This book deals primarily with the National Education Policy 2020 of India. In the book, an attempt has been made to highlight the provisions of the latest National Education Policy in comparison with some best education systems in the world such as the USA, the UK, and Finland. The comparative analysis with these countries has made this book unique and interesting to read. The examination of elementary as well as secondary education of Japan, and the best practices of Finnish schools and government have opened up a new door of knowledge to the readers. This book has been written mainly for students, teachers, guardians, and other stakeholders, who are actually going to benefit from the National Education Policy 2020. India's future

growth and genuine sustainable development can only be achieved through the proper implementation of the NEP-2020.

Descriptive English EduGorilla Community Pvt. Ltd.

"Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, *Topi Shukla* is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons."

"Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.

This book brings into focus the innovative methods of learning in many Indian schools. It sheds light on schools that make the learning process fun for the teacher as well as the taught, in contrast to the whirl of examination-oriented learning in mainstream schools. The researched data on alternative schools in the country offer the reader an array of institutions all over the country, where

efforts are being made to move away from traditional and mainstream learning. It includes exclusive articles by leading practitioners in the field, who offer an insight into the ground reality when a certain philosophy is applied to a school, and also experiential accounts of how such alternative practices mould the learner, teacher and impact the parent as well. The book also consists of a directory of alternative schools in India, including many schools that are tucked away in remote corners of the country.

Interestingly, the common thread binding these 'alternative schools' is concern for the welfare of the child by teachers who see their work as much more than a job. *Some South Indian Butterflies* SAGE
