Three centuries after Jnaneshwar, devotional poetry had another full flowering in Western India.

Tukaram Maharaj was a merchant and householder who seemed to fail at everything. Bankruptcy, the death of his first wife during a famine, and castigation by the Brahmin orthodoxy forced him into isolation and there he poured out his longing and devotion in hundreds of songs. At first regarded as mad, musicians, singers, and ordinary villagers began to gather around him by the hundreds to hear his kirtans, celebrations of the Name of God. Tukaram's songs seem to have possessed some magical ability to exactly capture the devotional, egalitarian feeling of the community of bhaktas. In this brilliant pioneering study of Tukaram by the philosopher and mystic R. D. Ranade, written in the 1930s, Ranade describes what he refers to as the Hegelian dialectic of Tuka's life and poetry: his withdrawal from society, his dark night of the soul, and his emergence from humiliation, confusion and doubt into the state of mystical knowledge and inner joy. While Jnaneshwar always writes from the lofty mountain top of spiritual realization, Tukaram takes us with him on the journey itself, with all its subtle ordeals and breakthroughs. Tukaram is an important poet, one whose stature in Marathi literature is comparable to that of Shakespeare in English. Ranade's study is an indispensable introduction.

This book is an historical survey of Buddhism in India and shows how over a period of 2500 years, Buddhism has been engaged in a struggle against caste-hierarchy. It has challenged Brahmanism, the main exploitative system of traditional Indian society, and instead endeavoured to build religious egalitarianism. The book focuses on the question of what is the 'core' element in Buddhist Dhamma, on what role it has played in the development of Indian civilization, and the changed perspective of Buddhism in a modern industrial age. The author starts with the rise of Buddhism in the middle of the second millenium BC amidst crucial cultural and social developments. The teachings of Buddha and the different forms of Buddhism have been discussed. Here the contrast between Buddhism and Brahmanism with regard to the caste system, the origin and role of state, the approach to various social groups and the position of women is well defined. The author examines the civilizational impact of Buddhism, its connections with ancient India's leading role in trade, its spread and popularity in South and Southeast Asia, its role in fostering a dynamic and open society as against the hierarchical, village-bound, caste-defined Brahmanical social system. Then came the defeat of Buddhism in India and the reassertion of Brahmanism. For centuries Buddhism retreated to what some term as its 'underground survival'. Its relationship with the syncretist Bhakti movement has been another important aspect of the book. Finally the revival of Buddhism in the nineteenth century, the dalit-based success of the religion under Ambedkar and its future in India have been studied. The author argues that Ambedkarian Buddhism can serve as a powerful force for reconstructing society in a new and challenging millenium.

Seeker of Spirituality? Lover of Exquisite Poetry? Look No Beyond "One Hundred Poems of Tukaram"!

This book is a collection of selected poems of Tukaram, the greatest poet from India, who finely blends worldly wisdom with spirituality. Though written in the seventeenth century, Tukaram's poetry hold its relevance in our own twenty-first century that is facing so many self-created evils! These poems will heal your bruised mind with their spiritual touch and at the same time enrich it with their worldly wisdom! Much needed fine balance indeed!!! Tukaram was a seventeenth century Indian poet who challenged the norms of the day, whether literary, social or religious in his poems that not only energized a decaying society but also influenced the centuries to come. Tukaram's poetry hold its rejuvenating powers even in the turbulent times of our own twenty-first century. One Hundred Poems of Tukaram is a translation of selected poems of this visionary poet who makes his reader see every aspect of life in a new light, enabling them to rethink the whole world in more positive terms. Tukaram's reputation as one of the greatest poets born in India resides on his four thousand or so extant poems which he composed in Marathi, his mother tongue. Unlike most of the poets of the seventeenth century, Tukaram did not write in highly Sanskritised Marathi, instead he chose the colloquial language spoken by the common-most people of his times. This has given a distinct vigour to his compositions which appeal straight to the heart of his readers. By temperament, Tukaram is as candid and as forthright as imaginable and does not hesitate to write about anything under the sun nor does he consider anything too holy to be left untouched. This makes his poems penetratingly consistent in taking aim at the very core of the questions grappling human existence. Though he wrote almost four hundred years ago, in a very different social milieu than today's globalised and digitized world, somehow he seems to be dealing with and overcoming

exactly the same dilemmas faced by the human populace in the twenty first century the world over. This continuum of human condition is what draws us more and more to the poems of Tukaram. While reading Tukaram, one gets an eerie feeling that Tukaram is a contemporary poet, that the content of his poems is of the present times, that he writes for the current generations. Thus we come across in his poems all that angst that we today experience on seeing innocent people suffering at the hands of the terrorists, when he exclaims: "Eyes cannot bear to see Such is the devastation Pains of others grieve My heart" It hardly matters that Tukaram is writing in this poem about the horrific droughts of his times that wiped out an entire generation; this becomes an expression of my heart writhing in pain seeing the images of the thousands of Nigerians killed in the Boko Haram attack. It hardly matters that Tukaram is talking about a nature-inflicted calamity, while our miseries today are self-inflicted. Tukaram's words catch hold of our aching nerve like no contemporary of ours can.

Namdev is a central figure in the cultural history of India, especially within the field of bhakti, a devotional practice that has created publics of memory for over eight centuries. Born in the Marathi-speaking region of the Deccan in the late thirteenth century, Namdev is remembered as a simple, low-caste Hindu tailor whose innovative performances of devotional songs spread his fame widely. He is central to many religious traditions within Hinduism, as well as to Sikhism, and he is a key early literary figure in Maharashtra, northern India, and Punjab. In the modern period, Namdev appears throughout the public spheres of Marathi and Hindi and in India at large, where his identity fluctuates between regional associations and a quiet, pan-Indian, nationalist-secularist profile that champions the poor, oppressed, marginalized, and low caste. Christian Lee Novetzke considers the way social memory coheres around the figure of Namdev from the sixteenth century to the present, examining the practices that situate Namdev's memory in multiple historical publics. Focusing primarily on Maharashtra and drawing on ethnographies of devotional performance, archival materials, scholarly historiography, and popular media, especially film, Novetzke vividly illustrates how religious communities in India preserve their pasts and, in turn, create their own historical narratives.

Mysticism in India is a complete and informative description of the teachings, works, and lives of the great poet-saints of Maharashtra written by a scholar and professor who was also a mystic. Jnaneshwar, Namadev, Tukaram, Eknath, Ramdas, and the other saints discussed belonged to the great devotional religious movement that spread through medieval India. With the exception of Ramdas, they all belonged to the tradition of the Varkaris, the most popular sect in contemporary Maharashtra. Their compositions exemplify the universality of their faith and practice, and are recognized as literary treasures. Ranade was primarily interested in the poet-saints as mystics--teachers of the perennial philosophy--whose experiences have general metaphysical and religious implications. At the heart of his classic is a comprehensive, objective presentation of the thought of these saints, augmented by a deep appreciation of their value and relevance to present-day scholars and seekers. Mysticism in India is the only major study in English of medieval Indian religious literature. The book's enduring value has been enhanced by the addition of a foreword by a scholar currently working in Marathi literature, and a preface by a present-day poet-saint of Maharashtra.

Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaja culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

The humanworld is in great trouble. The statesmen of the world are still talking of 'civilisation' and the possibility of its being destroyed. This is the result of the abandonment, in the dealings of different groups of human beings with one another, of the tenets of all the moral teachers of mankind. No good man has ever lived on this globe and preached anything, who has not preached kindness, consideration of humanity and fairness in the dealings with others. Europe, for the last three centuries in her dealings with the people of the five continents, has shown an adherence to greed and cruelty and to the use of force. The states of Europe are now adopting towards each other exactly the rule of the jungle, which they adopted towards peoples in the five continents of the world, and they are bent upon total war or complete destruction. On the material plane, on which life has been lived, statesmanship has been bankrupt, and the organization and conduct of human society has failed. It is in times of such cataclysm that thoughtful men turn for guidance inwards. They realise that the fruits of violence are bitter, that the triumphs are short-lived, that the success is empty, and that the greatest good of the greatest number cannot be achieved thus. The Indian mind deriving inspiration from Indian tradition, sees that there can be no lasting peace, and the best qualities, which ennoble humanity, cannot be brought to the surface until greed and injustice are eliminated, until artificial barriers of race and colour are demolished and until the claims of common humanity are acknowledged as supreme. It is the sovereignty of the divine law, which has to be enthroned, and the first principle of that law is what was preached in the Sermon on the Mount and what is instinct and living in every page of the Gita as explained by Dnyaneshwara Maharaj.
