## **JOSIAH CONRAD**

### The Essential Guide to English Language

Teaching Routledge

The corpus-based studies in this volume explore biomedical research writing in English from a variety of perspectives. The articles in this collection delve into the lexicographic issues involved in building an electronic database of collocations and lexical bundles, offer insight on the teaching and learning of prototypical multiword units of meaning in biomedical discourse, and view written scientific English through the lens of such diverse fields as phraseology, metaphor, gender and discourse analysis. The research presented in this book forms the theoretical and methodological foundation of SciE-Lex, a lexical database of collocations and prefabricated expressions designed to help scientists write scientific papers in English accurately. The concluding chapter on FrameNet addresses frame semantics, whose application to the cross-

linguistic study of scientific language will open new and promising avenues of research in the study of specialized languages.

1961-1971 Copyright Office, Library of Congress

This volume explores linguistic metaphor identification in a wide variety of languages and language families. The book is an essential read for anyone interested in researching language and metaphor, from students to experienced scholars. Its primary goals are to discuss the challenges involved in applying the Metaphor Identification Procedure Vrije Universiteit (MIPVU) to a range of languages across the globe, and to offer theoretically grounded advice and guidelines enabling researchers to identify metaphors in multiple languages in a valid and replicable way. The volume is intended as a practical guidebook that identifies and discusses procedural challenges of metaphor identification across languages, thus better enabling researchers to reliably identify metaphor in a multitude of languages. Although able to be read independently, this volume – written by metaphor researchers

from around the world – is the ideal companion volume for the 2010 Benjamins book *A Method for Linguistic Metaphor Identification: From MIP to MIPVU*.

Macmillan English, Level 1

Macmillan Education AU

A series of texts on English grammar, usage, composition and skills with exercises for each level.

*Macmillan English Practice Book* MACMILLAN

The exponential growth and development of modern technologies in all sectors has made it increasingly difficult for students, teachers and teacher educators to know which technologies to employ and how best to take advantage of them. The Routledge Handbook of Language Learning and Technology brings together experts in a number of key areas of development and change, and opens the field of language learning by exploring the pedagogical importance of technological innovation. The handbook is structured around six themes: historical and conceptual contexts core issues interactive and collaborative technologies for language learning corpora and data driven learning gaming and

language learning purpose designed language learning resources. Led by fundamental concepts, theories and frameworks from language learning and teaching research rather than by specific technologies, this handbook is the essential reference for all students, teachers and researchers of Language Learning and TESOL. Those working in the areas of Applied Linguistics, Education and Media Studies will also find this a valuable book.

**Technology** Macmillan Education AU  
Ghostwriting is a thriving, secretive industry. As a ghostwriter you can create best-selling books for film stars, footballers, pop singers, presidents, business tycoons, gangsters, gurus, spies, mercenaries, courtesans, four-star generals, royals and anyone else with an interesting story to tell. This book reveals all the essential secrets of how to turn ghostwriting into a successful and lucrative career. Andrew Crofts has ghosted more than forty books, many of them international bestsellers, including *Sold* by Zana Muhsen (nearly 4 million copies sold), *The Kid* by Kevin Lewis, *Heroine of the Desert* by Donya Al-Nahi, *Kathy and Me* by Gillian Taylforth and *Crocodile Shoes* by Jimmy Nail.

MacMillan

This workbook for Year 3 is part of the whole-school spelling program that helps every student become a good speller. The activities help develop different forms of spelling knowledge that enable spelling to move from working memory into long-term memory making spelling stick. These different forms of knowledge include:  
kinaesthetic - the physical feeling when saying sounds  
phonological - the sound of spelling  
visual - the look and patterns of spelling  
morphemic - the meaning of words

MacMillan Education ELT  
This book investigates variation in the classroom speech of 7-year-old children who are learning Standard Jamaican

English as a second language variety in rural Jamaica. For sociolinguists and second language/dialect researchers interested in the acquisition and use of sociolinguistic variables, an important challenge is how to efficiently account for language learning mechanisms and use. To date, this book is the first to offer an interdisciplinary look into phonological and phonetic variation observed in primary school in Jamaica, that is from the perspective of classic variationist and quantitative sociolinguistics and a usage-based model. Both frameworks function as explanatory for the children's learning of phono-stylistic variation, which they encounter in their immediate linguistic environment, i.e. most often through their teachers speech. This book is intended for sociolinguists interested in child language variation, linguists working on formal aspects of the languages of the Caribbean, applied linguists concerned with the teaching and learning of second language phonology, and any researchers interested in applying variationist and

quantitative methods to classroom second language learning."

HSC 2 Unit Contemporary English, 1994 MacMillan

This book explores the interfaces of English as a Lingua Franca (ELF) and English as a Foreign Language (EFL)

pedagogy. It presents the theoretical aspects of ELF, discusses issues and challenges that ELF raises for the EFL classroom, and demonstrates how EFL practitioners can make use of ELF theorizing for classroom instruction, teacher education, developing language learning materials, policymaking and testing and assessment. Accounts of innovative and practical pedagogical practices and researchers' insights from diverse geographical, cultural and institutional contexts will inform and inspire EFL practitioners to reconsider their practices and adopt new techniques in order to meet their learners' diverse communicative needs in international contexts.

Macmillan English Practice Book

*A Newspaper of British and Foreign Literature*

National Library Australia  
This 12-volume set contains titles originally published between 1957 and 1992. International in scope, the set looks at security and military history covering several battles, particularly the first and second world wars. Highlighting the difference between theory and practice, it also explores the people involved in the policy making and strategy of war, and the leaders tasked with carrying those decisions out.

*1969: July-December* A&C Black

Whilst maintaining the accessibility for the beginner, the level of this second edition has been raised by the addition of much more detail, a greater focus on theories and controversies, and a clearer route to key works in the field. *History of English*: examines the history of the English language in order to explain the English that is used today introduces key linguistic concepts provides 'discussion points' to generate debate involves readers in

collecting and analyzing their own data contains a 'mini-corpus' of texts, used for exercises and to illustrate points raised in the commentary. Revised throughout, this updated edition contains a new internet resource section and an updated further reading section, to help readers take their study further.

**Edition** Macmillan Elt

*Alice in Wonderland* (also known as *Alice's Adventures in Wonderland*), from 1865, is the peculiar and imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influenced generations of fiction writing.
