The Man-Eating Tigers of Sundarbans Ponytale Books

Jim Corbett is world famous for his classic Man-eater stories. However, the three volumes collected here show a very different side to this remarkable man. In Man-Eaters of Kumaon: It details the experiences that Corbett had in the Kumaon region of India from the 1900s to the 1930s, while hunting man-eating Bengal tigers and Indian leopards. One tiger, for example, was responsible for over 400 human deaths. Man-Eaters of Kumaon is the best known of Corbett's books, and contains 10 stories of tracking and shooting man-eaters in the Indian Himalayas during the early years of the twentieth century. In The Man-Eating Leopard of Rudraprayag: An exciting narrative of a leopard that spread terror through five hundred square miles of the hills of the United Provinces, The Man-eating Leopard of Rudraprayag also takes a detailed look at life in the Garhwal region of India. The Man Eating Leopard of Rudraprayag is often considered the most exciting of all Corbett's jungle tales. The Man-eating Leopard of Rudraprayag is also an ode to the people who inhabit the hills and the resilience with which they face the hardships that assail them. In My India: Jim Corbett describes the villages of the Kumaon Hills, and the customs and lifestyles of the people he encountered. *The Man-eating Leopard of Rudraprayag* Macmillan + ORM From slaughters, shootouts, and massacres to maulings, lynchings, and natural disasters, Cowboys, Mountain Men, and Grizzly Bears cuts to the chase of what draws people to the history and literature of the Wild West. Matthew P. Mayo, noted author of Western novels, takes the fifty wildest episodes in the region's history and presents them in one action-packed volume. Set on the plains, mountains, and deserts of the West, and arranged chronologically, they capture all the mystique and allure

of that special time and place in America's history. Read about: John Colter's harrowing escape from the Blackfeet Hugh Glass's six-week crawl to civilization after a grizzly attack Janette Riker's brutal winter in the Rockies John Wesley Powell's treacherous run through the rapids of the Grand Canyon The Earp Brothers' hot-tempered gun battle at Tombstone General Custer's ill-advised final clash with the Sioux

The Jim Corbett Omnibus W. W. Norton & Company

This is the story of a mysterious leopard that terrorized Thunag, a small town in Mandi District of Himachal Pradesh. It is about the extraordinary experience of sitting on a tree-top Machan, walking the forests in the middle of the night, and the adventures of chasing a man-eater. It is about the fear of living in the realm of a man-eater. This book gives an insight into the behaviour of a leopard derived from various sources of traditional knowledge. The description of the basic instincts, the strengths and the weaknesses of the big cat, and their linkage with the short tales of experience will keep you engrossed. Whether it is the changing perceptions of the human-leopard conflict, the modifications in the social behaviour that a man-eater brings along, or the challenges involved in dealing with a man-eater, the book describes it all. At the same time, it highlights the gaps in the system, grey areas which need research, and the need for people to remain connected with nature. This personal memoir is an exciting and useful read for people of all ages and professions, especially the environmentalists, foresters, bureaucrats, and wildlife enthusiasts.

Rudraprayag Ka Aadamkhor Bagh Rupa Publications India

Jim Corbett is famous for his exploits as a hunter, but there was so much more to the man than tracking down man-eating tigers and leopards. In fact, 'Carpet Sahib' (as many Indians called him) was a conservationist at heart, with a deep love for jungles - its flora and fauna; and its inhabitants - the birds and the animals, and the people - who lived in the lush Kumaon hills. It is this side of Corbett that comes to the fore in Jungle Lore. Almost autobiographical in nature, Jungle Lore sees Corbett talk of his boyhood, the people he met, lessons he learnt in absorbing the jungle, his concern for the jungles and environment, and of

course, there are doses of hunting expeditions too. There is even the odd story of detection and of supernatural sightings. *Jungle Lore* is the first book anyone should read on Jim Corbett. Simply because it is about Jim Corbett the man who went on to become a famous hunter.

Death in the Long Grass General Press

Jim Corbett's tales of tiger hunts are legendary. Mostly alone, he would traverse the hills and jungles of India, hunting his quarry using blood trails, examining pug marks and following broken twigs and branches, often putting himself at risk. Later, he became a conservationist, taking up the cause of the endangered royal Bengal tiger. This comprehensive volume contains some of Jim Corbett's best-known books and short stories, from *The Man-eating Leopard of Rudraprayag*, a gripping tale of a notorious leopard, to the fascinating stories in *Man-eaters of Kumaon* and *The Temple Tiger*. Showcasing Corbett's acute awareness of jungle sights and sounds and enlivened by his descriptions of village life, this is a must-read for those interested in wildlife and tiger tales.

The Temple Tigers and More Man-Eaters of Kumaon Canongate Books

The acclaimed journalist's New York Times–bestselling essay collection: “hilarious, nimble, and thoroughly illuminating” (Colson Whitehead, author of *The Underground Railroad*). In this highly anticipated debut collection, Brian Phillips demonstrates why he's one of the most iconoclastic journalists of the digital age, beloved for his ambitious, off-kilter, meticulously reported essays that read like novels. The eight essays assembled here—five from Phillips's *Grantland* and MTV days, and three new pieces—go beyond simply chronicling some of the modern world's most uncanny, unbelievable, and spectacular oddities. They explore the interconnectedness of the globalized world, the consequences of history, the power of myth, and the ways people attempt to find meaning. Phillips searches for tigers in India, and uncovers a multigenerational mystery involving an oil tycoon and his niece turned stepdaughter turned wife in the Oklahoma town where he grew up. Dogged and self-aware, Phillips is an exhilarating guide to the confusion and wonder of the world today. If John Jeremiah Sullivan's *Pulphed* was the last great collection of New Journalism from the print era, *Impossible Owls* is the first of the digital age.

Wild Cats of the World Penguin

No Beast So Fierce Saptarshee Prakashan

Did you know that European royalty once used cheetahs to hunt deer, or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start? Have you ever wondered whether domestic cats really do land on their feet when they fall, or how Canada lynx can stalk their prey in the winter without falling through the deep snow? *Wild Cats of the World* is a treasure trove of answers to questions like these, and many others, for anyone who's interested in learning more about the world's felids, including the ones with whom we share our homes. Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source, many of them quite difficult to find, including scientific papers, descriptions of hunts, archeological findings, observations by naturalists and travelers, reports from government agencies, and newsletters from a wide variety of organizations. Weaving information from these sources together with their own experiences observing wild cats around the world, the Sunquists have created the most comprehensive reference on felids available. Each of their accounts of the 36 species of cat contains a description of the cat, including human interactions with it, as well as detailed data on its distribution, ecology and behavior, status in the wild, and efforts to conserve it. Numerous photographs, including more than 40 in full color, illustrate these accounts. Ranging from the two-pound black-footed cat to the five-hundred-pound tiger, and from the African serval with its satellite-dish ears to the web-footed fishing cat of Asia, *Wild Cats of the World* will fascinate and educate felid fans of any stripe (or spot).

THE MAN-EATING LEOPARD OF RUDRAPRAYAG Rupa Publications
"Rich detail and vivid anecdotes of adventure....A treasure trove of exotic fact and hard thinking." —New York Times Book Review
For millennia, lions, tigers, and their man-eating kin have kept our dark, scary forests dark and scary, and their predatory majesty has been the stuff of folklore. But by the year 2150 big predators may only exist on the other side of glass barriers and chain-link fences. Their gradual disappearance is changing the very nature of our existence. We no longer occupy an intermediate position on the food chain; instead we survey it invulnerably from above—so far above that we are in danger of forgetting that we even belong to an ecosystem. Casting his expert eye over the rapidly diminishing areas of wilderness where predators still reign, the award-winning author of *The Song of the Dodo* and *The Tangled Tree* examines the fate of lions in India's Gir forest, of saltwater crocodiles in northern Australia, of brown bears in the mountains of Romania, and of Siberian tigers in the Russian Far East. In the poignant and troublesome ferocity of these embattled creatures, we recognize something primeval deep within us, something in danger of vanishing forever.

The Jim Corbett Omnibus - Penguin Group Australia

An exciting narrative of a leopard that spread terror through five hundred square miles of the hills of the United Provinces, The

Man-eating Leopard of Rudraprayag also takes a detailed look at life in the Garhwal region of India. Apart from Corbett's hair-raising pursuit of the leopard for almost a year, the book talks about the superstitions prevalent in the region, the beauty of the landscape, what turns a leopard into a man-eater and many other, often surprising facts and anecdotes, all told in Corbett's inimitable style. A worthwhile read for all ages, The Man-eating Leopard of Rudraprayag is also an ode to the people who inhabit the hills, and the resilience with which they face the hardships that assail them.

My India University of Chicago Press

'Man-Eaters of Kumaon' is the best known of Corbett's books, one which offers ten fascinating and spine-tingling tales of pursuing and shooting tigers in the Indian Himalayas during the early years of this 19th Century. The stories also offer first-hand information

about the exotic flora, fauna, and village life in this obscure and treacherous region of India, making it as interesting a travelogue as it is a compelling look at a bygone era of hunting. No one understood the ways of the Indian jungle better than Corbett. A skilled tracker, he preferred to hunt alone and on foot, sometimes accompanied by his small dog Robin. Corbett derived intense happiness from observing wildlife and he was a fervent conservationist as well as a tracker. He empathised with the impoverished people amongst whom he lived, in what is today Uttarakhand, and he established India's first tiger sanctuary there. Corbett's writing is as immediate and accessible today as it was when first published in 1944.

Cowboys, Mountain Men, and Grizzly Bears St. Martin's Press
From the master of adventure behind the classic *Death in the Long Grass*, former big-game hunter Peter Hathaway Capstick now turns from his own exploits to those of some of the greatest

hunters of the past with *Death in the Silent Places*. With his characteristic color and flair, Capstick recalls the extraordinary careers of men like Colonel J.H. Patterson and Colonel Jim Corbett, who stalked legendary man-eaters through the silent darkness on opposite sides of the world; men like Karamojo Bell, acknowledged as the greatest elephant hunter of all time; men like the valiant Sasha Siemel, who tracked killer jaguars through the Matto Grosso armed only with a spear. With an authenticity gained by having shared the experiences he writes of, Capstick eloquently recreates the acrid taste of terror in the mouth of a man whose gun has jammed as a lion begins his charge, the exhilaration of tracking and finding a long-sought prey, the bravery and even nobility of performing under circumstances of primitive and savage stress, with death all around in the silent places of the wilderness.
