 "Staff from smaller airports typically lack

specialized expertise in the negotiation  
 and development of airport property or the  
 resources to hire consultants. ACRP  
 Research Report 213 provides airport  
 management, policymakers, and staff a  
 resource for developing and leasing airport  
 land and improvements, methodologies for  
 determining market value and appropriate  
 rents, and best practices for negotiating  
 and re-evaluating current lease  
 agreements. There are many factors that  
 can go into the analysis, and this report  
 reviews best practices in property  
 development."--Foreword.

'KUMBA AFRICA', is a compilation of  
 African Short Stories written as fiction by  
 Sampson Ejike Odum, nostalgically taking  
 our memory back several thousands of  
 years ago in Africa, reminding us about  
 our past heritage. It digs deep into the  
 traditional life style of the Africans of old,  
 their beliefs, their leadership, their  
 courage, their culture, their wars, their  
 defeat and their victories long before the  
 emergence of the white man on the soil of  
 Africa. As a talented writer of rich resource  
 and superior creativity, armed with in-  
 depth knowledge of different cultures and  
 traditions in Africa, the Author throws light  
 on the rich cultural heritage of the people  
 of Africa when civilization was yet  
 unknown to the people. The book reminds

the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New Yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven't tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

*The Affair of Gabrielle Russier* iUniverse Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Paintings, magisterial and universal, that capture the essence of a vibrant African American community In his art Jonathan Green paints the world of his childhood and an ode to a people imbued with a profound respect for the dignity and value of others—the Gullah people of the South Carolina barrier islands. His canvases, beloved for their sense of jubilation and rediscovery, evoke the meaning of community in Gullah society and display a reverence for the rich visual, oral, and spiritual traditions of its culture. His art also reveals a keen awareness of the interpersonal, social, and natural environments in which we live. The 180 images assembled in this collection showcase the meaning, purpose, and beauty that Green finds in the small but critical tasks of life. His work elevates the everyday—preparing morning meals, doing the wash, accomplishing farming chores, finishing a day's work, relaxing in the evening—and celebrates the social and religious—community dances, baptisms, weddings, funerals. Green allows his audience the space and silence to observe people unobtrusively as they pursue life's mission of labor, love, and belonging and as they work in harmony with nature's mysterious, ever changing

fabric. While Green's paintings speak specifically to his own upbringing, they transcend racial, cultural, and ethnic boundaries, thus allowing individuals of all backgrounds to recall fond memories and to reflect on the place that purpose and dignity hold in their lives. In addition to a foreword by Pat Conroy, essays by Bettye J. (Mbitha) Parker Smith, Lynn Robertson, and Ronne Hartfield complement Green's images. They tell of the vitality of the Gullah community, the progression of Green's career, and the authenticity of his work.

Tens of thousands of mechanical engineers are engaged in the design, building, upgrading, and optimization of various material handling facilities. The peculiarity of material handling is that there are numerous technical solutions to any problem. The engineer's personal selection of the optimal solution is as critical as the technical component. Michael Rivkin, Ph.D., draws on his decades of experience in design, construction, upgrading, optimization, troubleshooting, and maintenance throughout the world, to highlight topics such as: • physical principles of various material handling systems; • considerations in selecting technically efficient and environmentally friendly equipment; • best practices in upgrading and optimizing existing bulk material handling facilities; • strategies to select proper equipment in the early phases of a new project. Filled with graphs, charts, and case studies, the book also includes bulleted summaries to help mechanical engineers without a special background in material handling find optimal solutions to everyday problems.
