 Linesweeper ("Loop") is played on a rectangular grid. The object is to create a single continuous non-intersecting loop

that connects the centres of the grid cells. The numbered cells can't be passed through; the number in the cell means how many of the 8 surrounding cells should contain some part of the solution path. (For example, "0" means the 8 surrounding cells can't be passed through at all). brain teasers for adults - brain teaser puzzles - brain teaser puzzles for adults - brain teaser games - brain teaser

To succeed in life, you must 'think outside the box'. This cliché is used to describe creative, non-standard approaches to problem solving. But how does one learn to 'think outside the box'? Unfortunately, there is no simple answer. Author Kiran Srinivas believes that you can significantly

improve your thinking abilities, and this book will force you to think in ways you never have before. By sheer practice, you can increase your ability to think creatively. Many of the puzzles in this book will take hours, if not days, to solve, but be encouraged, a middle-school education is sufficient to answer almost all of the puzzles. There are many interview puzzles, and if you plan to interview at an investment bank, consulting firm, high-tech firm, or in any other related field, absorb what 'Brain Teasers' has to offer, as it can be the deciding factor in getting that offer.

Learn how to ask the right questions, solve problems, and think more clearly. In traditional education, you're taught to recite and regurgitate. But there is rarely application, and information just becomes information for information's sake. Does this actually make us smarter and more clever, or do we just get better at taking tests? Test yourself with over 30 maddening riddles and brain teasers designed to make you think outside the box. Learn to Think Using Riddles, Brain Teasers, and Wordplay is about how to think backwards, forwards, and sideways. Starting with a conclusion and finding the possible causes forces you to analyze, investigate, draw connections, and hypothesize. You need to explore all angles and let no stone remain unturned. This is exactly what real life requires. This book will confuse, frustrate, and ultimately improve your thinking prowess like nothing else, on account of being thrown into the mental deep end. Challenge yourself and you will grow. Think like

Sherlock Holmes and quickly cut to the core of an issue. Patrick King is an internationally bestselling author and social skills coach. His writing draws of a variety of sources, from scientific research, academic experience, coaching, and real life experience. Become more naturally curious, inquisitive, and insightful. - What 5-letter word becomes shorter when you add two letters to it? - A woman gives birth one day to two sons; they are both born in the same hour, in the same day, in the same year. However, they are not twins. How? - A man hears his name spoken and is immediately taken away by two other men. Some time later, the man dies under the care of others. What happened to this man? - A cowboy rides into town on Friday, stays for just three nights and then leaves on Friday - how is this possible? Apply your new mental models in all facets of life.
