclusivity in video games. The issue of equality transcends the current focus in the field of Game Studies on code, materiality, and platforms. Journalists and bloggers have begun to hold the digital game industry and culture accountable for the discrimination routinely endured by female gamers, queer gamers, and gamers of color. Video game developers are responding to these critiques, but scholarly discussion of representation in games has lagged behind. Contributors to this volume examine portrayals of race, gender, and sexuality in a range of games, from casuals like Diner Dash, to indies like

Journey and The Binding of Isaac, to mainstream games from the Grand Theft Auto, BioShock, Spec Ops, The Last of Us, and Max Payne franchises. Arguing that representation and identity function as systems in games that share a stronger connection to code and platforms than it may first appear, 'Gaming Representation' pushes gaming scholarship to new levels of inquiry, theorizing, and imagination.

Bowing to the Emperor Jist Works

"Most (about 70 percent) radiation therapists work in hospitals or in cancer treatment centers. Others work in physicians' offices as assistants, and a small number work in outpatient care centers and medical and diagnostic laboratories performing research. Across all practice settings, job opportunities for radiation therapists are expected to increase dramatically. As the population in the United States ages and develops higher risks for cancer, the demand grows. As radiation technology becomes safer and more effective, it will be prescribed more often, leading to even more jobs for radiation therapists. Considering the attractive features of this career - good pay and great job outlook - the educational requirements are quite modest. There are two ways to get the necessary training. One is by obtaining an associate or a bachelor's degree in radiation therapy. The other is

to go through a certificate program, which generally takes less time than the full four years of an undergraduate degree. Prospective radiation therapists should make sure that their degree or certificate program is certified by the American Registry of Radiologic Technologists (ARRT) before they enroll. Once radiation therapists begin working, their earnings are fairly high. Beginners start out with salaries of \$50,000 per year on average. Their earnings rise the longer they stay in the job - those with 10 year's experience typically make \$75,000 to \$85,000 per year. Some make even more working at specialty hospitals or in medical and diagnostic laboratories. The greatest reward of working as a radiation therapist is witnessing the scientific advances that allow many cancer patients to survive and go back to leading healthy lives."--Pages 2-3.

Education Debt Manager for Matriculating and Graduating Medical School Students Busca Incorporated

A NEW YORK TIMES NOTABLE BOOK ONE OF THE NEW YORKER'S BEST BOOKS OF THE YEAR Carrying a single suitcase, Kailash arrives in post-Reagan America from India to attend graduate school. As he begins to settle into American existence, Kailash comes under the indelible influence of a charismatic professor, and also finds his life reshaped by a series of very different women with whom he recklessly falls in and out of love. Looking back on the formative period of his youth, Kailash's wry, vivid perception of the world he is in, but never quite of, unfolds in a brilliant melding of anecdote and annotation, picture and text. Building a case for himself, both as a good man in spite of his flaws and as an American in defiance of his place of birth, Kailash weaves a story that is at its core an incandescent investigation of love—despite, beyond, and across dividing lines.

Nontraditional Careers for Chemists Createspace Independent Publishing Platform

More than 10,000 women and children. That's how many civilian prisoners of the Japanese were packed into Tjideng, reportedly the worst Japanese concentration camp in Java during World War II. Among these 10,000 mostly Dutch women and children were Hungarian-born Klara and her three young daughters. Meanwhile Klara's Dutch husband, Wim, a captain in the Royal Dutch Air Force, was among the 1500 military men crammed into a hell ship and transported to Japan as a slave laborer. "Bowling to the Emperor: We Were Captives in WWII," a memoir/biography penned by Klara and daughter Robine, chronicles the Andrau family's experience during those dark years in the then-Dutch East Indies (now Indonesia) and in Japan. The story reveals the fierce determination and ingenuity of a mother and the strength and leadership of a father when faced with starvation, brutality, and unspeakable living conditions. Klara's part of the story details what she did to keep the couple's three children and herself alive and well in body and mind, both during the Japanese occupation in 1942 and during the children's and her subsequent internment. Left with no income after Wim was taken away, Klara scraped along by giving language lessons, teaching the three R's to classes of children, and making and selling jams. Later, when interned in camp, she supplemented their daily diet of a handful of rice, a little piece of gummy bread, and a few leaves of a spinach-like plant by digging up the packed earth and planting some leafy vegetables, which she fertilized with night soil. She also pawed through the camp kitchen garbage looking for anything edible and knitted socks for the Japanese to earn some sweets for her children. She kept the wonder of Christmas alive one year by stealthily evading the patrolling Japanese guard in the predawn darkness, climbing a fir tree next to the barbed wire and bamboo camp fence, and sawing off the tree's top with a toy saw. When decorated with a few candles, the top was transformed into the most magical of Christmas trees. Wim's

story centers on his role as the senior officer in charge of 400 Dutch and later an additional 200 American and 2 British POWs in camp Fukuoka #7 in the Japanese coal-mining town of Futase. He led his men with good humor and optimism and negotiated tirelessly with the Japanese commander, sometimes successfully, for shorter work hours in the coal mines (from 12-to-14-hour days to 10-to-12-hour days), for more rest and recreation time (from a partial to a full day "off" every ten days), and for more food. Beatings on the part of the Japanese guards were a perennial problem. By bypassing the Japanese commander and slipping a list of brutality complaints among other suggestions for changes into the hands of the visiting Swedish consul, Wim succeeded in marginally improving the situation for his men. His greatest success, however, was in maintaining order and discipline among the prisoners, reducing friction and increasing understanding between the two main national groups, and building morale despite the dirt, near-starvation rations, disease, brutality, and horrendous work and living conditions in the damp dangerous coal mines and the flea- and lice-infested barracks. Besides being the personal story of a family, "Bowling to the Emperor" is also a universal story of survival and of hope despite loss of country and loss of all material possessions.

Alcoholism, Getting the Facts John Wiley & Sons

"Each of the chapters contained herein is worth reading by itself, but I hope that readers will take the time to consume all of the chapters in order to see meta-trends taking shape in various settings--and to observe as well the growing sophistication of assessment practices as they evolve to fit the ever-changing contexts of higher education."--From the foreword by Trudy W. Banta Trends in Assessment provides readers with a survey of the state-of-the-art of the enduring assessment concepts and approaches developed over the past twenty-five years, and includes chapters by acknowledged experts who describe how emerging assessment trends and ideas apply to their programs and pedagogies, covering: Community Engagement ePortfolios Faculty Development Global Learning Graduate and Professional Education High-Impact Practices Learning Improvement and Innovation Assessment Trends from NILOA STEM Student Affairs Programs and Services The concluding chapters point to a future of assessment and identify several meta-trends in assessment. The book was conceived by organizers and contributors of the Assessment Institute in Indianapolis, the nation's oldest and largest higher education assessment event, and includes contributions by the following partners of the Institute: Association for the Assessment of Learning in Higher Education (AALHE); Association for Authentic, Experiential, and Evidence-Based Learning (AAEEBL); Association for General and Liberal Studies (AGLS); Association for Institutional Research (AIR); Association of American Colleges and Universities (AAC&U); Center for Postsecondary Research (CPR)/National Survey of Student Engagement (NSSE); and Higher Education Data Sharing Consortium (HEDS). Trends in Assessment serves as a vital resource for faculty, student affairs professionals, administrators, anyone involved in accreditation, and scholars in the field.

Presents information on enrollment, fields of study, admission requirements, expenses, and student activities at more than two thousand four-year colleges and universities and 1,650 two-year community colleges and trade schools. Original. 70,000 first printing.

The College Board College Handbook Prentice Hall

Newly revised by the AMA, the Graduate Medical Education Directory, 2007 - 2008 (or the "Green Book") contains extensive information on more than 8,300 residency, fellowship and combined programs in the United States, as well as residency application and career-planning resources to help in making one of the most important professional decisions that a medical student can make. In this new edition, you'll find more than 6,500 revisions, updated specialty/subspecialty information/data, including Match data and more. Other changes to this edition include: 1,200 program director changes, 240 new programs, and 90 withdrawn programs. Inside the 2007-2008 edition, you'll find:

- * Comprehensive GME program listings, including program director, address, phone, fax, and e-mail address
- * Certification requirements for 24 medical specialty boards
- * Teaching institutions that sponsor GME programs
- * Residency application and career planning resources
- * Expanded descriptions of GME-related organizations
- * Medical licensure information
- * A list of Canadian residency programs

Purchase your copy today of this indispensable tool designed to help medical students during their search through residency programs.

Gaming Representation Lippincott Williams & Wilkins

From Parks and Recreation star Aubrey Plaza and creative partner Dan Murphy comes the long lost tale of the Christmas Witch, Santa Claus's much misunderstood twin sister. The perfect gift for the holiday season and beyond! Gather 'round the fire to hear a Christmas legend that has never been told before...until now. Each year a mysterious figure sweeps into town, leaving behind strange gifts in the night. No, not Santa Claus, but his sister... The Christmas Witch. Her story begins many, many years ago when her brother was torn away from her as a child. Raised alone by a witch of the woods, Kristtörn's powers of magic grew, as did her temper. Determined to find her long lost twin, she set out on a perilous journey across oceans to find him. But what she found instead was a deep-seated fear of her powers and a confrontation that would leave the fate of Christmas hanging in the balance. From award-winning producer and actress Aubrey Plaza and her creative partner Dan Murphy comes a holiday story unlike any told before. With all the richness of classic folklore, they've woven a tale of bravery, love and magic. Whatever you thought you knew about Christmas...think again.

Trade Secrets of Professional Resumé Writers Crown

"In a collaboration between curators at The Columbus Museum and the Chrysler Museum of Art, Alma W. Thomas: Everything is Beautiful, works toward a primary objective: to introduce the Thomas-related materials housed at The Columbus Museum to a broader public, and to demonstrate how those materials reshape the narratives surrounding the artist. The wealth of material in The Columbus Museum's collection—from student work of the 1920s and marionettes from the 1930s, to home furnishings, ephemera, and little-known works on paper—offers a robust, but until now untold, account of Thomas's artistic journey. Taking cues from Thomas's wide-ranging interests and her broad network of collaborators and supporters, our museums also sought a scholarly approach that resonated with the artist's own disregard for silos, borders, and other arbitrary limitations. Assembling an interdisciplinary advisory committee of more than twenty scholars of diverse backgrounds and experiences, the curators convened a two-day gathering at the University of Maryland Center for Art and Knowledge at The Phillips Collection in January 2020 to illuminate varied aspects of Thomas's creativity and amplify the show's interdisciplinary approach. By applying interdisciplinary approaches to a range of artistic objects, the overall project presents new insights into Thomas's diverse forms of creativity while offering an inspiring look at how

to lead a rich and beautiful life"--

Career As a Radiation Therapist St. Martin's Griffin

A NEW YORK TIMES NOTABLE BOOK • The definitive biography of the great lawyer and Supreme Court justice, from the bestselling author of *Eyes on the Prize* "Magisterial . . . in Williams' richly detailed portrait, Marshall emerges as a born rebel."—Jack E. White, *Time* Thurgood Marshall was the twentieth century's great architect of American race relations. His victory in the *Brown v. Board of Education* decision, the landmark Supreme Court case outlawing school segregation in the United States, would have made him a historic figure even if he had never been appointed as the first African-American to serve on the Supreme Court. He had a fierce will to change America, which led to clashes with Martin Luther King, Jr., Malcolm X, and Robert F. Kennedy. Most surprising was Marshall's secret and controversial relationship with the FBI chief J. Edgar Hoover. Based on eight years of research and interviews with over 150 sources, Thurgood Marshall is the sweeping and inspirational story of an enduring figure in American life who rose from the descendants of slaves to become an American hero.

Hash Every Wednesday Stylus Publishing (VA)

Kent in the Twentieth Century Boydell & Brewer

Complex Foot and Ankle Trauma Boydell & Brewer

This volume provides resident and practicing orthopaedic surgeons and podiatrists with expert guidance in the diagnosis and management of high-speed injuries to the foot and ankle. For each anatomic section of the foot and ankle, the book presents pertinent anatomy, explains the pathophysiology of injury, and describes up-to-date methods for evaluation and treatment of injuries. Complementing the text throughout are more than 300 photographs and drawings.

Reflections on High School Years

Poverty and Profit in the American City little bee books

Magical healings, ghostly encounters, and alternate realities have been a part of American society since the first colonial settlements. Author Jack Montgomery provides ample historical and personal material to reveal a largely hidden world, primarily influenced by African, Celtic, and German roots, that still exists today. It is a spiritual journey into the depths of American folk religion, shamanism and applied mysticism that spans over three decades of research.

From Exclusion to Destitution Routledge

Tells the story of the West Hartford, Connecticut community from first settlement to the present day. How does the identity of a community grow? Who are the people whose voices have not been heard? And how did the powerful use their voices? Who spoke and worked for equality, democracy, and justice as delineated in our Declaration of Independence? Local history

gives us a window into how life in a democracy works. -- cover
