...Business exists to serve society. Over the past several decades, one of the great discussions within capitalism has centered on defining exactly what a business is and what its obligations are to society at large and to the many stakeholders participating in business systems, including customers, shareholders, employees, suppliers, and communities, to name a few. Business and society in

the coming decades | McKinsey Study is increasing experience and we should study a lot of. (PDF) Business, government and society First chapter ...The government attempts to shape the business practices through both, directly and indirectly, implementing rules and regulations. The government most often directly influences organizations by establishing regulations,

laws, and rules that dictate what organizations can and cannot do. Relationship between Government and Business Organizations The dominance model represents society as a pyramid. Atop it, business and government dominate. This is the model of business critics. It suggests that business has too much unchecked power. The countervailing forces model shows flows of

power and influence among environmental factors, the public, government, and corporations. THE STUDY OF BUSINESS, GOVERNMENT , AND SOCIETYBy leveraging the business, government, and civil society backgrounds, and global perspective of its own advisors and leadership, the Washington Institute is supporting corporations, government agencies, non-	government organizations, and individuals in their collective efforts to best shape the future of the global economy.
