Conversations with Stalin Simon and Schuster

A NEW YORK TIMES NOTABLE BOOK OF THE YEAR • This “deeply immersive novel” (The Washington Post) from the author of the award-winning *Preparation for the Next Life* is an “epic coming-of-age tale filled with pain, heartache, fear, and undying love” (The Associated Press), as a young man’s yearning to protect his dying mother requires him to risk destroying his estranged, enigmatic, powerful father. “From its hypnotic opening pages, we find ourselves in the sure hands of a roaming omniscient narrator, one who knows intimately the beating hearts of its two central characters” —Andre Dubus III, *The New York Times Book Review* Corey Goltz grows up in the working-class outskirts of Boston as the only child of Gloria, whose ambitions were derailed early but who has always given her son everything she can. Corey, restless, dreams of leaving home for a great adventure. Instead, when he is fifteen, the world comes crashing down upon him, when Gloria is diagnosed with ALS and, too late, his estranged father, Leonard—a man of great charisma but dubious moral character—reenters the picture. Determined to be his mother’s hero at any cost, Corey begins shouldering responsibility for her expensive medical care, pushing himself to his physical and emotional limits as her disease cruelly progresses. And as Leonard’s influence over Corey grows, Corey must dismantle the myth of his father’s genius and confront the evil that lurks beneath it. Gritty, visceral, and profoundly stirring, *The War for Gloria* tells the story of a young man, straddling childhood and adulthood, whose yearning to protect his mother requires him to risk destroying his father. An indelible work from a strikingly original voice in American fiction.

Ping A Frog in Search of a New Pond A parable about adapting to change in the tradition of *Who Moved My Cheese?* and *Fish!* follows the transformative journey a frog in search of a pond that will help him with his long-distance jumping ambitions, a quest that is aided by a wise owl mentor. By the author of *Dragon Spirit*. 25,000 first printing. *Ping A Frog in Search of a New Pond* This inspirational tale follows the journey of Ping, a frog in search of a new pond, preferably for long-distance jumping. Along the way he meets Owl, an insightful teacher who shares his wisdom, encouraging Ping to take an inner journey before pursuing his goal. *Ping A Frog in Search of a New Pond* In the tradition of *Who Moved My Cheese?* here is a parable about change, overcoming obstacles, and making a leap of faith. This simple, inspirational tale follows the journey of Ping, a frog in search of a new pond, preferably one good for long-distance jumping. Along the way he meets Owl, an insightful teacher who shares his wisdom, encouraging Ping to take an inner journey before pursuing his goal. Not everything goes as planned, but Ping learns how to “go with the flow, because the flow knows where to go.” Ping represents everybody who has encountered a setback, needs to take a risk, or is struggling with the challenges of change—that is to say, he is all of us. Owl is the mentor who helps him find meaning and leap to new heights. The adventure they embark on together is both engaging and revealing. *The Way of Ping* Journey to the Great Ocean *PING: A Frog in Search of a New Pond* has become an international phenomenon, with over 400,000 copies sold and 20 foreign language editions. Now comes the long-awaited sequel, *THE WAY OF PING: Journey to the Great Ocean*. These two engaging parables in affordable hardcover editions inspire readers to adapt to change, take risks, and persevere in order to realize life’s limitless possibilities. Both are invaluable books for business men and women, entrepreneurs, life coaches, teachers, students, and searchers of all ages. In this new adventure, the now legendary Ping has become the teacher. His travels take him to a pond-centered village ruled by Toad the Elder, locked into its provincial view of the villagers, except for two young frogs, Daikon and Hodo. They convince Ping to take them on a journey that will change their lives forever. This delightful story captures the fears and doubts faced by all who choose to leave the familiar to make their way in an unknown world, and teaches them to find their true path. As Ping says, “Years can wrinkle a frog’s skin, but to live without purpose, well, that wrinkles the soul.” *The Runaway Pea* What happens when the bottlenecks that stand between supply and demand in our culture go away and everything becomes available to everyone? “The Long Tail” is a powerful new force in our economy: the rise of the niche. As the cost of reaching

consumers drops dramatically, our markets are shifting from a one-size-fits-all model of mass appeal to one of unlimited variety for unique tastes. From supermarket shelves to advertising agencies, the ability to offer vast choice is changing everything, and causing us to rethink where our markets lie and how to get to them. Unlimited selection is revealing truths about what consumers want and how they want to get it, from DVDs at Netflix to songs on iTunes to advertising on Google. However, this is not just a virtue of online marketplaces; it is an example of an entirely new economic model for business, one that is just beginning to show its power. After a century of obsessing over the few products at the head of the demand curve, the new economics of distribution allow us to turn our focus to the many more products in the tail, which collectively can create a new market as big as the one we already know. The Long Tail is really about the economics of abundance. New efficiencies in distribution, manufacturing, and marketing are essentially resetting the definition of what’s commercially viable across the board. If the 20th century was about hits, the 21st will be equally about niches. *The Way of Ping* Dial Books

"I've never read anything I've written," writes Stuart Avery Gold, co-author with Ron Rubin of the books in the Zentrepreneur Guides series. "Not after it's been published. Not once. Not ever." But when he and Rubin, the Ministers of The Republic of Tea, received a very well-worn copy of one of their books with a beautiful note from one of their readers, "it permanently altered my view," he explains, "forcing me, for the first time, surprisingly and stunningly to read a few of the jottings I've put down, not only with fresh eyes, but more importantly, through the eyes of another." That reader had lovingly embraced the authors' words, isolating them, and marking them with a yellow highlighter. This inspired Ron and Stuart to look at their work and select 160 of the most inspiring passages and sayings they had written for the new book *Wowisms: Words of Wisdom for Dreamers and Doers*, a treasury of enlightenment that will open the heart and mind of readers to help them discover more about themselves, their potential, and their destiny. Inspirational Zen ink drawings of nature scenes complement the empowering messages that the authors offer in the proverbs of possibility they call "wowisms." Among the collection of sage advice and enlightening wisdom, Rubin and Gold write: Dream 10,000 dreams knowing that 10,000 dreams is only the beginning. You are at all times sublime, each moment standing at the crossroads of what is and what can be. Creating a stalwart, undaunted attitude is the single most important ingredient in your recipe for success. At first there is no road. It's only when a person begins it that it exists for others. Change, like the beauty of a flower, is ordinary activity. Become a provocateur of potential. Dream big. Size matters. Dream wild. Boundlessness matters. Knowledge enables you to forge ahead and do battle with the unknown. Begin to believe you can move a mountain. Believe you can move others. Know you can move yourself. Patience is continued effort. Success is not man-made. It's mind-made. If you make each effort a masterpiece, know that the gods can do no better. Wisdom is a weight that is carried easily. When you seek your dream, you seek yourself. Your mind, like the future, is only what you make of it. It is our fervent hope," Gold writes to the reader in his opening to the book, "that this gathering of Wowisms will ennoble your spirit, initiate your mind, and encourage an awakening that engages and guides you to

embrace your fullest essence and unlimited potential." As Publishers Weekly noted in a recent article about the Zentrepreneur Guides series, "they're not just books they're a lifestyle." To which the authors add that the Zentrepreneur Guides are quite simply books that change attitudes. "And sometimes that is all it takes.

A blistering novel about a writer's creative response to the daily onslaught of fake news, memory, and the ways in which truth gives over to fiction "An absorbing portrait of an inspired artist in the midst of our maddening cultural moment" —Ayad Akhtar, author of *Homeland Elegies* When Satya, a professor and author, attends a prestigious artists' retreat to write, he finds the pressures of the outside world won't let up: the president rages online; a dangerous virus envelops the globe; and the twenty-four-hour news cycle throws fuel on every fire. For most of the retreat fellows, such stories are unbearable distractions, but for Satya, who sees them play out in both America and his native India, these Orwellian interruptions begin to crystallize into an idea for his new novel, *Enemies of the People*, about the lies we tell ourselves and one another. Satya scours his life for instances in which truth bends toward the imagined and misinformation is mistaken as fact. Mixing Satya's experiences—as a father, husband, and American immigrant—with newspaper clippings, the president's tweets, and observations on famous works of art, *A Time Outside This Time* captures a feverish political moment with intelligence, beauty, and an eye for the uncanny. It is a brilliant interrogation on life in a post-truth era and an attempt to imagine a time outside this one.
