This book focuses on managing a large church but also keeping up with managing a smaller church.

40 Days to Excellence in Church Management Wipf and Stock Publishers

Church leaders understand that managing the day-to-day operations of a church can be challenging because of limited resources, managing volunteer labor, and supporting the needs of the congregation. *Smart Church Management: A Quality Approach to Church Administration, Third Edition* is an updated guide for managing the resources of a church - which is people, time and money. This book provides tools and examples for decision making and problem-solving for church administration that is easy to understand and more importantly, quick to implement! This book also includes discussion questions to provoke thought and discussion for church teams. This book is ideal for ministry students, church boards, church leadership and church administrators.

Conflict Management in Congregations Tyndale House

'Team leadership is the exercise of one's spiritual gifts under the call of God to serve a certain group of people in achieving the goals God has given them toward the end of glorifying Christ.' How is your church or organization governed? Does it have an authoritarian, top-down administration? Is the ministry vision developed by a few top officials, with little input from staff or volunteers? Today the definition of an effective leader has changed. No longer does the model leader manage like the Lone Ranger - either do it his way or no way. Today the model leader shares responsibility with fellow team leaders and seeks to serve them. In this complete revision of his earlier work, *Building Leaders for Church Education*, Dr. Gangel carefully lays a biblical foundation for the team leadership model. This leadership is not dogmatic control or personality worship. It has no room for political power plays. Instead, it is Paul gently nurturing young Christians in his epistles. It is Barnabas willingly thrusting others

into situations where they develop their own gifts. It is Christ, choosing not one, but twelve men to carry on His ministry. It is servant leadership. With examples, illustrations, and suggestions for further reading at the end of each chapter, Dr. Gangel prods and encourages the reader to move beyond the safety net of autocratic leadership into the rewarding, effective practice of leading with and through others.

The Unstuck Church Thomas Nelson

In this addition to the new Working Preacher Books series, prolific author William H. Willimon makes the compelling case that two key pastoral tasks--preaching and leadership--complement, correct, strengthen, and inform one another. Preaching is the distinctive function of pastoral leaders. Leadership of the church, particularly during a challenging time of transition in mainline Protestantism, has become a pressing concern for pastors. This book shows how the practices, skills, and intentions of Christian preaching can be helpful to the leadership of a congregation. It will also show how leadership is an appropriate expectation for sermons. In preaching, pastoral leaders can help a congregation face its problems and coordinate its God-given resources to address those problems. Sermons can be an opportunity to articulate, motivate, and orchestrate God's people in doing God's work in the church and in the world. *Leading with the Sermon* includes chapters on why pastors must be leaders, why preaching is such an essential task in telling the truth about the gospel, how preaching makes better leaders, and how better leaders make better preachers.

A Transformational Model for Church Leadership, Administration, and Management Xulon Press

Practicing leadership requires being prepared to be flexible. Not every situation requires the same kind of leadership, so any rigid theory of leadership for pastors is bound to fail. In *Meeting the Moment: Leadership & Well-Being in Ministry*, church management expert G. Douglass Lewis advocates an approach to leadership that accounts for a variety of situations in parish ministry. Using case studies, he also describes how pastors ensure their well-being, e.g., avoiding burnout, in order to be effective leaders.

Christian Leadership Essentials Abingdon Press

Spiritual management is required for spiritual organization, and yet a ministry's master plan should be the Master's plan for that ministry. *Church and Ministry Strategic Planning* assists readers in developing a Biblically based blueprint for carrying out the many activities in which the church or ministry is involved. The authors show clearly how careful planning is inspired by the Scriptures ("Suppose one of you wants to build a tower. Will he not first sit down and estimate the cost to see if he has enough money to complete it?"--Luke 14:28) and how it improves making decisions today which ultimately affect the ministry's effectiveness tomorrow. *Church and Ministry Strategic Planning* covers all areas of this type of planning and can be read and reviewed quickly. Through the use of a model of the strategic planning process, the authors show how to develop mission statements, define strategic objectives, develop strategy options and operating strategies, appraise performance, and monitor strategic planning. Readers are led step-by-step through these key areas of creating a strategic plan. Examples and worksheets at the end of each chapter enable pastors, administrators, and lay leaders to develop a strategic plan fitting to their specific ministry or church. The appendixes provide tools used in planning as well as a complete sample strategic plan for a large church. Put these concepts to immediate use in decisionmaking and pursue God's purpose and vision for the church or ministry. If readers take the time and effort to study this book, apply its format, and prayerfully keep God in every step of the plan, here is what the authors believe plan administrators can expect: 1. A sense of enthusiasm in the church or ministry 2. A 5-year plan in writing to which everyone is committed 3. A sense of commitment by the entire church to its overall direction 4. Time for the leaders to do what they have been called to do 5. Clear job duties and responsibilities 6. Clear and evident improvement in the health and vitality of every member of the church staff 7. Measurable improvement in the personal lives of all those in responsible positions with time for vacations, family, and personal pursuits 8. The ability to measure very specifically, the growth and contribution made by senior pastors or evangelists at the close of their careers 9. Guaranteed leadership of the church or ministry because a plan is in place--in writing--and is understood. Even

more importantly, a management team and philosophy will be in place to guide the church or ministry into its next era of growth. Explore this Biblical perspective on planning and develop a strategic plan that is systematic and continuous and allows the church or ministry to assess its market position, establish goals, objectives, priorities, and strategies to be completed within specified time periods, achieve greater staff and member commitment and teamwork aimed at meeting challenges and solving problems, and muster its resources to meet these changes through anticipation.

Smart Church Management: A Quality Approach to Church Administration Zondervan

The church is not a business—but it often has to conduct aspects of business. When a church needs a lawyer, it hires a lawyer. When it needs a plumber, it hires a plumber. But when it comes to making business decisions, it typically doesn't consult someone with business expertise. Instead, it convenes well-meaning but often inexperienced volunteers to form a committee that takes a month to make a decision about which color to paint the nursery. Conducting business this way is a vision killer that drains the passion out of creative, relational pastors and ministry leaders. Bottom line: The modern church is being poorly managed but does not know it. The level of inefficiency and waste in today's churches is staggering. Minding His Business was written

specifically for churches to convey basic business wisdom, management principles, and the best business practices. Unlike intimidating business textbooks, it includes forty short vignettes designed to be read like a daily devotional. Each chapter deals with everyday challenges and offers real-life examples—derived from the author's more than thirty years of experience—that show how to (and sometimes how not to) handle each situation of conducting business for the church. Are you minding His business?
