Sasquatch Books

John Janovy "has produced his best book. . . . He gives us a superb example of nature writing and of life in the Great Plains, perhaps surpassing such admired works in the genre as Aldo Leopold's *A Sand County Almanac* and William Warner's *Beautiful Swimmers*. Janovy takes us on a journey of intellectual serendipity, deriving extraordinary thoughts from ordinary circumstances".- Washington Post. "This 'human need for

wilderness' is the trail winding through Back in Keith County . . . [to] the streams of John Janovy's 'inner cowboy country.' The fourteen essays are a very human mix of biology, sentiment, wandering observation and personal philosophy".- Smithsonian. Janovy's earlier Keith County Journal "met with astonishing success, and some reviewers compared the author to Henry David Thoreau. Back in Keith County returns to the part of Nebraska that Mr. Janovy knows and loves. . . . The book shows the area's wildlife-tiger beetles, toads, swallows, owls and a variety of fish-to be as special as its people. . . . The author also reflects on the intangible aspects of life. . . . The

rich ramblings of these 179 pages are fascinating".-Kansas City Star. John Janovy Jr. is Varner Professor at the School of Biological Sciences, University of Nebraska-Lincoln, and director of the Cedar Point Biological Station. He is the author of Keith County Journal and On Becoming a Biologist, also available as a Bison Book.

Easy Educational Coloring Pages That Kids Will Love. Fun with Animals, Toys, Numbers, Shapes and Colors. Bold Lines in A Big Coloring Book. The artwork's heavy, chunky black lines are easy eye catching and child friendly. Engage your little ones for hours! Each page has large, simple pictures that are easy for a

toddler to identify and color animals, fruits, toys, shapes, numbers and more. Designed for toddlers, this coloring book is perfect for starting different activities at the time learning to color. This fun coloring book provides 57 drawings to color. Let your toddler have fun while learning to recognize favorite animals, toys and fruits! Ideal to start your child learning numbers, colors and shapes. Thick, bold lines make coloring easier. Drawings are printed on only one side of each page.

Deputy Mater Saves the Day!  
(Disney/Pixar Cars) Disney Books for Young Readers

Fisher-Price's incredibly cute Little People take toddlers on funfilled journey's through familiar environments such as the Zoo, the park, the country,

and aboard a circus train while building important, basic learning skills such as number order, letters of the alphabet, counting, reading and writing, opposites, colors and shapes. Readers can place colorful stickers on the wonderfully drawn black and white pages to increase the learning fun.

*Country Life* Innovative Kids

Parents, get set for precious forever memories with your child. Not only will your child love to color this adorable toddler coloring book on their own but we have specially designed the pages to give you both plenty of fun teaching and learning opportunities where you can interact together. They will love these unforgettable moments with you!

*Colors and Shapes* U of Nebraska Press  
Learn how to use R to turn raw data into

insight, knowledge, and understanding. This book introduces you to R, RStudio, and the tidyverse, a collection of R packages designed to work together to make data science fast, fluent, and fun. Suitable for readers with no previous programming experience, *R for Data Science* is designed to get you doing data science as quickly as possible. Authors Hadley Wickham and Garrett Grolemund guide you through the steps of importing, wrangling, exploring, and modeling your data and communicating the results. You'll get a complete, big-picture understanding of the data science cycle, along with basic tools you need to manage the details. Each section of the book is paired with exercises to help you practice what you've learned along the way. You'll

learn how to: Wrangle—transform your datasets into a form convenient for analysis Program—learn powerful R tools for solving data problems with greater clarity and ease Explore—examine your data, generate hypotheses, and quickly test them Model—provide a low-dimensional summary that captures true "signals" in your dataset

Communicate—learn R Markdown for integrating prose, code, and results

Have fun and learn about letters, shapes, numbers and colors in this Montessori inspired early learning book. From Inner cover: "This book is set up to be used in the order of the chapters, but feel free to have fun with it however you prefer. First your little one learns how to

visually match each letter of the alphabet to the sound you pronounce. Numbers come next accompanied by words spelled out as well as a quantitative cue. This way, the learner can associate numbers with letters and how many buttons correspond to the appropriate number. The third part is geometric shapes, a more complex concept. In this section there are realistic pictures of shapes along with the words spelled out to match. In the fourth chapter the child will get exposed to the concept of colors. Here, all the images that were seen in the previous chapters are organized by the color that they match to. This is where the fun comes in, your sweetie can practice a Find and Seek game where one image is identified as a specific color, then he or

she can go back through the previous chapters to find it. We hope you will enjoy this fun learning experience, especially the Find and Seek game [Response to Intervention and Precision](#)

#### Teaching Golden/Disney

Fun characters and bright illustrations in this board book get children excited about learning colors, shapes, and counting. Advanced material integrates these concepts for higher-level learning, as preschoolers become ready. Its easy to adapt questions based on individual ability levels. Children may explore the illustrations throughout the book even before they are ready to count or name colors and shapes. Can be used with Rock N Learn Colors, Shapes & Counting video or independently. Preschool level. 30 pages.

Whether you want to kick-start your toddlers color and shape recognition or just tell a good story with a heart-warming lesson, Families Come In Many

Different Shapes, Sizes, & Colors fits the bill. The vibrant and playful illustrations offer new discoveries in every read. With a message that love makes a family and that true friendships can be built through acceptance and understanding - any child would be lucky to experience this book. Ryan LaLonde has been drawing and telling stories from the age of three. In a family journal kept from an early age, Ryan stated yearly that he wanted to be a teacher or an artist. This, his first book, is a harmonious fusion of his childhood dreams - not only is it an expression of art and creativity but also a story that teaches many lessons. Whether learning an array of colors or the gambit of shapes, the book brings them to life with a story of families, friends and love.
