 Reproduced from the 1948 edition of *The Home Place*, the Bison Book edition brings back into print an important early work by one of the most highly regarded of contemporary American Writers. This account in first-person narrative and photographs of the one-day visit of Clyde Muncy to "the home place" at Lone Tree, Nebraska, has been called "as near to a new fiction form as you could get." Both prose and pictures are homely: worn linoleum, an old man's shoes, well-used kitchen utensils, and weathered siding. Muncy's journey of discovery takes the measure of the man he has become and of what he has left behind.

 From a world-renowned painter, an exploration of creativity's quintessential—and often overlooked—role in the spiritual life "Makoto Fujimura's art and writings have been a true inspiration to me. In this luminous book, he addresses the question of art and faith and their reconciliation with a quiet and moving eloquence."—Martin Scorsese "[An] elegant treatise . . . Fujimura's sensitive, evocative theology will appeal to believers interested in the role religion can play in the creation of art."—Publishers Weekly
 Conceived over thirty years of painting and creating in his studio, this book is Makoto Fujimura's broad and deep exploration of creativity and the spiritual aspects of "making." What he does in the studio is theological work as much as it is aesthetic work. In between pouring precious, pulverized

minerals onto handmade paper to create the prismatic, refractive surfaces of his art, he comes into the quiet space in the studio, in a discipline of awareness, waiting, prayer, and praise. Ranging from the Bible to T. S. Eliot, and from Mark Rothko to Japanese Kintsugi technique, he shows how unless we are making something, we cannot know the depth of God's being and God's grace permeating our lives. This poignant and beautiful book offers the perspective of, in Christian Wiman's words, "an accidental theologian," one who comes to spiritual questions always through the prism of art.

The Building Blocks series presents icons of modern architecture as interpreted by Ezra Stoller, whose photography has defined the way postwar architecture has been viewed by architects, historians, and the public at large. Taken just after the completion of each project, these photographs provide a unique historical record of the buildings in use, documenting people, fashions, and furnishings of the period.

The Golden Age is Grand Space Opera, a large-scale SF adventure novel in the tradition of A. E. Van vogt and Roger Zelazny, with perhaps a bit of Cordwainer Smith enriching the style. It is an

astounding story of super science, a thrilling wonder story that recaptures the excitements of SF's golden age writers. The Golden Age takes place 10,000 years in the future in our solar system, an interplanetary utopian society filled with immortal humans. Within the frame of a traditional tale—the one rebel who is unhappy in utopia—Wright spins an elaborate plot web filled with suspense and passion. Phaethon, of Radamanthus House, is attending a glorious party at his family mansion to celebrate the thousand-year anniversary of the High Transcendence. There he meets first an old man who accuses him of being an impostor and then a being from Neptune who claims to be an old friend. The Neptunian tells him that essential parts of his memory were removed and stored by the very government that Phaethon believes to be wholly honorable. It shakes his faith. He is an exile from himself. And so Phaethon embarks upon a quest across the transformed solar system—Jupiter is now a second sun, Mars and Venus terraformed, humanity immortal—among humans, intelligent machines, and bizarre life forms that are partly both, to recover his memory, and to learn what crime he planned that warranted such preemptive punishment. His quest is to regain his true identity. The Golden Age is one of the major, ambitious SF novels of the year and the international launch of an important new writer in the genre. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

As strange as it sounds, seducing a 2,000-year-old demon with a grudge isn't the riskiest stunt John Constantine has ever pulled. But tipping the supernatural scales for a chance at love will exact a cost higher than he ever thought possible. And try as he might, is this something that devil-may-care Constantine can walk away from? Collects *Hellblazer* #250-260 and *Hellblazer Special: Chas-The Knowledge* #1-5.

A History of Asia is the only text to cover the area known as "monsoon Asia" - India, China, Korea, Japan, and Southeast Asia--from the earliest times to the present. Written by leading scholar Rhoads Murphey, the book uses an engaging, lively tone to chronicle the complex political, social, intellectual, and economic histories of this area. Popular because of its scope and coverage, as well as its illustrations, maps, and many boxed primary sources, the new edition of *A History of Asia* continues as a leader in its field.
