## ACEVEDO DESIREE

Chalk It Up To Grace National Geographic Books

A breathtakingly crafted book by poet Amy Lemmon that embodies the human capacity for hope and redemption through and beyond calamity.

**Minutes of Evidence Taken Before the Committee on the London and Brighton Railway Bills ...** Workman Publishing Company

A programme of excavation and survey directed by Roger Mercer between 1974 and 1986 demonstrated that Hambledon was the site of an exceptionally large and diverse complex of earlier Neolithic earthworks, including two causewayed enclosures, two long barrows and several

outworks, some of them defensive. The abundant cultural material preserved in its ditches and pits provides information about numerous aspects of contemporary society, among them conflict, feasting, the treatment of the human corpse, exchange, stock management and cereal cultivation. The distinct depositional signatures of various parts of the complex reflect their diverse use. The scale and manner of individual episodes of construction hint at the levels of organisation and co-ordination obtaining in contemporary society. Use of the complex and the construction of its various elements were episodic and intermittent, spread over 300-400 hundred years, and did not entail lasting settlement. As well as stone axe heads exchanged from remote sources, more abundant grinding equipment and pottery from adjacent regions may point to

the areas from which people came to the hill. If so, it had important links with territories to the west, north-west and south, in other words with land off the Wessex Chalk, at the edge of which the complex lies. Within the smaller compass of the immediate area of the hill, including Cranborne Chase, field walking survey suggests that the hill was the main focus of earlier Neolithic activity. A complementary relationship with the Chase is indicated by a fairly abrupt diminution of activity on the hill in the late fourth millennium, when the massive Dorset cursus and several smaller monuments were built in the Chase. Renewed activity on the hill in the late third millennium and early second millennium was a prelude to occupation on and around the hill in the second millennium in the mid to late second

millennium, which was followed by the construction of a hillfort on the northern spur from the early first millennium. Late Iron Age and Romano-British activity may reflect the proximity of Hod Hill. A small pagan Saxon cemetery may relate to settlement in the Iwerne valley which it overlooks.

The most comprehensive collection available of Menashe’s concise and powerfully suggestive poetry Samuel Menashe (1925-2011) was the first recipient of The Poetry Foundation’s Neglected Masters Prize in 2004 and this volume was published in conjunction with that award. Born in New York City, Menashe practiced his art of “compression and crystallization” (in Derek Mahon’s phrase) in poems that are brief in form but startlingly wide-ranging and profound in their engagement with ultimate questions. Dana Gioia has written: “Menashe is essentially a religious poet, though one without an orthodox creed. Nearly every poem he has ever published radiates a heightened religious awareness.” Intensely musical and rigorously constructed, Menashe’s poetry stands apart in its solitary meditative power. But it is equally a poetry of the everyday, suffused, in the words of Christopher Ricks, with “the courage of comedy, flanked by the respect of innocence.” The

humblest of objects, the minutest of natural forms here become powerfully suggestive, and even the shortest of the poems are spacious in the perspectives they open. About the American Poets Project Elegantly designed in compact editions, printed on acid-free paper, and textually authoritative, the American Poets Project makes available the full range of the American poetic accomplishment, selected and introduced by today’s most discerning poets and critics.

Told through the fictional experiences of Okonkwo, a wealthy and fearless Igbo warrior of Umuofia in the late 1800s, Things Fall Apart explores one man's futile resistance to the devaluing of his Igbo traditions by British political and religious forces and his despair as his community capitulates to the powerful new order. With more than 20 million copies sold and translated into fifty-seven languages, Things Fall Apart provides one of the most illuminating and permanent monuments to African experience.
