"The Moyne Report is perhaps the most referenced material related to the dark ages of Britain's colonial reign in the West Indies. The damning report on the working and living conditions in the colonies was ironically commissioned by the British government and the findings delivered in 1940 they were only made public at the end of the Second World War in 1945. Seventy years later, the report is re-presented with an updated introduction by Professor Denis Benn, who ably

contextualizes the findings informed not only by his scholarly work but also as a witness to the many labour disputes and agitation for better working and living conditions for the poor and working class citizens of the region. "

The Life of Captain Cipriani (1932) is the earliest full-length work of nonfiction by the Trinidadian writer C. L. R. James, one of the most significant historians and Marxist theorists of the twentieth century. It is partly based on James's interviews with Arthur Andrew Cipriani (1875–1945). As a captain with the British West Indies Regiment during the First World War, Cipriani was greatly impressed by the service of black West Indian troops and appalled at their treatment during and after the war. After his return to the West Indies, he became a Trinidadian political leader and advocate for West Indian self-government. James's book is as much polemic as biography. Written in Trinidad and published in England, it is an early

and powerful statement of West Indian nationalism. An excerpt, *The Case for West-Indian Self Government*, was issued by Leonard and Virginia Woolf's Hogarth Press in 1933. This volume includes the biography, the pamphlet, and a new introduction in which Bridget Brereton considers both texts and the young C. L. R. James in relation to Trinidadian and West Indian intellectual and social history. She discusses how James came to write his biography of Cipriani, how the book was received in the West Indies and Trinidad, and how, throughout his career, James would use biography to explore the dynamics of politics and history.

Alternative Work Patterns Walter de Gruyter

Young Williams became an authority on West Indian history and founded the People's National Movement Party. This is an autobiography of the author.

The model focuses on data, regardless of how it may be packaged (e.g., in authority records)."--Page 13.

The purpose of authority control is to ensure consistency in representing a value - a name of a person, a place name, or a term or code representing a subject - in the elements used as access points in information retrieval. The primary purpose of this study is to produce a framework that will provide a clearly stated and commonly shared understanding of what the subject authority data/record/file aims to provide information about, and the expectation of what such data should achieve in terms of answering user needs.
