A contemporary perspective on the problem of design and the visual arts, this book investigates the visual experience through four key disciplines: art, craft/technology, design, and science. It discusses visual fundamentals such as line, form, colour, and composition, as well as social issues such as environmental responsibility, non-Western art history, gender, locality, and cultural diversity -- all of which have an impact on current creative processes. This broad viewpoint shows how artists can create meaningful work that has cultural integrity.

"Ms. Finley hasn't lost the power to disturb."—Ben Brantley, *The New York Times* No other performing artist has captured the psychological complexity of this decade as Karen Finley has. In her inimitable style, she has embodied some of the most troubling figures to cast a long shadow on the public imagination, and has envisioned a kind of catharsis within each drama: Liza Minnelli responds to the September 11 attacks; Terri Schiavo explains why Americans love a woman in a coma; Martha Stewart dumps George W. Bush during their tryst on the eve of the Republican National Convention; Silda Spitzer tells the former governor why "I'm sorry" just isn't enough; and the ghost of Jackie O cries, "Please stop looking at me!" *The Reality Shows* is a revelation of a decade by one of our greatest interpreters of popular and political culture.

This is a revised edition of the bestselling book about the life and work of artist and musician Rory McEwen (1932-82). A legend in his lifetime and still admired thirty years after his death, his main legacy is the wonderfully luminous and detailed flower paintings he produced throughout his life, of anemones, auriculas, tulips, fritillaries, and of often battered, dying leaves or mouldering vegetables.

"Largely as a result of Leonardo's innovative work for the Sforza court in Milan, a rich vein of naturalism developed in North Italian art during the late fifteenth century. Questioning the strongly classicizing, idealized style dominant in areas south of the Apennines, artists in the region of Lombardy turned to an investigation of the natural world based on direct observation and adherence to strict visual truth. This heritage of realism continued to be of key importance for more than two hundred years, finding its greatest expression in the art of Caravaggio and eventually influencing the course of Baroque painting throughout Europe. Religious scenes, portraits, and landscapes were

all transformed by this new naturalism, which also spurred an interest in still lifes and genre scenes as subjects for paintings. *Painters of Reality*, titled after an influential exhibition held in Milan more than fifty years ago, is the first study in English of this major aspect of Italian art. Reexamining the subject in light of copious subsequent scholarship, the authors of this volume contribute major essays that define and discuss naturalism as it appeared in both Lombard paintings and drawings. There is also a fresh consideration of the Northern Italian predecessors whose influence is apparent, either directly or indirectly, in the paintings of Caravaggio. More detailed discussions of the subject center on the precise elements that constituted Leonardo's "hypernaturalism"; the important schools of painting that arose in Brescia, Bergamo, Cremona, and Milan; and Caravaggio's most notable successors in northern Italy, who kept Lombard realism alive into the eighteenth century. Map, artists' biographies, bibliography, and index are also included" -- Metropolitan Museum of Art website.

"My painting carries within it the message of pain". Frida Kahlo--born in 1907 near Mexico City--learned about pain at a very early age. She contracted polio at six, and then at eighteen suffered serious and permanent injury to her right leg and pelvis in a terrible bus accident. Young and undaunted, she went on to fall in love with the great mural painter Diego Rivera at a time when their native Mexico was going through a period of thrilling political and cultural upheaval. Rivera and Kahlo were a legendary couple--both were impassioned, lifelong communists while fervently attached to traditional Mexican Indian culture, and both were driven by a relentless artistic ambition that surmounted all the dramas that plagued their marriage. Later, Frida became the friend and lover of Leon Trotsky. She was greatly admired by the Surrealists and sat for some of the greatest photographers of her day. Her art largely consisted of self-portraits, like the famous paintings "The Two Fridas" and "The Broken Column," though she also left many striking still-lives. In "Frida Kahlo: Painting Her Own Reality," Christina Burrus assesses Frida Kahlo's extraordinary work--a maelstrom of cruelty, humor, candor, and insolence reflecting the essence of a free, beautiful, courageous woman who concealed her physical pain behind peals of infectious laughter.

By the end of the 1960s a revolution had taken place in the perception and practice of art in Europe and North America. This book, the first detailed account of developments centered around the conceptual art movement, highlights the main issues underlying visually disparate works dating from the second half of the 1960s to the end of the 1970s. These works questioned the accepted categories of painting and sculpture by embracing a wealth of alternative media and procedures. Traditional two- and three-dimensional representations were supplanted by a variety of linguistic and photographic means, as well as installations that brought into play the importance of presentation and site. Through close examination of individual works and artists, Anne Rorimer demonstrates the pervading desire to redefine the characteristics of what was once accepted as truly visual in order to dispel earlier assumptions and offer other criteria for seeing. Artists whose work is discussed in depth include Robert Rauschenberg, Gerhard Richter, Joseph Kosuth, Lawrence Weiner, Eleanor Antin, John Baldessari, Gilbert & George, Sol LeWitt, Adrian Piper, Bruce Nauman, Vito Acconci, Marcel Broodthaers, Robert Smithson, Daniel Buren, and Michael Asher. Forerunners of the period such as Jasper Johns, Robert Rauschenberg, Andy Warhol, Frank Stella, Piero Manzoni, Joseph Beuys, Allan Kaprow, and Fluxus are also included. 303 illustrations.

This book looks at a refined selection of drawings by Alberto Giacometti and examines them against the background provided by more than one hundred letters exchanged between Giacometti and his parents, the majority of which have not previously been published. The choice of drawings and the selected correspondence illuminate important aspects of the development of Giacometti's work over

five decades of his life. Furthermore, Patrick de Vries examines Alberto Giacometti's friendships with important contemporary artists such as Pablo Picasso, Francis Gruber, Balthus, and Tal-Coat, and discloses the artists' views of each other, as well as links and dissimilarities in their work. Discussions with Giacometti's friend, the Japanese philosopher Isaku Yanaihara, reveal interesting insights into the, rarely discussed, subject of Giacometti's fascination with East Asian Art.

Kuzma Vostrikov and Ajuan Song's *Absolutely Augmented Reality* takes as its subject the intersection of fine art, photography, and the idea of authorship through a series of richly saturated, theatrical, and symbolic images that use costume, character, and allegory to create a sense of exploration and melancholic intrigue. In this dream world of strange and alluring portraiture, the viewer is delighted by a host of archetypal images, hybrid creatures, surreal motifs, and canonical postures, as well as inversions of iconic art historic references. Appealing to fine art, design, and photography fans alike, this new book features some one hundred color images from Vostrikov and Song's previously unpublished collaborative work. Alongside the photographs it features a brief introductory text by art historian Rosa J. H. Berland and critical essays by art critic Anthony Haden-Guest and Lilly Wei, as well as two interviews with the artists conducted by Iona Whittaker and Arnau Salvadó.

The Art of Confession Routledge

Mark Rothko (1903-1970), world-renowned icon of Abstract Expressionism, is rediscovered in this wholly original examination of his art and life written by his son. Synthesizing rigorous critique with

personal anecdotes, Christopher, the younger of the artist's two children, offers a unique perspective on this modern master. Christopher Rothko draws on an intimate knowledge of the artworks to present eighteen essays that look closely at the paintings and explore the ways in which they foster a profound connection between viewer and artist through form, color, and scale. The prominent commissions for the Rothko Chapel in Houston and the Seagram Building murals in New York receive extended treatment, as do many of the lesser-known and underappreciated aspects of Rothko's oeuvre, including reassessments of his late dark canvases and his formidable body of works on paper. The author also discusses the artist's writings of the 1930s and 1940s, the significance of music to the artist, and our enduring struggles with visual abstraction in the contemporary era. Finally, Christopher Rothko writes movingly about his role as the artist's son, his commonalities with his father, and the terms of the relationship they forged during the writer's childhood. *Mark Rothko: From the Inside Out* is a thoughtful reexamination of the legendary artist, serving as a passionate introduction for readers new to his work and offering a fresh perspective to those who know it well.

Mark Rothko Univ of North Carolina Press

Annotation. One of the most important artists of the twentieth century, Mark Rothko (1903-1970) created a new and impassioned form of abstract painting over the course of his career. Rothko also wrote a number of essays and critical reviews during his lifetime, adding his thoughtful, intelligent, and opinionated voice to the debates of the contemporary art world. Although the artist never published a book of his varied and complex views, his heirs indicate that he occasionally spoke of the existence of such a manuscript to friends and colleagues. Stored in a New York City warehouse since the artist's death more than thirty years ago, this extraordinary manuscript, titled *The Artists Reality*, is now being published for the first time. Probably written around 1940-41, this revelatory book discusses Rothko's ideas on the modern art world, art history, myth, beauty, the challenges of being an artist in society, the true nature of American art, and much more. *The Artists Reality* also includes an introduction by Christopher Rothko, the artist's son, who describes the discovery of the manuscript and the complicated and fascinating process of bringing the manuscript to publication. The introduction is illustrated with a small selection of relevant examples of the artist's own work as well as with reproductions of pages from the actual manuscript. *The Artists Reality* will be a classic text for years to come, offering insight into both the work and the artistic philosophies of this great painter.
