## CHASE TREVON

Welcome to CDC stacks | Guidelines for environmental ...  
 Guidelines For Environmental Infection ControlThe objective is to  
 develop an environmental infection-control guideline that reviews  
 and reaffirms strategies for the prevention of environmentally-  
 mediated infections, particularly among health-care workers and  
 immunocompromised patients. The recommendations are  
 evidence-based whenever possible.Guidelines for Environmental  
 Infection Control in Health ...Clarification Statement: CDC and  
 HICPAC have recommendations in both 2003 Guidelines for  
 Environmental Infection Control in Health-Care Facilities and the  
 2008 Guideline for Disinfection and Sterilization in Healthcare  
 Facilities that state that the CDC does not support disinfectant  
 fogging. Specifically, the 2003 and 2008 Guidelines  
 state:Environmental Guidelines | Guidelines Library | Infection  
 ...consolidates relevant environmental infection-control measures  
 from other CDC guidelines; and includes two topics not addressed  
 in previous CDC guidelines --- infection-control concerns related  
 to animals in health-care facilities and water quality in  
 hemodialysis settings.Guidelines for Environmental Infection  
 Control in Health ...Centers for Disease Control and Prevention.  
 Guidelines for environmental infection control in health-care  
 facilities: recommendations of CDC and the Healthcare Infection  
 Control Practices Advisory Committee (HICPAC). MMWR 2003; 52  
 (No. RR-10): 1-48. Updates to the Part II recommendations also  
 appeared in the MMWR in 2003 as "Errata: Vol.Guidelines for  
 Environmental Infection Control inCDC Guidelines. This page  
 provides a brief overview of the CDC Guidelines for  
 Environmental Infection Control in Health-Care Facilities.. While  
 surfaces can serve as a reservoir of potential pathogens, surfaces  
 are generally not directly associated with transmission of  
 infections to either staff or patients.CDC Guidelines for
