Schiffer Book for Collectors

Sentimental Journey is a cornucopia of 546 rang portraits that tell the story of America's very own great music, from its beginnings on Tin Pan Alley through its flourishing in step with the rise of the Broadway musical, radio, recordings, the big bands, and the film musical. The book spans 25 years, broken up into three decades entitled The Roaring Twenties, The Depression Years, and The War Years, each of which begins with a prologue giving a general description of the decade. Each year within the decades gives further historical background against which the individual songs were written -- including the political, social and artistic events. Within each year the songs are portrayed individually, telling what made the song special and gives its vital statistics along with composer, lyricist, publisher, and when, where and by whom it was introduced. The twenty-six chapters of Sentimental Journey is finalized with a set of Appendices containing glossary, bibliography, index of composers and lyricists and an index of songs. No matter from what generation the reader is part of, the music from this book is being constantly rediscovered, and has become part of the American heritage.

During the American Civil War, songs united and inspired people on both sides. The North had a well-established music publishing industry when the war broke out, but the South had no such industry. The importance of music as an expression of the South's beliefs was obvious; as one music publisher said, "The South must not only fight her own battles but sing her own songs and dance to music composed by her own children." Southern entrepreneurs quickly rose to the challenge. This reference book is distinguished by three major differences from previously published works. First, it lists sheet music that is no longer extant (and listed nowhere else). Second, it gives complete lyrics for all extant songs, a rich source for researchers. And third, a brief historical background

has been provided for many of the songs. Each entry provides as much of the following as possible (staying faithful to the typography of each title page): the title as published, names of all lyricists, composers and publishers; dates of publication; cities of publication; and if applicable, the names of catalogs or magazines in which the song appeared. Music published in Southern cities under Federal occupation is excluded.

Star Spangled Banner SilverTonalties

This volume is a critical edition of early blues-related sheet music, including forty-three known blues songs and instrumental compositions from the first four years of the blues industry, 1912-15, and twenty-four pre-1912 proto-blues; that is, published works stylistically related to the emerging blues style (for instance, using a twelve-bar blues sequence) from 1850-1912.

The purpose of the edition is to present in systematic form, and for the first time, the rise of popular blues culture. Up until 1920, sheet music was the dominant medium of blues dissemination. The first blues recordings did not appear until 1914, two years after the appearance of sheet music; furthermore, almost all the recordings of blues that did appear before 1920 were of pre-existent published compositions. This situation only changed with the rise of the race record industry in the 1920s when the identity of blues became increasingly linked to recordings. For this earliest period of blues history, the documentation offered by sheet music is crucial. A majority of this music has not been reissued since its original publication, while some has never been published at all, and exists only as copyright deposits in the Library of Congress.

As a body of work, it is little known to historians and musicians despite its importance to the understanding of the evolution of blues and popular music.
