Learn how to inspire your audience with best-selling author Paul McGee! 13 things you'll discover when reading this book... 1. The big lesson Steve Jobs learnt when an advertising exec threw something at him... and how it will help how you communicate. 2. Seven ways to manage your nerves (surprisingly, you don't want to eliminate them). 3. Why our obsession with body language is

totally wrong, and what to focus on instead. 4. Why you must think about a beachball before you next speak. Believe me, it's essential. 5. A question your audience is always thinking, and how to ensure you provide the answer. 6. The most common mistake experienced presenters make that nervous ones never do. 7. Why so many presentations cure insomnia, and how to make sure you're serving an extra strong double espresso instead. 8. The number one thing most presenters forget to bring when they're speaking to others. 9. Discover the most underprepared part of your presentation, and how to avoid

making the same mistake. 10. What women's magazines and TV soap operas have to teach us about audience engagement. 11. What I learnt from a guy with one of the most powerful memories on the planet, and how it can transform your communication. 12. Discover Tony Blair's biggest fear when Prime Minister, and how you can tackle the same issue with confidence. 13. Why you don't have to be funny to use humour in your presentation, and three easy ways to do it.

Who Moved My Cheese? Houghton Mifflin Harcourt

Shut Up, Stop Whining, and Get a Life was immediately hailed as "not your average self-help book" and demanded attention and praise right out of the gate. It is now considered one of the

icons of the personal development movement. Now, Larry Winget is back with his signature caustic, no-nonsense, hilarious style, which earned him the titles "Pitbull of Personal Development®" and "World's Only Irritational Speaker®." Winget's "get off your butt and go to work" approach to self-improvement boils success down to a simple formula: Everything in your life gets better when you get better. Get tangible advice from one of the world's most successful speakers and the author of five bestselling books and television personality. Learn the keys to turning your life, money and business around. Stop making excuses, stop blaming others and take responsibility for your life and your results The brutal advice he offers has changed the lives of millions

of people and increased sales for countless businesses. In this Second Edition of Shut Up, Stop Whining, and Get a Life, Winget takes the same principles and expands the lessons with brand new examples, stories, and added wisdom. It may sound ruthless, but your life is your own fault and if you shut up, stop whining, and take action you can create a better life.

A guide to recognising, managing, overcoming and surviving the work-related stress suffered by so many teachers and school leaders working in schools today. This unique, honest, provocative and humorous analysis of the challenges of leading a 21st century school is filled with scenarios and strategies guaranteed to inspire,

reassure and help leaders overcome the pressures on them. In addition to helping school leaders recognise and manage stress in themselves, the book covers how to help and support members of staff to manage stress levels and the pressures of their job. School staff suffering from and not being able to manage high-levels of stress is a huge barrier to school improvement as well as successful sustainable educational leadership. Stress in schools is on the increase as teachers and leaders have higher imposed targets than ever before and feel like they have less support. A recent report stated that two-fifths of teachers are leaving the profession within five years of starting and teachers taking leave due to stress is also on the increase (it was reportedly up 10% over

the last 4 years in 2012 and on the increase). Stress in the teaching profession has often gone untalked about and headteachers especially feel unable to talk about it openly, however it is very prevalent in the news at the moment, especially since the head of Ofsted Sir Michael Wilshaw caused outrage when he said that teachers do not know what stress is. *Leading From the Edge* is unique because it looks at work related-stress from a school leader's personal experience. James Hilton worked as a headteacher for 15 years in large schools. Following a nervous breakdown, brought on by work-related stress in 2006 and after a significant period of absence, he returned to headship, more self-aware than before. Chris Roome, the mental

health therapist who taught him many of the positive strategies he learned in his recovery will act as a consultant on the book adding significant credibility to the work. Each chapter will conclude with learning points and a wealth of practical self-help strategies. Foreword by Richard Gerver.

S.U.M.O. stands for Shut Up, Move On. It's a phrase to say to ourselves (and sometimes others) when we are acting or thinking in a way that is hindering our ability to succeed. It doesn't necessarily mean 'get over it' or 'pull yourself together' (although there may be occasions when both responses are necessary). 'Shut Up' means stop what you're doing, take time out to reflect, let go of baggage and beliefs that hinder

your potential. 'Move On' means tomorrow can be different from today, look for new possibilities, don't just think about it, take action. There are six S.U.M.O. principles that are designed to help you create and enjoy a brilliant life. If you are wrestling with life's challenges, these principles will help you do so more successfully. 1. Change Your T-Shirt - take responsibility for your own life and don't be a victim. 2. Develop Fruity Thinking - change your thinking and change your results. 3. Hippo Time is OK - understand how setbacks affect you and how to recover from them. 4. Remember the Beachball - increase your understanding and awareness of other people's world. 5. Learn Latin - change comes through action not intention. Overcome the tendency to put things off.

6. Ditch Doris Day - create your own future rather than leave it to chance. Forget the attitude 'que sera, sera, whatever will be, will be.' "A superb book. It combines honesty, humour and inspiration to help people move ahead in life." —Allan and Barbara Pease, authors of *Why Men Don't Listen and Women Can't Read Maps* "Powerful, simple and effective. A highly engaging and thought provoking book. Anyone who reads it is sure to look at themselves and the world differently as a result." —Octavius Black and Sebastian Bailey, *The Mind Gym* The S.U.M.O. guy is Paul McGee, an international speaker and author. He has been developing the S.U.M.O. principles over the last five years.

Written by Claire Banks and Mick Waters, *A Curious Curriculum: Teaching foundation subjects well* details the insightful and transformational steps that a school can take towards designing and delivering a rich, rigorous and wide-ranging curriculum. Foreword by Mary Myatt. Rather than being a model curriculum that can be uprooted and

planted in any school, the book is a model schools can use to design their own curriculum, one that not only encourages children to be active participants in their own learning, but also to see the benefits of being part of a bigger, wider family of learners. The authors concentrate on the foundation subjects, particularly history, geography and science but also design and technology (DT) and art and design areas that are often challenging for teachers in primary schools. Subjects are brought together and explored under "big ideas" and, crucially, the emphasis is on avoiding the superficial and trivial and rooting teaching in extending and challenging children. In *A Curious Curriculum*, Claire Banks and Mick Waters share the story of one multi-

academy trust (MAT) which designed and delivered a shared educational vision, a rationale for excellence in the curriculum, and the resources and support given to help reduce teachers' workload. Claire and Mick present a clear model both for supporting a group of schools or leading one school, offering a fresh perspective on working on a MAT-wide curriculum, as well as providing a range of snapshot examples of the curriculum in action in the form of documents, plans, photos and the learners' own work. The book shares transferrable lessons from the trust's journey to success, setting out an educational philosophy that pairs pedagogy with a well-structured curriculum designed with learners' best interests at its heart. All children deserve

an engaging, exciting curriculum designed to spark their curiosity, feed their imagination and develop their skills and knowledge. With clear timelines and an honest and transparent dialogue about the challenges and benefits of working together collaboratively and the importance of external expertise, A Curious Curriculum is an essential read for all school leaders. Suitable for executive leaders, head teachers, curriculum coordinators and subject leaders in primary school settings.

 In an unnamed Third World country, in the not-so-distant future, three “dumpsite boys” make a living picking through the mountains of garbage on the outskirts of a large city. One unlucky-lucky day, Raphael finds something very special and very mysterious. So mysterious that he decides to keep it, even when the city police offer a handsome reward for its return. That decision brings with it terrifying consequences, and soon the dumpsite boys must use all of their cunning and courage to stay ahead of their pursuers. It’s up to Raphael, Gardo, and Rat—boys who have no education, no parents, no homes, and no money—to solve the mystery and right a terrible wrong. Andy Mulligan has written a powerful story

about unthinkable poverty—and the kind of hope and determination that can transcend it. With twists and turns, unrelenting action, and deep, raw emotion, *Trash* is a heart-pounding, breath-holding novel.

Stars, two teens fall in love with just one minor complication—they can't get within a few feet of each other without risking their lives. Can you love someone you can never touch? Stella Grant likes to be in control—even though her totally out of control lungs have sent her in and out of the hospital most of her life. At this point, what Stella needs to control most is keeping herself away from anyone or anything that might pass along an infection and jeopardize the possibility of a lung transplant. Six feet apart. No exceptions. The only thing Will Newman wants to be in control of is getting out of this hospital. He couldn't care less about his treatments, or a fancy new clinical drug trial. Soon, he'll turn eighteen and then he'll be able to

unplug all these machines and actually go see the world, not just its hospitals. Will's exactly what Stella needs to stay away from. If he so much as breathes on Stella she could lose her spot on the transplant list. Either one of them could die. The only way to stay alive is to stay apart. But suddenly six feet doesn't feel like safety. It feels like punishment.

What if they could steal back just a little bit of the space their broken lungs have stolen from them? Would five feet apart really be so dangerous if it stops their hearts from breaking too?
