Americans are buying
ammunition for their
enemies every time they
buy gas. Energy security
is the way out of this

dilemma and Dr. Zubrin
has a plan to achieve it.-
Clifford D. May,
Syndicated Columnist;
President, Foundation for
the Defense of
Democracies Robert
Zubrin pulls no punches
and moves effortlessly
from a fascinating oil-
centered take on WW II to
making the mathematics
of oil alternatives
intelligible to lay readers.

Oil and hydrogen take
huge hits and alcohol
fuels win big. Don't miss
this one.- James Woolsey,
former Director, Central
Intelligence Agency To win
the war on terror, we
need to remove the yoke
of our oil dependence and
cut the flow of
petrodollars to regimes
that spread radical Islam.
Energy Victory is a bold,
yet realistic plan to do just

that. It is a vitally important book about the most critical issue we face today.- Dr. Gal Luft, Executive Director, Institute for the Analysis of Global Security
 In Energy Victory, Zubrin supplies a forceful plan to finally break oil's global stranglehold and seriously address world development. This is something we've really needed for some time. Washington should sit up and take notice.- James P. Clark, Chairman, World Technology Network
 In this compelling argument for a

new direction in US energy policy, world-renowned engineer and best-selling author Robert Zubrin lays out a bold plan for breaking the economic stranglehold that the OPEC oil cartel has on our country and the world. Zubrin presents persuasive evidence that our decades-long relationship with OPEC has resulted in the looting of our economy, the corruption of our political system, and now the funding and protection of terrorist regimes and movements that are

committed to our destruction. Debunking the false solutions and myths that have deterred us from taking necessary action, Zubrin exposes the fakery that has allowed many politicians- including current US president George W. Bush- to posture that they are acting to resolve this problem while actually doing nothing significant toward that goal. Zubrin's plan is straightforward and practical. He argues that if Congress passed a law requiring that all new cars sold in the USA be

flex-fueled-that is, able to run on any combination of gasoline or alcohol fuels-this one action would destroy the monopoly that the oil cartel has maintained on the globe's transportation fuel supply, opening it up to competition from alcohol fuels produced by farmers worldwide. According to Zubrin's estimates, within three years of enactment, such a regulation would put 50 million cars on the road in the USA capable of running on high-alcohol fuels, and at least an equal number overseas.

He further advocates tariff policies favoring alcohol over petroleum imports. Energy Victory shows how we could be using fuel dollars that are now being sent to countries with ties to terrorism to help farmers here and abroad, boosting our own economy and funding world development. Furthermore, by switching to alcohol fuels, which pollute less than gasoline and are made from plants that draw carbon dioxide from the air, this plan will facilitate the worldwide

economic growth required to eliminate global poverty without the fear of greenhouse warming. Energy Victory offers an exciting vision for a dynamic, new energy policy, which will not only go a long way toward safeguarding homeland security in the future but will also provide solutions for global warming and Third World development. FURTHER PRAISE FOR ENERGY VICTORY: Energy Victory is the first book I have ever read that actually lays out

a credible plan to turn around the world energy situation.... Energy Victory is a knock out. It should be read by everyone concerned with policy in this vital area, and its central recommendation implemented as rapidly as feasible.- Energy DailyAmericans are finally becoming aware that energy isn't just an economic or environmental issue; it's a grave national security issue. It's long past time to stop bankrolling

Italian Literature since 1900 in English

Translation 1929-2016

U of Minnesota Press
 “[A] double bildungsroman” of two British women “set against a background of political and cultural upheavals” in the direct aftermath of WWII (The New Yorker). It begins on May 8, 1945. The streets of London are alive with VE-Day celebrations. In the crowd, twenty-year-old Freya Wyley meets eighteen-year-old Nancy Holdaway. Freya’s acerbic wit and free-wheeling politics complement Nancy’s gentle, cautious

nature, and what begins on that eventful day in history is the story of a transformative friendship that spans two decades. As Freya chooses journalism and Nancy realizes her ambitions as a novelist, their friendship takes on the nuances of sexual, emotional, and professional rivalries. Beneath the relentless thrum of changing times are the eternal battles fought by women in pursuit of independence and the search for love. Stretching from the war haunted halls of Oxford

and Nuremburg to the cultural shifts of the early 1960s, Freya brings to life two extraordinary women facing down an era of political and personal tumult. “With this three-dimensional portrait of his headstrong heroine, whose hard-gloss shell conceals a hard-fought vulnerability, Quinn achieves a distinct and unusual creation.” —The New York Times

prepares for her child's birth by remarking upon and examining her ambivalent feelings toward herself, her society, and her unborn child

A Life of Maria

Montessori Oriana FallaciThe Journalist, the Agitator, the Legend Internationally acclaimed as a journalist, war correspondent, interviewer, and novelist, Oriana Fallaci’s public persona reached almost mythic proportions. It is a myth Fallaci herself created, according to

Santo L. Aricò, who probes the psychological forces that motivated one of the twentieth century’s most famous and successful women writers. Using his own extensive interviews with the writer, Aricò maps out Fallaci’s journey through life, paying particular attention to her ongoing and painstaking attempts to establish her own mythical status. He first examines her career as a literary journalist, emphasizing the high quality of her writing. From there, he

concentrates on how Fallaci's personal image began to emerge in her writings, as well as the way in which, through her powerful narratives, she catapulted herself into the public eye as her own main character.

The Woman and the Myth
Vintage
National Book Award
Finalist A clear-sighted revelation, a deep penetration into the world of Scientology by the Pulitzer Prize-winning author of *The Looming Tower*, the now-classic study of al-Qaeda's 9/11

attack. Based on more than two hundred personal interviews with current and former Scientologists—both famous and less well known—and years of archival research, Lawrence Wright uses his extraordinary investigative ability to uncover for us the inner workings of the Church of Scientology. At the book's center, two men whom Wright brings vividly to life, showing how they have made Scientology what it is today: The darkly brilliant science-

fiction writer L. Ron Hubbard, whose restless, expansive mind invented a new religion. And his successor, David Miscavige—tough and driven, with the unenviable task of preserving the church after the death of Hubbard. We learn about Scientology's complicated cosmology and special language. We see the ways in which the church pursues celebrities, such as Tom Cruise and John Travolta, and how such stars are used to advance the church's goals. And

we meet the young idealists who have joined the Sea Org, the church's clergy, signing up with a billion-year contract. In *Going Clear*, Wright examines what fundamentally makes a religion a religion, and whether Scientology is, in fact, deserving of this constitutional protection. Employing all his exceptional journalistic skills of observation, understanding, and shaping a story into a compelling narrative, Lawrence Wright has given us an evenhanded

yet keenly incisive book that reveals the very essence of what makes Scientology the institution it is.

The Rage and the Pride

Other Press, LLC
U.S. Foreign Policy and Muslim Women's Human Rights explores the integration of American concerns about women's human rights into U.S. policy toward Islamic countries since 1979, reframing U.S.-Islamic relations and challenging assumptions about the drivers of American foreign policy.

Immigration, Islam, and the West Vintage

The untold story of how an unlikely anti-Islamic alliance of gay activists, feminists, fascists, evangelical Christians, populist politicians, and surfing rabbis from California fuelled the rise of the hard right across Europe and gave us President Donald J Trump.
Oriana Fallaci Rizzoli
An accessible one-volume encyclopedia, this addition to the Literary Movements series is a comprehensive reference guide to the history and

development of feminist literature, from early fairy tales to works by great women writers of today.

Hundred

The Useless Sex

Amberley Publishing Limited

A landmark biography of the most famous Italian journalist of the twentieth century, an inspiring and often controversial woman who defied the codes of reportage.

Oriana Fallaci is known for her uncompromising vision. To retrace Fallaci's life is to retrace the course of history from

World War II to 9/11. As a child, Fallaci enlisted in the Italian Resistance alongside her father, and her hatred of fascism and authoritarian regimes remained strong throughout her life.

Covering the entertainment industry early in her career, she created an original, abrasive interview style, focusing on her subjects' emotions, contradictions, and facial expressions more than their words.

When she grew bored with movie stars and directors, she turned her

attention to the international political figures of the time—Khomeini, Gaddafi, Indira Gandhi, Kissinger—always placing herself front and center in the story. Also a war reporter working wherever there was conflict, she would provoke controversies that became news themselves. With unprecedented access to personal records, Cristina De Stefano brings to life this remarkable woman whose groundbreaking work and torrid love

affairs are not easily forgotten. Oriana Fallaci allows a new generation to discover her story and witness the passionate, unstinting journalism so urgently needed in these times of upheaval and uncertainty.

If the Sun Dies SAGE

In the follow up to *The Rage and the Pride*, the distinguished Italian historian describes the impact of her controversial book on her own life, detailing the personal attacks and death threats she received following its

publication and offering an incisive analysis of the influence of Islam on modern-day Europe. 50,000 first printing.

A Monkey's Head, the Pope's Neuroscientist, and the Quest to Transplant the Soul

Pocket Books

"Critical interest in biography and autobiography has never been higher. However, while life-writing flourishes in the UK, in Italy it is a less prominent genre. The twelve essays collected here are written against this backdrop, and

address issues in biographical and autobiographical writing in Italy from the later nineteenth century to the present, with a particular emphasis on the interplay between individual lives and life-writing and the wider social and political history of Italy. The majority of essays focus on well-known writers (D'Annunzio, Svevo, Bontempelli, Montale, Levi, Calvino, Eco and Fallaci), and their varying anxieties about autobiographical writing in their work. This picture

is rounded out by a series of studies of similar themes in lesser known figures: the critic Enrico Nencioni, the Welsh-Italian painter Llewellyn Lloyd and Italian writers and journalists covering the Spanish Civil War. The contributors, all specialists in their fields, are Antonella Braida, Charles Burdett, Jane Everson, John Gatt Rutter, Robert Gordon, Gwyn Griffith, Peter Hainsworth, Martin McLaughlin, Gianni Oliva, Giuliana Pieri, and Jon Usher. The volume is dedicated to John

Woodhouse, on his seventieth birthday, and concludes with a bibliography of his writings." *Europe Old and New* SP Books
Includes ten contributor's writings on 250 years of women travel writers. Travel is a quest, an escape, a passion. Women explorers and travellers are a special breed. This book covers 22 courageous women who encircled the globe, and boldly crossed international barriers often to encounter the

most patriarchal cultures of their time.
[The Child Is the Teacher](#)
Rizzoli International Publications
The year 1968 was ablaze with passion and mayhem as protests erupted in Paris and Prague, throughout the United States, and in cities on all continents. The Summer Olympic Games in Mexico were to be a moment of respite from chaos. But the image of peace - a white dove - adopted by organizers was an illusion, as was obvious to a record six hundred million

people watching worldwide on satellite television. Ten days before the opening ceremony, soldiers slaughtered hundreds of student protesters in the capital. In *Games of Discontent* Harry Blutstein presents vivid accounts of threatened boycotts to protest racism in the United States, South Africa, and Rhodesia. He describes demonstrations by Czechoslovak gold medal gymnast Věra Čáslavská against the Soviet-led invasion of her country. The most

dramatic moment of the Olympic Games was Tommie Smith and John Carlos's black power salute from the podium. Blutstein furnishes new details behind their protest and examines how this iconic image seared itself into historical memory, inspiring Colin Kaepernick and a new generation of athlete-activists to take a knee against racism decades later. The 1968 Summer Games became a microcosm of the discord happening around the globe. Describing a range

of protest activities preceding and surrounding the 1968 Olympics, *Games of Discontent* shines light on the world during a politically transformative moment when discontents were able, for the first time, to globalize their protests.

In light of cultural crises

such as the Danish cartoon controversy and the terrorist attack on the Charlie Hebdo newspaper in Paris, Christopher Caldwell's incisive perspective has never been more timely or indispensable. *Reflections on the Revolution in Europe* is destined to become the classic work on how Muslim immigration permanently reshaped the West. This provocative and unflinching analysis of Europe's unexpected influx of immigrants investigates the

increasingly prominent Muslim populations actively shaping the future of the continent. Muslims dominate or nearly dominate many important European cities, including Amsterdam and Rotterdam, Strasbourg and Marseille, the Paris suburbs and East London, and in those cities Islam has challenged the European way of life at every turn, becoming, in effect, an "adversary culture." In *Reflections on the Revolution in Europe*, Caldwell examines the anger of natives and

newcomers alike. He exposes the strange ways in which welfare states interact with Third World customs, the anti-Americanism that brings European natives and Muslim newcomers together, and the arguments over women and sex that drive them apart. He considers the appeal of sharia, "resistance," and jihad to a second generation that is more alienated from Europe than the first, and addresses a crisis of faith among native Europeans that leaves them with a

weak hand as they confront the claims of newcomers.

**Transnationalism,
Belonging, Xenophobia**

SPERLING & KUPFER

The “delightfully macabre” (The New York Times) true tale of a brilliant and eccentric surgeon...and his quest to transplant the human soul. In the early days of the Cold War, a spirit of desperate scientific rivalry birthed a different kind of space race: not the race to outer space that we all know, but a race to master the inner space of

the human body. While surgeons on either side of the Iron Curtain competed to become the first to transplant organs like the kidney and heart, a young American neurosurgeon had an even more ambitious thought: Why not transplant the brain? Dr. Robert White was a friend to two popes and a founder of the Vatican’s Commission on Bioethics. He developed lifesaving neurosurgical techniques still used in hospitals today and was nominated for the Nobel Prize. But like Dr. Jekyll before him,

Dr. White had another identity. In his lab, he was waging a battle against the limits of science and against mortality itself—working to perfect a surgery that would allow the soul to live on after the human body had died. This “fascinating” (The Wall Street Journal), “provocative” (The Washington Post) tale follows his decades-long quest into tangled matters of science, Cold War politics, and faith, revealing the complex (and often murky) ethics of experimentation and

remarkable innovations that today save patients from certain death. It's a "masterful" (Science) look at our greatest fears and our greatest hopes—and the long, strange journey from science fiction to science fact.

Soldiers of a Different God
Dorrance Publishing
With *The Rage* and the

Pride Oriana Fallaci breaks a ten year silence. The silence she kept until September 11's apocalypse in her Manhattan house. She breaks it with a deafening noise. In Europe this book has caused and causes a turmoil never registered in decades. Polemics, discussion, debates, hearty consents and praises, wild attacks. And a million copies sold in Italy where it still is at the bestsellers' top. Hundreds of thousands in France, in Germany, in Spain: the other countries where it

has become the Number one Bestseller. Around a dozen translations will soon appear. With her well-known courage Oriana Fallaci faces the themes unchained by the Islamic terrorism: the contrast and, in her opinion, incompatibility between the Islamic world and the Western world; the global reality of the Jihad and the lack of response, the lenience of the West. With her brutal sincerity she hurls pitiless accusations, vehement invectives, and denounces the uncomfortable truths

that all of us know but never dare to express. With her rigorous logic, lucidity of mind, she defends our culture and blames what she calls our blindness, our deafness, our masochism, the conformism and the arrogance of the Politically Correct. With the poetry of a prophet like a modern Cassandra she says it in the form of a letter addressed to all of us. The text is enriched by a dramatic preface in which Oriana Fallaci reveals how *The Rage and the Pride* was born, grew

up, and detachedly calls it "my small book." In addition, a preface in which she tells significant episodes of her extraordinary life and explains her unreachable isolation, her demanding and inflexible choices. Because of this too, what she calls "my small book" is in reality a great book. A precious book, a book that shakes our conscience. It is also the portrait of a soul. Her soul. No doubt it will remain as a thorn pierced inside our brains and our hearts.

The Wild West Edizioni Polistampa
A dark hyper-comedy set in London in the late 1990s during the last gasp of the newspaper wars just before the dot-com tidal wave--about two female journalists at opposite ends of their life and work who become locked in a fierce tango of wills and whose lives are forever changed by their (not-so-) brief (head-on) encounter. At the novel's center--a legendary prize-winning war correspondent (called in her day "The Newsroom

Dietrich" because of her luminescent beauty) now in her eighties, at the end of her career, who, over the decades, as the intrepid golden girl of the press, has been on the front lines or in the foxholes of every major theater of war of the twentieth century (Madrid; Normandy; Buchenwald; Berlin; Algiers; Korea; Vietnam). She is recognized everywhere (she finds fame mortifying these days); lionized for her fearless, politically informed, objective

reporting; and now, though fragile and in an accelerating decline, her goddess-like beauty long gone, her style of writing--unbiased reportage--obsolete in the age of New Journalism, is rediscovered with the reissue of her frontline journalism, and the about-to-be-published collection of her Pulitzer Prize-winning dispatches. The other, a young up-and-not-so-coming reporter in her twenties; a degree in media studies, a freelance editor who compiles A-lists (Ten Best / Ten

Worst; What's In / What's Out) for a down-market magazine of a newspaper specializing in celebrity gossip, unexpectedly sent to write a feature on the venerated "doyenne of British journalists"--to get the dirt on her glittering Hollywood days, her many affairs and three marriages...What ensues is a high-stakes, high-risk battle of wit and wills as lives are shaken, secrets unearthed, and headlines blast (unconfirmed) "truths," with one newspaper--the spoiler--playing off against

another in a ruthless, desperate grab for sensation and circulation.

The Spoiler McGill-Queen's Press - MQUP
The end of World War II led to increased interest in multicultural concerns and a flourishing of literary and artistic endeavors. It was also a time of decolonization and the emergence of new nations and cultures clamoring for recognition and respect. The political circumstances following World War II exposed

many people to other cultures. This reference discusses the experiences of writers active since 1945 who were shaped by cultures other than their own. Included are alphabetically arranged entries for more than 100 writers, including Chinua Achebe, W.H. Auden, Mircea Eliade, Jamaica Kincaid, Salman Rushdie, and Elie Wiesel. The profiled authors either lived in another culture voluntarily or were wrenched from one

culture into another. Each entry includes a brief biography, a discussion of multicultural themes in the writer's works, a review of criticism, and primary and secondary bibliographies. The volume closes with a selected, general bibliography. The reference demonstrates the value of multicultural experiences in the lives of writers around the world and fosters a greater appreciation of cultural diversity.
