**A Toolkit for the
Historian as
Detective** New York :
Macmillan
Selected ancient
sources in translation

and modern
commentaries provide
a survey of major
problems in ancient
history from Sumeria
to the late Roman
Empire and offer
insight into historical
methods and
techniques.
The Ancient World,

Teacher's Edition

McDougal
Littell/Houghton Mifflin
Drawing on many
avenues of inquiry:
archaeological
excavations, surveys,
laboratory work, highly
specialized scientific
investigations, and on
both historical and
ethnohistorical records;
Ancient Civilizations,
3/e provides a
comprehensive and
straightforward
account of the world's
first civilizations and a
brief summary of the
way in which they were
discovered.

Art Prentice Hall
The authors present
clues locked within
artifacts, woven into
oral tradition,
encrypted in ancient
writing, and embedded
in the land itself which
help to decipher some
of ancient history's
most intriguing cases.

Originally published
under the General
Editorship of Thomas
H. Greer, the series
emanated from the
Humanities
Department of
Michigan State
University. The books
remain today perhaps
the best sources
available for the
comprehensive study
in one volume of every
subject area which
might be included in
the umbrella of
humanities. Most major
literary forms are

represented: essay, poem, short story, play, novel, memoir, epigram, scientific discourse, philosophical treatise, political manifesto, and religious proclamation. All major subject areas are explored: art, music, education, mathematics, biology, psychiatry, religion, philosophy, politics, economics, and physics. The informative apparatus, headnotes, and footnotes are all aimed at enhancing the student-reader's comprehension.

The sacred

consciousness that

prevailed in antiquity is

the key to unlocking

our future • Shows how

scientific

consciousness, which

gives primacy to the

sense of sight,

estranged us from the

participatory spiritual

consciousness of

antiquity • Explores

the vital importance of

the imagination in

reconnecting us to the

spirit world The Future

of the Ancient World

sheds new light on the

evolution of

consciousness from

antiquity to modern

times. The twelve

essays in this book

examine developments

in human

consciousness over the

past five thousand

years that most history

books do not touch. In ancient times, human beings were finely attuned to the invisible world of the gods, spirits, and ancestors. Today, by contrast, our modern scientific consciousness regards what is physically imperceptible as unreal. Our experience of the natural world has shifted from an awareness of the divine presence animating all things to the mere scientific analyses of physical attributes, a deadened mode of awareness that relies on our ability to believe only in what we can see. In these richly illustrated and wide-ranging essays that span the cultures of ancient Egypt, Mesopotamia, Greece, Rome, and the early Christian period, Jeremy Naydler shows

how the consciousness that prevailed in ancient times may inspire us toward a future in which we once again reconnect with invisible realms. If the history of consciousness bears witness to the loss of visionary and participatory awareness, it also shows a new possibility--the possibility of developing a free and objective relationship to the spirit world. Naydler urges us not only to draw inspiration from the wisdom of the ancients but to carry this wisdom forward into the future in a renewed relationship to the spiritual that is based on human freedom and responsibility.

The ancient world
Prentice Hall

Presents a collection of children's literature from Europe, Asia, and the Middle East.

The Ancient World

Routledge

This collection is designed to encourage students to examine issues pertaining to a broad range of themes through the analysis of relevant ancient literary and non-literary texts. Covering a wide variety of social and cultural concerns?—ranging from marriage, family, war, and religion, to political culture, slavery, and entertainment?—the texts are arranged thematically within a general chronological framework to provide a broad overview of life in the Ancient World. -- Publisher's description.

How did ancient peoples experience, view, and portray the night? What was it like to live in the past when total nocturnal darkness was the norm? Archaeology of the Night explores the archaeology, anthropology, mythology, iconography, and epigraphy of nocturnal practices and questions the dominant models of daily ancient life. A diverse team of experienced scholars uses a variety of methods and resources to reconstruct how ancient peoples navigated the night and what their associated daily—and nightly—practices

were. This collection challenges modern ideas and misconceptions regarding the night and what darkness and night symbolized in the ancient world, and it highlights the inherent research bias in favor of “daytime” archaeology.

Numerous case studies from around the world (including Oman, Mesoamerica, Scandinavia, Rome, Great Zimbabwe, Indus Valley, Peru, and Cahokia) illuminate subversive, social, ritual, domestic, and work activities, such as witchcraft, ceremonies, feasting, sleeping, nocturnal agriculture, and much more. Were there artifacts particularly associated with the night? Authors investigate individuals and groups (both real

and mythological) who share a special connection to nighttime life.

Reconsidering the archaeological record, *Archaeology of the Night* views sites, artifacts, features, and cultures from a unique perspective. This book is relevant to anthropologists and archaeologists and also to scholars of human geography, history, astronomy, sensory studies, human biology, folklore, and mythology.

A Social and Cultural History Pearson College Division

Customize your own unique balance of history, geography, and culture with your choice of eight small-book or two full-volume options! Using standards-based content and research-proven reading instruction, World Studies expands students' understanding of each world region through a focus on its major countries. Considerate text design and narrative combine with enhanced reading strategies--such as

Target Reading Skills and key terms defined in context--to make lessons accessible to students at all levels.

The Ancient World Wadsworth Publishing Company

The Romans: An Introduction, 3rd edition engages students in the study of ancient Rome by exploring specific historical events and examining the evidence. This focus enables students not only to learn history and culture but also to understand how we recreate this picture of Roman life. The thematic threads of individuals and events (political, social, legal, military conflicts) are considered and reconsidered in each chapter, providing continuity and illustrating how

political, social, and legal norms change over time. This new edition contains extensive updated and revised material designed to evoke the themes and debates which resonate in both the ancient and modern worlds: class struggles, imperialism, constitutional power (checks & balances), the role of the family, slavery, urbanisation, and religious tolerance. Robust case studies with modern parallels push students to interpret and analyze historical events and serve as jumping off points for multifaceted discussion. New features include: Increased emphasis on developing skills in interpretation and analysis which can be used across all disciplines. Expanded

historical coverage of Republican history and the Legacy of Rome. An expanded introduction to the ancient source materials, as well as a more focused and analytical approach to the evidence, which are designed to engage the reader further in his/her interaction and interpretation of the material. A dedicated focus on specific events in history that are revisited throughout the book that fosters a richer, more in-depth understanding of key events. New maps and a greater variety of illustrations have been added, as well as updated reading lists. A further appendix on Roman nomenclature and brief descriptions of Roman authors has

also been provided. The book's successful website has been updated with additional resources and images, including on-site videos from ancient sites and case studies which provide closer "tutorial" style treatment of specific topics and types of evidence. Those with an interest in classical language and literature, ancient history, Roman art, political and economic systems, or the concept of civilization as a whole, will gain a greater understanding of both the Romans and the model of a civilization that has shaped so many cultures.

Prentice Hall World Explorer: the Ancient World
 PEARSON SCHOOL
 The most

comprehensive best selling anthology of its kind, the second volume in this two-part survey enables leaders to choose among the most important canonical and less-familiar texts of the Western literary tradition in Europe and the Americas. It offers complete texts whenever possible, uses the best translations of foreign-language material, and, when appropriate, presents more than one text by each author. Volume Two provides detailed historical and biographical notes and introductions to the later literary periods including Neoclassicism and Romanticism; Realism and Naturalism; and Modern and Contemporary.

Prentice Hall World Studies Prentice Hall
For courses in Ancient History (Ancient Near East - Egypt/Mesopotamia), Ancient Greece, Ancient Rome. The Ancient World is a comprehensive, multi-perspective, and integrated chronicle of the history of the ancient world, from Sumer to the fall of Rome, that explores the distinctive forms society took-- particularly the unusual (by the standards of college students today) relationships between society and the state that characterized the social order of antiquity. By closely integrating social and cultural histories with the political, institutional, and

military climates in which they unfolded, this text provides fascinating insights into family, gender relations, class structures, public vs. private realms, slavery, popular culture, religion, art, architecture, leisure styles, philosophy, science, and education, and explores their complex relationships to ideology and political events.
