Cassette & Video Learning Systems
 At last, here is a method book for the upright string bass or "dog house bass" as it is affectionately known in bluegrass circles. Although bluegrass bass has a style of its own, the knowledge gained through this method is applicable to virtually any musical genre. This book addresses the elements of tuning, hand positions, essential chord theory, slap bass technique, and playing in positions 1-10. A handy chart is provided for transposing chord progressions from one key to another. Written in standard notation only.

 The idea here is to help coordinate the pickers so you all have solos to play and they can be played in the same key. What a concept - a Band in the Book. Within these pages you will find solos for the entire band: lead guitar, rhythm guitar, banjo, mandolin, fiddle and bass. the mandolin and fiddle share the same tunings so their solos are just written once for both. If you are just starting out and

you are having difficulty-finding solos for your level - look no more. These solos are written for the beginner level student assuming you can already play a few simple solos or lead breaks. This series will help you to learn solos on multiple instruments, help organize ensemble play, help develop a steady sense of timing and give you hours of enjoyment as well.
