Laying Down the Law Harper Collins

Messy Journey is for parents walking the difficult road with a wayward child. Be inspired to drink the deep waters of peace as you draw closer to the Father of all prodigals. Author and licensed parent and family educator Lori Wildenberg offers practical grace- and truth-filled ways of navigating your relationship with a detoured child—whether they are rejecting faith, dabbling in sin, or wholeheartedly embracing sinful behavior. There is hope. After all, their struggle isn't really with you—it's with God.

You can know how to handle any parenting situation! Do you want to make effective parenting choices and feel confident that you're doing the right thing for your child? "Parenting in the Real World" is the interactive book that will get you there. Dr. Stephanie O'Leary's no-nonsense, judgmental-free tools are practical and easy to use with kids of all ages. Whether you're raising toddlers or teens, these go-to strategies will empower you in any situation and make room for a deeper connection that will last well beyond the drama of today. In seven simple steps, you'll learn to:

- Really listen to your kids so they start listening to you
- Let your child know you understand (even when you have no clue!)
- Pump up the volume on respect
- Set limits, say no like you mean it, and stop worrying about push-back
- Own your mistakes (because we all make them!) so your child starts taking responsibility
- Find joy and begin to like your child as much as you love him or her
- Practice guilt-free self-care so you can take really good care of your child

Dr. Stephanie O'Leary is a Clinical Psychologist specializing in Neuropsychology, and a mom of two. For over a decade she has been providing parents with a no-nonsense approach to navigating the daily grind while preparing kids for the challenges they'll face in the real world.

Some parents make it all look easy. They always seem to know the right things to do and say, however tricky the situation. They have a seemingly instinctive ability to raise happy, confident, well-balanced children. Children who handle their emotions well, enjoy life, respect others, are decent and thoughtful and stand up for what they believe in. Is there something these parents know that the rest of us don't? Is it something we could learn? The answer is a resounding yes. They know *The Rules of Parenting*. The golden principles and behaviours that will guide you smoothly through the challenges of raising children. This new edition contains 9 new rules to help you keep calm and in control, and put your children on the path to becoming successful independent adults. You'll get more out of being a parent. They'll become all they can be.

Compassionate and effective strategies for raising a child with ADHD. Parenting children with ADHD, whether diagnosed or undiagnosed, can be challenging and complex. But just as a child who struggles with reading can learn to decode words, children with ADHD can learn patience,

communication, and solution-seeking skills to become more confident, independent, and capable.

This book, rich with optimism, tips, tools, and action plans, offers science-based insights and systems for parents to help cultivate these skills. Combining expert information with practical, sensitive advice, the eight "key" concepts here will help parents reduce chaos, improve cooperation, and nurture the advantages—like creativity and drive—that often accompany all of that energy. Based on author Cindy Goldrich's seven-session workshop entitled *Calm and Connected: Parenting Kids with ADHD*®, this book focuses on developing and strengthening effective interpersonal skills in both parents and children as a way to improve conflict resolution. Following the parenting principle to "Parent the child you have," Goldrich offers advice to help readers tailor their parenting to meet the needs of their unique child. The book also leads parents to recognize the value of being a leader and a guide to children, building parents' confidence in their decision-making, and giving children a sense of safety, security, and confidence. The principles outlined in *8 Keys to Parenting Children with ADHD* are appropriate for parenting kids of all ages—until they have "launched" and are on their own.

What kind of parent does God want you to be? Sometimes we think God calls us to raise children who follow the rules, obey the speed limit, cordially deliver apples to their teachers, and help old ladies walk across the street. We passionately focus on helping our kids shine in the classroom, excel in sports, and succeed in the arts. But God has an even higher calling for you as a parent. As you read the pages of *Bold Parenting*, veteran youth worker Lars Rood—a husband and father of three—will challenge you to think more deeply and more clearly about the faith you're responsible for passing on to your children. Lars will help you examine the traps we fall into as parents directing the spiritual journey of our kids, and then he'll discuss resources and ideas that can help you to redirect the faith journey toward a rich, robust, real connection with Jesus. *Bold Parenting* will help you discover the joy and rewards of passing on your faith story to your children. And if you're a youth worker, this book and its accompanying study questions will help you guide parents along this amazing journey.

This *Is Parenting on Your Own Terms* Chances are, you'd rather not forfeit your happy, rested life the moment you become a parent. As a mom, you may want to keep your career, but aren't sure how to balance it with housework and childcare. As a dad, you probably want to witness your child's milestones, but a demanding job may get in the way. And what about time for yourself (never mind your sex life)? Marc and Amy Vachon were determined to beat this scenario when their first child was born. They vowed to sidestep the world's expectations of new parents and create a parenthood model that worked for them. Their strategy was to share everything—the good and the bad. They became peers in each area of parenthood: childcare, housework, and breadwinning. They also made time for themselves, and for each other. They shared the burdens so nobody was overwhelmed, and

the joys so neither missed out on the fun. Drawing on Marc and Amy's experiences, as well as those of dozens of ESP couples, Equally Shared Parenting shows you how to create a balanced life that is rarely experienced by today's parents. It's not just about who vacuums and who does the dishes, or who brings in the paycheck and who tends to the kids. You'll learn how to look at every aspect of parenthood, money, careers, and your individual needs, so you can build a life that works for you both.

Golden Rules Rodale Books

A guide for parents whose adult children have cut off contact that reveals the hidden logic of estrangement, explores its cultural causes, and offers practical advice for parents trying to reestablish contact with their adult children. "Finally, here's a hopeful, comprehensive, and compassionate guide to navigating one of the most painful experiences for parents and their adult children alike."—Lori Gottlieb, psychotherapist and New York Times bestselling author of *Maybe You Should Talk to Someone* Labeled a silent epidemic by a growing number of therapists and researchers, estrangement is one of the most disorienting and painful experiences of a parent's life. Popular opinion typically tells a one-sided story of parents who got what they deserved or overly entitled adult children who wrongly blame their parents. However, the reasons for estrangement are far more complex and varied. As a result of rising rates of individualism, an increasing cultural emphasis on happiness, growing economic insecurity, and a historically recent perception that parents are obstacles to personal growth, many parents find themselves forever shut out of the lives of their adult children and grandchildren. As a trusted psychologist whose own daughter cut off contact for several years and eventually reconciled, Dr. Joshua Coleman is uniquely qualified to guide parents in navigating these fraught interactions. He helps to alleviate the ongoing feelings of shame, hurt, guilt, and sorrow that commonly attend these dynamics. By placing estrangement into a cultural context, Dr. Coleman helps parents better understand the mindset of their adult children and teaches them how to implement the strategies for reconciliation and healing that he has seen work in his forty years of practice. *Rules of Estrangement* gives parents the language and the emotional tools to engage in meaningful conversation with their child, the framework to cultivate a healthy relationship moving forward, and the ability to move on if reconciliation is no longer possible. While estrangement is a complex and tender topic, Dr. Coleman's insightful approach is based on empathy and understanding for both the parent and the adult child.

I Just Don't Get My Parents' Rules Penguin

Every teenager rebels against authority at some point--talks back, breaks curfew, or disobeys. But literally millions of teens take their rebellion to a point where it disrupts their families and endangers their own futures or even their lives. If one of these teens is yours, you've probably lived through years of conflicting advice and pat solutions that don't last. Finally, this breakthrough guide from a master therapist will show you the seven steps to positive, permanent change for you and your teenager: 1. Learn the real reasons for teen misbehavior. 2. Make an ironclad contract to stop that behavior. 3. Troubleshoot future problems. 4. End button-pushing. 5. Stop the "seven aces" -- from disrespect to threats of violence. 6. Mobilize outside help. 7. Reclaim lost love within the family. Clear, compassionate, and packed with real-life solutions to real-life problems, *Parenting Your Out-of-Control Teenager* gives parents the tools they need to turn their families' lives around for good.

The 29 Rules for Smart Parenting are intended to help the reader to become more effective as parents and teachers. On this basis, any advice to establish a friendly relationship with your children misses the fundamental point in the parenting challenge: the responsibility felt and lived. This provides a feeling of security that is far different from feeling accepted in a friendly relationship. Children feel in this elevated awareness that something is expected of them, but at the same time, also know they are on "safe ground" to experiment, to try, and to fail. Such parenting builds trust and establishes an inner basis on which self-confidence and personal responsibility can develop and mature.

Richard Templar's Rules Simon and Schuster

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context of significant ongoing developments. These include: a rapidly growing body of science on early childhood, increases in funding for programs and services for families, changing demographics of the U.S. population, and greater diversity of family structure. Additionally, parenting is increasingly being shaped by technology and increased access to information about parenting. *Parenting Matters* identifies parenting knowledge, attitudes, and practices associated with positive developmental outcomes in children ages 0-8; universal/preventive and targeted strategies used in a variety of settings that have been effective with parents of young children and that support the identified knowledge, attitudes, and practices; and barriers to and facilitators for parents' use of practices that lead to healthy child outcomes as well as their participation in effective programs and services. This report makes recommendations directed at an array of stakeholders, for promoting the wide-scale adoption of effective programs and services for parents and on areas that warrant further research to inform policy and practice. It is meant to serve as a roadmap for the future of parenting policy, research, and practice in the United States.

I Just Don't Get My Parents Rules! transports parents and children into the world of parents rules. This book is written for parents who understand the importance of setting rules at home and who are looking for an imaginative, enjoyable way to explain this topic to their child. Readers take a journey with a boy as he explores his feelings about his parents rules. Along the way, he imagines life without those horrible rules. Although he is momentarily caught up in the euphoria and amusement of the possibilities, he soon realizes that a house without rules might not be as fantastic as he imagined. The boy acknowledges his anger at the rules and shares fun, practical, and effective strategies for managing his feelings. I Just Don't Get My Parents Rules! is a valuable resource for parents and their children as well as for nannies, grandparents, teachers, and any other caregiver who wants to encourage the emotional growth of a child.

The Idle Parent Penguin

In this New York Times bestseller, one of America's premier child psychologists offers a must-read account of the dismal state of parenting today, and a vision for how we can better prepare our children for the challenges of the adult world. In The Collapse of Parenting, internationally acclaimed author Leonard Sax argues that rising levels of obesity, depression, and anxiety among young people can be traced to parents abdicating their authority. The result is children who have no standard of right and wrong, who lack discipline, and who look to their peers and the Internet for direction. Sax shows how parents must reassert their authority - by limiting time with screens, by encouraging better habits at the dinner table, and by teaching humility and perspective - to renew their relationships with their children. Drawing on nearly thirty years of experience as a family physician and psychologist, along with hundreds of interviews with children, parents, and teachers, Sax offers a blueprint parents can use to help their children thrive in an increasingly complicated world.
