**Health Insurance** Prentice Hall Professional  
 Engaging texts, new video content and a comprehensive digital package are just some of the features that make this fully revised edition even more effective.

*Working Effectively with Legacy Code* Longman  
 This book is an interactive, hands-on guide to negotiating, drafting and litigating agreements in the context of representation of professional athletes. The book begins with the negotiation and drafting of a standard form athlete representation agreement. In so doing, it details all of the NCAA amateurism rules and the legal do's and don'ts relating to the recruiting of pre-professional athletes. Subsequent chapters track the typical progression of a successful professional athlete's career: the drafting, negotiating and (where necessary) litigating of product endorsement and license agreements in the increasingly important context of protecting professional athletes' rights of publicity. Interactive group negotiation/drafting

hypotheticals are also provided in the areas of fantasy sports, and of representing the "mature athlete" who is nearing the end of his career. The book concludes with a Jerry McGuire-type litigation hypothetical and settlement agreement negotiation exercise involving the "super-agent" entering and exiting the "mega agency."

*Cutting Edge. Starter* Tor Science Fiction  
 DANGEROUSLY GOOD. DISTINCTIVELY DEAVEER. Lincoln Rhyme and Amelia Sachs return to New York City to confront a killer terrorizing couples at their happiest--and most vulnerable. In the early hours of a quiet, weekend morning in Manhattan's Diamond District, a brutal triple murder shocks the city. Lincoln Rhyme and Amelia Sachs quickly take the case. Curiously, the killer has left behind a half-million dollars' worth of gems at the murder scene, a jewelry store on 47th street. As more crimes follow, it becomes clear that the killer's target is not gems, but engaged couples themselves. The Promisor vows to take the lives of men and women during their most precious moments--midway through the purchase of an engagement ring, after a meeting with a wedding planner, trying on the perfect gown for a day that will never come. The Promisor arrives silently, armed with knife or gun, and

a time of bliss is transformed, in an instant, to one of horror. Soon the Promiser makes a dangerous mistake: leaving behind an innocent witness, Vimal Lahori, a talented young diamond cutter, who can help Rhyme and Sachs blow the lid off the case. They must track down Vimal before the killer can correct his fatal error. Then disaster strikes, threatening to tear apart the very fabric of the city--and providing the perfect cover for the killer to slip through the cracks.

Now revised and updated, this classic book is still the definitive step-by-step guide to creating cutting edge print ads. It covers everything from how advertising works, how brand-building methodologies are changing, how to get an idea, and how copy and art should be crafted. It demystifies the advertising creative process, with page after page of practical, inspiring and often controversial advice from such masters as David Abbott, Bob Barrie, Tim Delaney, David Droga, Neil French, Marcello Serpa, and dozens more. Over 200 print ads and case histories reveal the creative processes at work in world-famous agencies in the US, UK, Asia and Australia. This new edition also includes an exclusive section featuring winning ads from the World Press Awards. No other book takes you on such a journey through the minds of advertising's creative leaders.

face2face is the flexible, easy-to-teach General English course that helps adults and young adults to speak and listen with confidence. face2face is informed by Cambridge English Corpus and its vocabulary syllabus has been mapped to the English Vocabulary Profile, meaning students learn the language they really need at each CEFR level. The course improves students' listening skills by drawing their attention to the elements of spoken English that are difficult to understand. The free DVD-ROM in the Student's Book includes consolidation activities and electronic portfolio for learners to track their progress with customisable tests and grammar and vocabulary reference sections.

**Critical Race Theory** McGraw Hill Professional

Teachers are obsessed with telling you what to learn. The problem is, nobody teaches you how to learn. This is all about to change. In his new book, *How To English*, Adam David Broughton shares a revolutionary and powerful system that teaches you

exactly how to make incredible progress in all aspects of English. In *How To English*, you will learn 62 practical techniques to become an independent learner in 31 days, and everything you will ever need to get the level you've always wanted in English and enjoy the process. How to master English fluency How to listen perfectly in English How to stop making mistakes in English How to improve your pronunciation How to expand your vocabulary in English How to have perfect English grammar How to stay motivated, be disciplined and create a habit ...and 55 other amazing techniques. Everyone knows that it's not what you do in class that determines your progress in English, it's what you do when you are not in class. However, English learners often don't know what to do. As a result, at some point, every English learner stops making progress. Then they get frustrated. *How To English* is the antidote to this frustration. When you learn how to learn English, you never need to worry about what you learn in English.

Now with a new introduction for the Tor Essentials line, *A Fire Upon the Deep* is sure to bring a new generation of SF fans to Vinge's award-winning works. A Hugo Award-winning Novel! "Vinge is one of the best visionary writers of SF today."-David Brin Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can function. Nobody knows what strange force partitioned space into these "regions of thought," but when the warring Straumli realm use an ancient Transcendent artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. Fleeing this galactic threat, Ravana crash lands on a strange world with a ship-hold full of cryogenically frozen children, the only survivors from a destroyed space-lab. They are taken captive by the Tines, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle. From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being

managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

The Tcl language and Tk graphical toolkit are simple and powerful building blocks for custom applications. The Tcl/Tk combination is increasingly popular because it lets you produce sophisticated graphical interfaces with a few easy commands, develop and change scripts quickly, and conveniently tie together existing utilities or programming libraries. One of the attractive features of Tcl/Tk is the wide variety of commands, many offering a wealth of options. Most of the things you'd like to do have been anticipated by the language's creator, John Ousterhout, or one of the developers of Tcl/Tk's many powerful extensions. Thus, you'll find that a command or option probably exists to provide just what you need. And that's why it's valuable to have a quick reference that briefly describes every command and option in the core Tcl/Tk distribution as well as the most popular extensions. Keep this book on your desk as you write scripts, and you'll be able to find almost instantly the particular option you need. Most chapters consist of alphabetical listings. Since Tk and mega-widget packages break down commands by widget, the chapters on these topics are organized by widget along with a section of core commands where appropriate. Contents include: Core Tcl and Tk commands and Tk widgets C interface (prototypes) Expect [incr Tcl] and [incr Tk] Tix TclX BLT Oratcl, SybTcl, and Tclodbc
