 Amelia Kurt was different. And she knew it. That didn't stop her from loving her best friend, Annabelle Johnson. They spent an entire summer making love, and growing into what was promising to be the only relationship either ever knew. Then, one day, the

unexpected happens. Anna disappears. No reason, no forwarding address, no number. She was simply gone. Eleven years later, Anna returns. Her truth is heartbreaking but it's only the beginning of their journey to recovery.

With the 1998 debut of its V92C, Victory Motorcycles became the New American Motorcycle. Victory's innovative, stylish heavyweight cruiser motorcycles attracted a loyal, hard-riding following, but not the market share needed to survive. This richly illustrated book covers the brand's history model-by-model and analyzes why the parent company announced in early 2017 that its Victory division would cease operation. This book also features a full reprint of the collectible first Victory history from 1998, *The Victory Motorcycle*.

Like most technical disciplines, environmental science and engineering is becoming increasingly specialized. As industry professionals focus on specific environmental subjects they become less familiar with environmental problems and solutions outside their area of expertise. This situation is compounded by the fact that many environmental science related terms are confusing. Prefixes such as bio-, enviro-, hydra-, and hydro- are used so frequently that it is often hard to tell the words apart. The Environmental Engineering Dictionary and Directory gives you a complete list of brand terms, brand

names, and trademarks - right at your fingertips.

"Unbearable Weight is brilliant. From an immensely knowledgeable feminist perspective, in engaging, jargonless (!) prose, Bordo analyzes a whole range of issues connected to the body—weight and weight loss, exercise, media images, movies, advertising, anorexia and bulimia, and much more—in a way that makes sense of our current social landscape—finally! This is a great book for anyone who wonders why women's magazines are always

describing delicious food as 'sinful' and why there is a cake called Death by Chocolate. Loved it!"—Katha Pollitt, Nation columnist and author of Subject to Debate: Sense and Dissents on Women, Politics, and Culture (2001)
