This volume brings together a selection of papers presented at an international conference on Translation Studies in Barcelona in 1998. The papers illustrate four areas that are of particular interest in translation research today in Europe, Asia and Latin America. The purpose of the first section, 'Investigating Translation Paradigms', is to reach a critical revision of existing paradigms and to develop new ones in approaching the translated text. The second section, 'Investigating the Translation Process', focuses on the skills, knowledge and strategies that make up translation competence. The third section, 'Investigating Translation and Ideology' addresses not only the 'invisible' influence of ideologies on the translator, but also the role of translators in transmitting ideology. The fourth section, 'Investigating Translation Receivers' envisages translators as communicators caught between the opposing trends of localisation and globalisation. This tension can be seen in the selection of the papers, some of which reflect on research carried out in recently established translation centres in Spain, while others discuss the latest work of scholars from long established centres in other countries.

The use of language corpora as a resource in linguistics and language-related disciplines is now well-established. One of the many fields where the impact of corpora has been growing in recent years is translation, both at a descriptive and a practical level. The papers in this volume, which grew out of presentations at the conference Cult2k (Bertinoro, Italy, 2000), the second in the series *Corpus Use and Learning to Translate*, are principally concerned with the use of corpora as resources for the translator and as teaching and learning aids in the context of the translation classroom. This book offers a cross-section of research by some leading scholars in the field, who offer accounts of first-hand experience and theoretical insights into the various ways of building and using appropriate corpora in translation teaching, for the benefit of teachers and learners alike. The various contributions provide a rich source of inspiration for other researchers and practitioners concerned with 'corpora in translator education'. Contributors include Stig Johansson, Tony McEnery, Kirsten Malmkjær, Jennifer Pearson, Lynne Bowker, Krista Varantola, Belinda Maia and a number of other scholars.

The Color of My Words A New

Reference Grammar of Modern Spanish
This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

Named one of BBC History Magazine's "Books of the Year" in 2010 In this groundbreaking study, D. R. M. Irving reconnects the Philippines to current musicological discourse on the early modern Hispanic world. For some two and a half centuries, the Philippine Islands were firmly interlinked to Latin America and Spain through transoceanic relationships of politics, religion, trade, and culture. The city of Manila, founded in 1571, represented a vital intercultural nexus and a significant conduit for the regional diffusion of Western music. Within its ethnically diverse society, imported and local musics played a crucial role in the establishment of ecclesiastical hierarchies in the Philippines and in propelling the work of

Roman Catholic missionaries in neighboring territories. Manila's religious institutions resounded with sumptuous vocal and instrumental performances, while an annual calendar of festivities brought together many musical traditions of the indigenous and immigrant populations in complex forms of artistic interaction and opposition. Multiple styles and genres coexisted according to strict regulations enforced by state and ecclesiastical authorities, and Irving uses the metaphors of European counterpoint and enharmony to critique musical practices within the colonial milieu. He argues that the introduction and institutionalization of counterpoint acted as a powerful agent of colonialism throughout the Philippine Archipelago, and that contrapuntal structures were reflected in the social and cultural reorganization of Filipino communities under Spanish rule. He also contends that the active appropriation of music and dance by the indigenous population constituted a significant contribution to the process of hispanization. Sustained "enharmonic engagement" between Filipinos and Spaniards led to the synthesis of hybrid, syncretic genres and the emergence of performance styles that could contest and subvert hegemony. Throwing new light on a virtually unknown area of music history, this book contributes to current understanding of the globalization of music, and repositions the Philippines at the frontiers of research into early modern intercultural exchange.

The Night Will Be Long Hau

New York Times Critics' Best of the Year
A landmark event, the complete stories of Machado de Assis finally appear in English for the first time in this extraordinary new translation. Widely acclaimed as the progenitor of twentieth-century Latin American fiction, Machado de Assis (1839–1908)—the son of a mulatto father and a washerwoman, and the grandson of freed slaves—was hailed in his lifetime as Brazil's greatest writer. His prodigious output of novels, plays, and stories rivaled contemporaries like Chekhov, Flaubert, and Maupassant, but, shockingly, he was barely translated into English until 1963 and still lacks proper recognition today. Drawn to the master's psychologically probing tales of fin-de-siecle Rio de Janeiro, a world populated with dissolute plutocrats, grasping parvenus, and struggling spinsters, acclaimed translators Margaret Jull Costa and Robin Patterson have now combined Machado's seven short-story collections into one volume, featuring seventy-six stories, a dozen appearing in English for the first time. Born in the outskirts of Rio, Machado displayed a precocious interest in books and languages and, despite his impoverished background, miraculously became a well-known intellectual figure in Brazil's capital by his early twenties. His daring narrative techniques and coolly ironic voice resemble those of Thomas Hardy and Henry James, but

more than either of these writers, Machado engages in an open playfulness with his reader—as when his narrator toys with readers' expectations of what makes a female heroine in “Miss Dollar,” or questions the sincerity of a slave's concern for his dying master in “The Tale of the Cabriolet.” Predominantly set in the late nineteenth-century aspiring world of Rio de Janeiro—a city in the midst of an intense transformation from colonial backwater to imperial metropolis—the postcolonial realism of Machado's stories anticipates a dominant theme of twentieth-century literature. Readers witness the bourgeoisie of Rio both at play, and, occasionally, attempting to be serious, as depicted by the chief character of “The Alienist,” who makes naively grandiose claims for his Brazilian hometown at the expense of the cultural capitals of Europe. Signifiers of new wealth and social status abound through the landmarks that populate Machado's stories, enlivening a world in the throes of transformation: from the elegant gardens of Passeio Público and the vibrant Rua do Ouvidor—the long, narrow street of fashionable shops, theaters and cafés, “the Via Dolorosa of long-suffering husbands”—to the port areas of Saúde and Gamboa, and the former Valongo slave market. One of the greatest masters of the twentieth century, Machado reveals himself to be an obsessive collector of other people's lives, who writes: “There are no mysteries for an author who can scrutinize every nook and cranny of the human heart.” Now, *The Collected Stories of Machado de Assis* brings together, for the first time in English, all of the stories contained in the seven collections published in his lifetime, from 1870 to 1906. A landmark literary event,

this majestic translation reintroduces a literary giant who must finally be integrated into the world literary canon.

Investigating Translation Sourcebooks, Inc.

While many professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this

view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of directionality and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence, student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.

The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of 'travelling' and imitation or adaptation of entire texts, genres, forms or contents.

Transfer comprises all sorts of 'travelling', with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication, starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading, and interpretation. Translation, therefore, forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus, they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.
