Blood Land is a gritty, emotional saga set in the Wyoming badlands with both greed and vengeance at its core. When billions of dollars in natural gas rights hang in the balance and the town's top law officer's wife is slain by her own blood, a reluctant hero is forced to battle his own demons and ultimately choose between justice, revenge, and duty.

Aster Wood and the Lost Maps of Almara National Geographic Books

25th ANNIVERSARY EDITION • An epic novel of the violence and depravity that attended America's westward expansion, *Blood Meridian* brilliantly subverts the conventions of the Western novel and the mythology of the Wild West—from the bestselling, Pulitzer Prize-winning author of *The Road*. Based on historical events that took place on the Texas-Mexico border in the 1850s, it traces the fortunes of the Kid, a fourteen-year-old Tennessean who stumbles into the nightmarish world where Indians are being murdered and the market for their scalps is thriving.

This stirring story of survival set against the backdrop of the founding of Jamestown, the first permanent English settlement in the New World, introduces Samuel Collier, the page of famed Captain John Smith. In 1607, a year after the Virginia Company was granted a charter to establish a settlement in North America, 104 men set sail on a voyage to a new land. Among the brave adventurers who make the journey is a young boy named Samuel Collier, the page of famed Captain John Smith. Disease, famine, and continuing attacks by neighboring Algonquin Native Americans take a tremendous toll on the settlers. Samuel is one of the few to survive the harsh realities of the New World during the first few years of Jamestown. Based on author Gail Karwoski's careful research of the era, this fictional account portrays the struggles and successes of our country's earliest settlers. Young readers will enjoy this story of courage and survival while learning about this important period in the history of the United States.

Brisbane 1999. It's hot. Stormy. Dangerous. The waters of the Brisbane River are rising. The rains won't stop. People's nerves are on edge. And then . . . A body is found. And then another. And another. A string of seemingly ritualised but gruesome murders. All the victims are men. Affluent. Guys with nice houses, wives and kids at private schools. All have had their throats cut. Tabloid headlines shout, THE VAMPIRE KILLER STRIKES AGAIN! Detective Constable Lara Ocean knows the look. The 'my-life-will-never-be-the-same-again look'. She's seen it too many times on too many faces. Telling a wife her husband won't be coming home. Ever again. Telling her the brutal way he was murdered. That's a look you never get used to. Telling a mother you need her daughter to come to the station for questioning. That's another look she doesn't want to see again. And staring into the eyes of a murderer, yet doubting you've got it right. That's the worst look of all - the one you see in the mirror. Get it right, you're a hero and the city is a safer place. Get it wrong and you destroy a life. And a killer remains free. Twenty years down the track, Lara Ocean will know the truth.

This spooky stand-alone from MG horror expert Dan Poblocki is perfect for fans of Katherine Arden and Victoria Schwab! Simon is a liar. Stella and Alex know this about their new step-brother, so they aren't bothered by his stories about their new house. Wildwyck, a former schoolhouse for misbehaved boys, might have plenty of creaks and shadows, but the twins know that ghosts aren't real. But Simon is getting harder and harder to ignore, as his cries for attention become increasingly dangerous and difficult to explain. Stella and Alex have to consider . . . could Simon actually be telling the truth? As they look for answers, they learn that the history of Wildwyck is more sinister than they could have imagined. And when a shocking truth is revealed, it's not clear who can be trusted anymore. Will the three siblings be able to put aside their differences to save their family . . . before it's too late?

VINTAGE VOYAGES- A world of journeys, from the tallest mountains to the depths of the mind When Daily Telegraph correspondent Tim Butcher was sent to cover Africa he quickly became obsessed with the idea of recreating H.M. Stanley's famous expedition - but travelling alone. Despite warnings that his plan was 'suicidal', Butcher set out for the Congo's eastern border with just a rucksack and a few thousand dollars hidden in his boots. Making his way in an assortment of vessels including a motorbike and a dugout canoe, helped along by a cast of characters from UN aid workers to a campaigning pygmy, he followed in the footsteps of the great Victorian adventurers.

Richard Owen was, after Darwin, the most important figure in Victorian natural history. He was, for most of the six decades of his career, Britain's foremost comparative anatomist and vertebrate palaeontologist. As the most renowned opponent of natural selection, Owen was type-cast as a Cuvierian creationist and became the bete noire of the Darwinian evolution debate. In this comprehensive intellectual and scientific biography, Nicolaas Rupke argues that Owen was no simple-minded anti-evolutionist and, moreover, should be freed from the distortion of the evolution

dispute that was only a minor part of his work, yet has come to dominate his memory.

Bright white teeth. Straight leg bones. Awkwardly contorted arm bones. On a hot summer day in 2005, Dr. Douglas Owsley of the Smithsonian Institution peered into an excavated grave, carefully examining the fragile skeleton that had been buried there for four hundred years. "He was about fifteen years old when he died. And he was European," Owsley concluded. But how did he know? Just as forensic scientists use their knowledge of human remains to help solve crimes, they use similar skills to solve the mysteries of the long-ago past. Join author Sally M. Walker as she works alongside the scientists investigating colonial-era graves near Jamestown, Virginia, as well as other sites in Maryland. As you follow their investigations, she'll introduce you to what scientists believe are the lives of a teenage boy, a ship's captain, an indentured servant, a colonial official and his family, and an enslaved African girl. All are reaching beyond the grave to tell us their stories, which are written in bone.

From the renowned and best-selling author of *A History of God*, a sweeping exploration of religion and the history of human violence. For the first time, religious self-identification is on the decline in America. Some analysts have cited as cause a post-9/11 perception: that faith in general is a source of aggression, intolerance, and divisiveness—something bad for society. But how accurate is that view? With deep learning and sympathetic understanding, Karen Armstrong sets out to discover the truth about religion and violence in each of the world's great traditions, taking us on an astonishing journey from prehistoric times to the present. While many historians have looked at violence in connection with particular religious manifestations (jihad in Islam or Christianity's Crusades), Armstrong looks at each faith—not only Christianity and Islam, but also Buddhism, Hinduism, Confucianism, Daoism, and Judaism—in its totality over time. As she describes, each arose in an agrarian society with plenty powerful landowners brutalizing peasants while also warring among themselves over land, then the only real source of wealth. In this world, religion was not the discrete and personal matter it would become for us but rather something that permeated all aspects of society. And so it was that agrarian aggression, and the warrior ethos it begot, became bound up with observances of the sacred. In each tradition, however, a counterbalance to the warrior code also developed. Around sages, prophets, and mystics there grew up communities protesting the injustice and bloodshed endemic to agrarian society, the violence to which religion had become heir. And so by the time the great confessional faiths came of age, all understood themselves as ultimately devoted to peace, equality, and reconciliation, whatever the acts of violence perpetrated in their name. Industrialization and modernity have ushered in an epoch of spectacular and unexampled violence, although, as Armstrong explains, relatively little of it can be ascribed directly to religion. Nevertheless, she shows us how and in what measure religions, in their relative maturity, came to absorb modern belligerence—and what hope there might be for peace among believers of different creeds in our time. At a moment of rising geopolitical chaos, the imperative of mutual understanding between nations and faith communities has never been more urgent, the dangers of action based on misunderstanding never greater. Informed by Armstrong's sweeping erudition and personal commitment to the promotion of compassion, *Fields of Blood* makes vividly clear that religion is not the problem.

It's 1838, and James has made a secret plan to escape Master Graham's farm—and slavery. James tells his dog Zeus he has to stay behind: he's simply too noisy to bring along on a dangerous nighttime journey. But when two white men capture James soon after he runs, he's grateful his faithful hunting dog didn't obey. Zeus has followed behind, and the scrappy hound rescues James from his captors. An author's note describes the real life inspiration behind the book: James Smith, a slave who escaped with the help of his dog and went on to become a farmer and Baptist minister.

Samuel Collier de doce años, es un niño humilde de las calles de Londres. Cuando se convierte en el paje del Capitán John Smith y aborda el *Susan Constant* con destino al Nuevo Mundo, no puede creer su buena fortuna. Ha oído que por aquellos lados el oro llega a las costas con cada marea. Pero a partir del tormentoso viaje y su primer contacto con los nativos, se da cuenta de que el Nuevo Mundo no es nada parecido a lo que él imaginaba. La exuberante costa de Virginia donde establecen la colonia de James Town es a la vez hermosa e imponente, y es difícil saber quién es amigo o enemigo. A medida que aprende el idioma de los indios algonquinos y observa la sabia diplomacia del Capitán Smith, Samuel comienza a darse cuenta que puede ser quien él quiera ser en esta nueva tierra. ENGLISH DESCRIPTION Twelve-year-old Samuel Collier is a lowly commoner on the streets of London. So when he becomes the page of Captain John Smith and boards the *Susan Constant*, bound for the New World, he can't believe his good fortune. He's heard that gold washes ashore with every tide. But beginning with the stormy journey and his first contact with the native people, he realizes that the New World is nothing like he imagined. The lush Virginia shore where they establish the colony of James Town is both beautiful and forbidding, and it's hard to know who's a friend or foe. As he learns the language of the Algonquian Indians and observes Captain Smith's wise diplomacy, Samuel begins to see that he can be whomever he wants to be in this new land.
