Aluminum Structures: A Guide to Their Specifications and ...
 Aluminium Design Manual 2015 Stidip
 Aluminum Design Manual 2015 Released in January 2015, this book is an invaluable resource to understand designing and constructing structures out of aluminum. It is divided into 8 critical sections detailing rules for determining the strength of aluminum structural components, buckling constants for welded and unwelded alloys, alloy and temper designation systems for wrought and cast aluminum alloys and more.
 Aluminum Design Manual 2015 | The Aluminum Association
 The 2015 Aluminum Design Manual is available as both a searchable electronic download and hard copy. It can be purchased through the Aluminum Association's bookstore, which can be accessed by clicking on the "bookstore" tab on the

Association's website. The download price is \$335 for members and \$375 for non-members.
