We're all faced with challenges in our lives which in the moment often seem unsurmountable and hopeless. That was the case for Sophie, a high school student who found herself sitting on a park bench one torturous autumn day, ready to end her life and her struggle. In Sophie's moment of truth, a stranger suddenly appeared next to her, offering his handkerchief which was embroidered with these words: "If you want your life to change, you must change." Little did she know the adventure she was about to embark upon as a young woman, inspired by a mysterious man who called himself Savy. Page by page, Sophie discovers more and more about who she truly is, unmasking the illusion of her false identity and limitations, paving her road to endless love, abundance and a life beyond her wildest dreams. Citizenship studies is at a crucial moment of globalizing as a field. What used to be mainly a European, North American, and Australian field has now expanded to major contributions featuring scholarship from Latin America, Asia, Africa, and the Middle East. The Routledge Handbook of Global Citizenship Studies takes into account this globalizing moment. At the same time, it considers how the global perspective exposes the strains and discords in the concept of 'citizenship' as it is understood today. With over fifty contributions from international, interdisciplinary experts, the Handbook features state-of-the-art analyses of the practices and enactments of citizenship across broad continental regions (Africas, Americas, Asias and Europes) as well as deterritorialized forms of citizenship (Diasporicity and Indigeneity). Through these analyses, the Handbook provides a deeper understanding of citizenship in both empirical and theoretical terms. This volume sets a new agenda for scholarly investigations of citizenship. Its wide-ranging contributions and clear, accessible style make it essential reading for students and scholars working on citizenship issues across the humanities and social sciences.

If at the end of everything, we all have the chance to reflect on the life we led, the most common question would be: Did I make the most of my life? For many, I am afraid, the answer would be no, followed by a pang of regret. Yes, many of those answering no would be people with well-paying jobs. They were rich and comfortable, but deep down in their soul, there was an aching emptiness they just could not fill. Why? Beyond their jobs and career, they had nothing more to live for, nothing noble or greater to dedicate their lives to. LIVING BY THE SCRIPT: MAKING THE MOST OF YOUR LIFE is a book written to inspire perspective on life. This book will help people develop clarity of purpose and show them how they can make the most of their life.

Leading Learning/Learning Leading: A Retrospective on a Life's Work The Script of Life in Modern SocietyEntry Into Adulthood in a Changing World Employing her original concept of the ontopoiesis of life, the author uncovers the intrinsic law of the primogenital logos - that which operates in the working of the indivisible dyad of impetus and equipoise. This is the crucial, intrinsically motivated device of logocic constructivism. This key instrument is engaged - is at play - at every stage of the advance of life. In a feat unprecedented in the history of western philosophy, the emergence and unfolding of the entire orbit of the human universe is shown to bear out this insight. Furthermore, the intrinsic rhythms of impetus and equipoise are taken as a guide in uncovering the workings of the logos all at once, in contrast to the piecemeal exposition of a single line of argument. In a schema covering the entire career of beingness-in-becoming between the infinities of origin and destiny, an historically unprecedented harmonizing all sectors of rationality is accomplished in a span of reflection comparable to Spinoza's Ethics. The work draws on interdisciplinary investigations in both science and the arts. All of the history of Occidental philosophy finds summary in it, even as feelers, guidelines, leitmotifs are thrown out for its future development. A landmark of Occidental philosophy at the turn of the millennium.

Manifest Your Ex Back Simon and Schuster

This book is all about stories. The stories that shape our identities and how those identities shape our destinies for better or worse, for good or evil, in humanizing or dehumanizing ways. Working from the Shakespearian metaphor, All the world s a stage and all the men and women merely players, Pellegrini argues that only by understanding how our storied selves develop can we acquire the tools to modify the roles they dictate for us to play on the stage in the theater of real life. The author deconstructs a wide variety of what he calls toxic, dehumanizing, death-oriented self-scripts as well as creative, humanizing, life-oriented narratives of groups as well as individuals. Following the Native American parable of two wolves engaged in mortal combat within us, one good the other evil, the fundamental premise here is that our identity determines which of our inner wolves we feed and thus, which of them will prevail. Pellegrini maintains that what s at stake in this battle between humanity s collective inner wolves, is not just the quality but the very survival of life on earth. From this perspective, as individual and group selves are humanizingly or dehumanizingly narratizedby the way we exercise our God-given free will in the choices we make, so shall life be impacted throughout the world. To advance the cause of detoxifying identities in our global society, the author presents a rationale and program for an international grass roots social movement aimed at achieving a universal sense of belongingness to a global life system. The process is backed by science and experience, yet it feels like magic. And all you need is a pen and paper. Inspired by New Thought and Positive Thinking classics, Christyn explains how he developed his scripting method through 4 years of trial and error, keeping what worked and dropping what didn't until he brought his success rate from 5% to nearly 100%. Sharing pages from his own journals, he outlines how to create the life you want with daily journaling exercises, beginning with a simple list-making practice to figure out your wants and intentions and then progressing to actual scripting of your future, whether the next 12 hours or the next 10 days. He shows how, over time, your scripts will increase in accuracy until they converge with reality. He shares the vivid entries from his big breakthrough--when he successfully used his method to land a lead guest-starring role on Disney Channel's Wizards of Waverly Place with Selena Gomez. He explores how "feeling" your future success as you write your daily scripts helps attract your desired outcomes, and he shares the key phrases to include to make your script come true. The author also explores the science behind how the scripting method works, including a down-to-earth examination of quantum mechanics. From small dreams to lifelong goals, this book gives you the tools to put your thoughts into action and finally close the gap between where you are and where you want to be in your life.
