In the Sixth Edition of their classic text, the authors reiterate the critical importance of observing and recording the behaviour of young children, especially in the current atmosphere of accountability and testing. In addition, because

children with special needs are now widely included in a majority of early childhood classrooms, they have completely rewritten a chapter to focus more broadly on observing behaviours that may be viewed as disquieting. Designed to help teachers better understand children's behaviour, the book outlines methods for recordkeeping that provide a realistic picture of each child's interactions and experiences in the classroom. Numerous

examples of teachers' observations of children from birth to age 8 enrich this work and make it accessible, practical, and enjoyable to read. With over 130,000 copies in print, this valuable resource for pre- and inservice educators features: fresh information about how children think and learn, how their language develops, and how their families, their culture, and their environment influence and help to shape them; observations that reflect the

increasingly diverse population in contemporary early childhood classrooms; and the imperative for teachers to widen their lens in order to meet the needs of young children with a range of developmental capacities, abilities, and behaviours. *Families, Schools, and Communities: Building Partnerships for Educating Children, Enhanced Pearson Etext -- Access Card* Lexington Books Because of changing dynamics within both society and today's

families,early childhood professionals need the skills to work effectively with young children and their families.This 2nd edition examines these changing dynamics,with the inclusion of two important new chapters,the first discussing same-sex parenting and adoptive families,the second examining immigrant and refugee families.

 This sixth edition of the number one bestselling employee retention book in the world (over 800,000

copies sold) puts a new emphasis on diversity and inclusion but keeps the same appealing format: twenty-six simple strategies from A to Z. Despite booms and busts, technology advances, talent wars, layoffs, and even a global pandemic, people want what they've always wanted. Employees want—and now expect—meaningful work, supportive bosses, regular recognition, and a chance to learn and grow. And managers want their amazing people to stay—for at least a little

while longer. For two decades, this Wall Street Journal bestseller—over 800,000 sold—has offered twenty-six simple strategies, from A to Z, that managers can use to address their employees' real concerns and keep them engaged. The authors have gone over every word of the previous edition, revising, updating, and streamlining. This edition includes a timely focus on diversity and inclusion in every chapter. For example, chapter 6 focuses on family.

Different cultures view family responsibilities differently, so the authors address how to take that into consideration when a treasured employee asks for extended leave to care for a grandparent. And a new section called “Conversations That Count” offers discussion questions for sparking deeper conversation around the topics in the book. This new edition will ensure that Love 'Em or Lose 'Em will continue to help managers all over the world create a supportive workplace

culture so they can fight burnout and keep the people they can least afford to lose.
