In 1860 Abraham Lincoln employed the proverb, Right makes might, (opposite of the more aggressive

<p>Might makes right) in his famed Cooper Union address. While Lincoln did not originate the proverb, his use of it in this critical speech indicates that the 14th century phrase had taken on new ethical and democratic connotations in the 19th century. In this collection, famed scholar of proverbs Wolfgang Mieder explores the multifaceted use and function of proverbs through the history of the</p>	<p>United States, from their early beginnings up through their use by today's well-known politicians, including Barack Obama, Hillary Rodham Clinton, and Bernie Sanders. Building on previous publications and unpublished research, Mieder explores sociopolitical aspects of the American worldview as expressed through the use of proverbs in</p>	<p>politics, women's rights, and the civil rights movement. By looking at the use of proverbial phrases, Mieder demonstrates how one traditional phrase can take on numerous expressive roles over time and how they continue to play a key role in our contemporary moment. <u>4,000 Idiomatic Expressions</u> McGraw Hill Professional Don't sound like una momia--add a</p>

Thematic Dictionary of American Slang McGraw Hill Professional
With its unparalleled coverage of English slang of all types (from 18th-century cant to contemporary gay slang), and its uncluttered

editorial apparatus, Cassell's Dictionary of Slang was warmly received when its first edition appeared in 1998. 'Brilliant.' said Mark Lawson on BBC2's The Late Review; 'This is a terrific piece of work - learned, entertaining, funny, stimulating' said Jonathan Meades in The Evening Standard. But now the world's best single-volume dictionary of English slang is about to get even better.

Jonathon Green has spent the last seven years on a vast project: to research in depth the English slang vocabulary and to hunt down and record written instances of the use of as many slang words as possible. This has entailed trawling through more than 4000 books - plus song lyrics, TV and movie scripts, and many newspapers and magazines - for relevant material. The

research has thrown up some fascinating results
