Lulu Is Getting a Sister Simon and Schuster

Maisy's plan to have a quiet read is put to the challenge by her giggling friends in this ode to the pleasures of the local library (ages 2-5). Maisy likes going to the library. She loves to read a book in a nice, quiet place. Today, Maisy wants to read a book about fish, but she can only find books about birds or tigers. So she explores some of the other things to do in the library, like using the computer, making copies, listening to music, or looking at fish in the aquarium. Aha! Finally Maisy finds a sparkly book all about fish. But just as she settles into a corner to read, along come Cyril, Tallulah, Eddie, and Ostrich -- and they all have noisier activities on their minds!

Mass Incarceration in the Age of Colorblindness Simon and Schuster

A search for the Beast, a Yeti-like creature within the heart of the Amazon, becomes a quest for self-discovery in this young adult coming-of-age story filled with international adventure, rich mythology, and magical realism from globally celebrated novelist Isabel Allende. Fifteen-year-old Alexander Cold has the chance to take the trip of a lifetime. Parting from his family and ill mother, Alexander joins his fearless grandmother, a magazine reporter for International Geographic, on an expedition to the dangerous, remote world of the Amazon. Their mission, along with the others on their

team—including a celebrated anthropologist, a local guide and his young daughter Nadia, and a doctor—is to document the legendary Yeti of the Amazon known as the Beast. Under the dense canopy of the jungle, Alexander is amazed to discover much more than he could have imagined about the hidden worlds of the rain forest. Drawing on the strength of the jaguar, the totemic animal Alexander finds within himself, and the eagle, Nadia's spirit guide, both young people are led by the invisible People of the Mist on a thrilling and unforgettable journey to the ultimate discovery.

The Read & Bloom line offers high interest, character driven stories for newly independent readers that feature full-color illustrations throughout and will transition kids from leveled readers to a lifetime of reading. In this charming series, kids will be treated to simple whodunit mysteries as an utterly delightful owl duo put their heads together. In this adventure, Monty the chipmunk's cupcake is stolen, and he thinks Sal the groundhog took it. If Wallace and Grace want to prove that Sal is the cupcake thief, they will need to look for clues and talk to witnesses. But what happens when the clues lead them to a cupcake thief they never expected?

America in the Time of COVID Simon and Schuster

Alexander tries his hand at behaving in this hilarious companion to the bestselling classic Alexander and the Terrible, Horrible, No Good, Very Bad Day. Last night somebody ate a whole box of jelly donuts. That somebody woke up with a terrible bellyache, and that somebody's mom found the empty box and told that somebody that there are going to be consequences. That somebody is Alexander, and Alexander really hates consequences.

So from now on, he is going to try his best to be the Best Boy Ever. For the complete and entire rest of his life. Starting right this very minute. But there are all sorts of things that you can't do when you're being the Best Boy Ever. Fun things. Very important things. Things that Alexander might—just might—like a little bit more than he hates consequences.

Staar Connection The New Press

They can stand in line (sort of), use indoor voices (perhaps), and are capable of sharing (rumor has it), so the Click Clack critters are ready for school...but is school ready for them? A charming addition to the award-winning Click, Clack series from the New York Times bestselling and Caldecott winning team who brought you Click, Clack, Moo and Click, Clack, Surprise! Farmer Brown has been invited to be a guest at the elementary school's Farm Day! The animals excitedly practice their best classroom behavior: standing quietly in line, using their inside voices, and learning how to share. But then they find out that farm animals aren't actually allowed in school (who knew they were considered a health code violation?!). Rules are rules, so Farmer Brown goes to school solo—or so he thinks...for while our favorite barnyard bunch don't get high marks in rules, they do excel in disguise.

[Alexander Dia Terrible](#) Bloomsbury Publishing USA

An authoritative and dramatic portrait set against a backdrop of the war-torn Greek empire draws on extensive research to cover such topics as Alexander's military prowess, premature death and inspiration to subsequent historical conquerors.

Xerxes: The Fall of the House of Darius and the Rise of Alexander Live Oak Media (NY)

This historical epic, set in the world of 300, tells of the upsurge and decline of the Persian King's empire, and the ascent of the Grecian realm through Alexander. Written and illustrated by comics luminary and legend, Frank Miller (Sin City, The Dark Knight, 300), and colored by Alex Sinclair (Batman: The Dark Knight III: The Master Race), this companion to Miller's epic masterpiece, 300, brings the historical story of Xerxes to the graphic novel audience with grit and visual style! The ongoing Greek rebellion against Persian tyranny reaches a turning point after the destruction of the city of Sardis and the later battle of Marathon: on a military campaign to vanquish the city of Athens and silence the Greeks once and for all, Xerxes, Persian Prince, watches as his father, King Darius, falls in battle . . . The mantle of king is passed and while his newly-inherited fleet retreats toward home, Xerxes' hatred is cemented toward Athens--and his incentive to build the Persian empire is fueled. Xerxes becomes the king of all countries--the king of Persia, ruler of Zion, and Pharaoh of Egypt--and his empire is unlike any the world has ever seen, until . . . The mantle is again passed, the god king dies and Darius III continues as the king of all. But then, from the west, a tiger force strikes in Asia Minor and is on a course for collision with Persian forces. This will be the beginning of the end for Persia and the launch of Alexander the Great's rise to power!

This book offers a diversification model of transplanted languages that facilitates the exploration of external factors and internal changes. The general context is the New World and the variety that unfolded in the Central Highlands and the Gulf of Mexico, herein identified as Mexican Colonial Spanish (MCS). Linguistic corpora provide the evidence of (re)transmission, diffusion, metalinguistic awareness, and select focused variants. The tridimensional approach highlights language data from authentic colonial documents which are connected to socio-historical reliefs at particular periods or junctions, which explain language variation and the dynamic outcome leading to change. From the Second Letter of Hernán Cortés (Seville 1522) to the decades preceding Mexican Independence (1800-1821) this book examines the variants transplanted from the peninsular tree into Mesoamerican lands: leveling of sibilants of late medieval Spanish, direct object (masc. sing.] pronouns LO and LE, pronouns of address (vos, tu, vuestra merced plus plurals), imperfect subjunctive endings in -SE and -RA), and Amerindian loans. Qualitative and quantitative analyses of variants derived from the peninsular tree show a gradual process of attrition and recovery due to their saliency in the new soil, where they were identified with ways of speaking and behaving like Spanish speakers from the metropolis. The variants analyzed in MCS may appear in other regions of the Spanish-speaking New World, where change may have proceeded at varying or similar rates. Additional variants are classified as optimal residual (e.g. dizque) and popular residual (e.g. vide). Both types are derived from the medieval peninsular tree, but the former are vital across regions and social strata while the latter may be restricted to isolated and / or marginal speech communities. Each of the ten chapters probes into the pertinent variants of MCS and the stage of development by century. Qualitative and quantitative analyses reveal the trails followed by each select variant from the years of the Second Letter (1520-1522) of Hernán Cortés to the end of the colonial period. The tridimensional historical sociolinguistic model offers explanations that shed light on the multiple causes of change and the outcome that eventually differentiated peninsular Spanish tree from New World Spanish. Focused-attrition variants were selected because in the process of transplantation, speakers assigned them a social meaning that eventually differentiated the European from the Latin American variety. The core chapters include narratives of both major historical events (e.g. the conquest of Mexico) and tales related to major language change and identity change (e.g. the socio-political and cultural struggles of Spanish speakers born in the New World). The core chapters also describe the strategies used by prevailing Spanish speakers to gain new speakers among the indigenous and Afro-Hispanic populations such as the appropriation of public posts where the need arose to file documents in both Spanish and Nahuatl, forced and free labor in agriculture, construction, and the textile industry. The examples of optimal and popular residual variants illustrate the trends unfolded during three centuries of colonial life. Many of them have passed the test of time and have survived in the present Mexican territory; others are also vital in the U.S. Southwestern states that once belonged to Mexico. The reader may also identify those that are used beyond the area of Mexican influence. Residual variants of New World Spanish not only corroborate the homogeneity of Spanish in the colonies of the Western Hemisphere but the speech patterns that were unwrapped by the speakers since the beginning of colonial times: popular and cultured Spanish point to diglossia in monolingual and multilingual communities. After one hundred years of study in linguistics, this book contributes to the advancement of newer conceptualization of diachrony, which is concerned with the development and evolution through history. The additional sociolinguistic dimension offers views of social significant and its thrilling links to social movements that provoked a radical change of identity. The amplitude of the diversification model is convenient to test it in varied contexts where transplantation occurred.

[The Monarch Butterfly Migration](#) Alexander And The Terrible Horrible No Good Very Bad Day - SpanishAlexander And The Terrible Horrible No Good Very Bad Day

Alexander se dio cuenta de que iba a ser un día terrible cuando se despertó y se encontró chicle en el pelo. Y aun fue peor... Su mejor amigo lo

abandono. No tenia postre en su bolsa del almuerzo. Y para colmo, había habas verdes en la comida y besos en la televisión! Este cuento clásico de Judith Viorst, ahora en español, será sin lugar a duda del agrado de los lectores de todas las edades, como lo ha sido hasta ahora.

On a day when everything goes wrong for him, Alexander is consoled by the thought that other people have bad days too.

(Who WANTS Her? Who NEEDS Her?) Simon and Schuster

Pig Will minds his manners, but naughty Pig Won't won't! In three stories, Pig Won't learns to play nicely, help with chores, and always say please and thank you. Richard Scarry's beloved characters make these cautionary tales more fun than didactic.

Alexander Y El Dia Terrible; Horrible, Espantoso, Horroroso Simon and Schuster

A young girl's grandmother tells her of her love for baseball and the day they let her play in the game even though she was a girl.

[The Night Circus](#) Simon and Schuster

Lulu is getting the sister she never asked for in this oh-so-funny illustrated chapter book filled with hilarious hijinks and fiesty twists from Judith Viorst. Lulu has received the worst. News. EVER. She's getting...a baby sister. No one ever asked HER opinion on this debacle. But she'll tell you anyway, because she no how, no way, no thank you wants a sibling. Undeterred, and to prepare Lulu for big sisterhood, her parents bribe—AHEM, ask—Lulu to attend Camp Sisterhood, a.k.a. big sister training camp. As a Sister-in-Training (SIT), Lulu is assigned a variety of temporary little "siblings" who are supposed to be so much fun Lulu will become excited to have a permanent sibling of her own. Well, no one ever said Camp Sisterhood was supposed to teach Lulu how to be a good big sister, so Lulu resolves to be a bad big sister. She insults her little siblings. She taunts them with secrets. She even tricks one of them into carrying both of their backpacks up a mountain! Then some BITs (brothers-in-training) from the neighboring Camp Brotherhood start picking on Lulu's siblings, and Lulu responds by doing her red-faced, steam-coming-out-of-her-ears thing and showing those BITs who's boss! After all, Lulu's siblings may be duds, but they're her duds, and sisters have to stick together.

[How People Learn](#) Simon and Schuster

First released in the Spring of 1999, How People Learn has been expanded to show how the theories and insights from the original book can translate into actions and practice, now making a real connection between classroom activities and learning behavior. This edition includes far-reaching suggestions for research that could increase the impact that classroom teaching has on actual learning. Like the original edition, this book offers exciting new research about the mind and the brain that provides answers to a number of compelling questions. When do infants begin to learn? How do experts learn and how is this different from non-experts? What can teachers and schools do-with curricula, classroom settings, and teaching methods--to help children learn most effectively? New evidence from many branches of science has significantly added to our understanding of what it means to know, from the neural processes that occur during learning to the influence of culture on what people see and absorb. How People Learn examines these findings and their implications for what we teach, how we teach it, and how we assess what our children learn. The book uses exemplary teaching to illustrate how approaches based on what we now know result in in-depth learning. This new knowledge calls into question concepts and practices firmly entrenched in our current education system. Topics include: How learning actually changes the physical structure of the brain. How existing knowledge affects what people notice and how they learn. What the thought processes of experts tell us about how to teach. The amazing learning potential of infants. The relationship of classroom learning and everyday settings of community and workplace. Learning needs and opportunities for teachers. A realistic look at the role of technology in education.

Richard Scarry's Pig Will and Pig Won't Knopf

#1 NATIONAL BESTSELLER • Two starcrossed magicians engage in a deadly game of cunning in the spellbinding novel that captured the world's imagination. • "Part love story, part fable ... defies both genres and expectations." —The Boston Globe The circus arrives without warning. No announcements precede it. It is simply there, when yesterday it was not. Within the black-and-white striped canvas tents is an utterly unique experience full of breathtaking amazements. It is called Le Cirque des Rêves, and it is only open at night. But behind the scenes, a fierce competition is underway: a duel between two young magicians, Celia and Marco, who have been trained since childhood expressly for this purpose by their mercurial instructors. Unbeknownst to them both, this is a game in which only one can be left standing. Despite the high stakes, Celia and Marco soon tumble headfirst into love, setting off a domino effect of dangerous consequences, and leaving the lives of everyone, from the performers to the patrons, hanging in the balance.

Alexander y el Dia Terrible, Horrible, Espantoso, Horroroso Turtleback

Beginning with the absolutely critical first moments of the outbreak in China, and ending with an epilogue on the vaccine rollout and the unprecedented events between the election of Joseph Biden and his inauguration, Lawrence Wright's *The Plague Year* surges forward with essential information--and fascinating historical parallels--examining the medical, economic, political, and social ramifications of the COVID-19 pandemic.

[City of the Beasts](#) Harper Collins

Named one of the most important nonfiction books of the 21st century by Entertainment Weekly, Slate, Chronicle of Higher Education, Literary Hub, Book Riot, and Zora A tenth-anniversary edition of the iconic bestseller—"one of the most influential books of the past 20 years," according to the Chronicle of Higher Education—with a new preface by the author "It is in no small part thanks to Alexander's account that civil rights organizations such as Black Lives Matter have focused so much of their energy on the criminal justice system." —Adam Shatz, London Review of Books Seldom does a book have the impact of Michelle Alexander's *The New Jim Crow*. Since it was first published in 2010, it has been cited in judicial decisions and has been adopted in campus-wide and community-wide reads; it helped inspire the creation of the Marshall Project and the new \$100 million Art for Justice Fund; it has been the winner of numerous prizes, including the prestigious NAACP Image Award; and it has spent nearly 250 weeks on the New York Times bestseller list. Most important of all, it has spawned a whole generation of criminal justice reform activists and organizations motivated by Michelle Alexander's unforgettable argument that "we have not ended racial caste in America; we have merely redesigned it." As the Birmingham

News proclaimed, it is “undoubtedly the most important book published in this century about the U.S.” Now, ten years after it was first published, The New Press is proud to issue a tenth-anniversary edition with a new preface by Michelle Alexander that discusses the impact the book has had and the state of the criminal justice reform movement today.

Alexander y el día terrible, horrible, espantoso, horroroso (Alexander and the Terrible, Horrible, No Good, Very Bad Day) Live Oak Media (NY)

Do you like your history horrifying? Then the Terrifying Tudors will tantalise you! Shudder at the mad Tudor monarchs and their suffering subjects, who were always losing their heads. Discover what Tudors did in the good times and the gory times, from their great goose fairs and foul festivals to the terrible tricks of their ruthless royal family.

Alexander and the Terrible, Horrible, No Good, Very Bad Day Simon and Schuster

The newest illustrated poetry collection in beloved author Judith Viorst’s “decade” series (from *It’s Hard to Be Hip Over Thirty* to *Unexpectedly Eighty*), exploring, with her signature savvy and humor, what it means to be an impending nonagenarian. In *Nearing Ninety*, bestselling author Judith Viorst candidly shares the complicated joys and everyday tribulations that await us at the age of ninety, all with a large dose of humor and an understanding that nothing—well, almost nothing—in life should be taken too seriously. While she struggles to make it to midnight on New Year’s Eve, while she’s starting to hear more eulogies than symphonies, while she’ll forever be disheartened by what she weighs (and forever unable to stop weighing herself), there is plenty to cherish at ninety: hanging out with the people she loves. Playing a relentless game of Scrabble. And still sleeping tush-to-tush with the same man to whom she’s been married for sixty years. Accompanied by Laura Gibson’s whimsical illustrations, *Nearing Ninety*’s amusing and touching reflections make this collection relatable to readers of all ages. With the wisdom and spunk of someone who’s seen it all, Viorst gently reminds us that everybody gets old, and that the best medicine at any age is laughter.
