A Companion to the Punic Wars offers a comprehensive new survey of the three wars fought between Rome and Carthage between 264 and 146 BC. Offers a broad survey of the Punic Wars from a variety of perspectives Features contributions from an outstanding cast of international scholars with unrivalled expertise Includes chapters on military and naval techniques, strategies, logistics, and Hannibal as a

charismatic general and leader Gives balanced coverage of both Carthage and Rome

*A Companion to Greek Rhetoric* University of Texas Press

"As a commander of men of many races, Alexander was and is incomparable. As a statesman he envisaged, and to some extent created, an ecumenical kingdom which rose above race and nation and which enjoyed peace and prosperity, extending from his birthplace in Macedonia to the borders of Kashmir. His intellect and charismatic personality so fascinated those he conquered that they

served in his army and administration and adopted him as the hero of their quasi-mythical romances. We have much to learn today from this genius of a man who died having achieved so much at the age of thirty-two."--BOOK JACKET.

*By the Spear* John Wiley & Sons

The Hellenistic courts and monarchies have in recent years become one of the most intensively studied areas of ancient history. Among the most influential pioneers in this process has been the American historian Elizabeth Carney. The present book collects for the first time in a single volume her most influential articles.

Previously published in a range of learned journals, the articles are here re-edited, each with a substantive Afterword by the author bringing the discussion up to date and adding new bibliography. Main themes of this volume include Macedonian monarchy in practice and as an image; the role of conspiracies and violence at court; royal women; aspects of court life and institutions.

*A Companion to the Punic Wars* Walter de Gruyter GmbH & Co KG

The two-volume *A Companion to Sparta* presents the first comprehensive, multi-authored series of essays to address all aspects of Spartan history and society from its origins in the Greek Dark Ages to the late Roman Empire. Offers a lucid, comprehensive introduction to all aspects of Sparta, a community recognised by contemporary cities as the greatest power in classical Greece Features in-depth coverage of Sparta history and culture contributed by an international cast including almost every noted specialist and scholar in the field Provides over a dozen images of Spartan art that reveal the evolution of everyday life in Sparta Sheds new light on a modern controversy

relating to changes in Spartan society from the Archaic to Classical periods  
*Companion to Ancient Macedonia* ISD LLC  
Recent scholars have analysed ways in which authors of the Roman era appropriated the figure of Alexander the Great. The essays in this collection cast a wider net, to show how Classical Greek, Hellenistic and Roman authors reinterpret and sometimes misinterpret information on ancient Macedonians to serve their own literary and political aims. Although Roman ideas pervade the historiographical tradition, this volume shows that the manipulation of ancient Macedonian history largely occurred much earlier. It reflected the complicated dynastic politics of the Argead royal house, the efforts of Alexander himself to redefine Macedonian kingship, and the competing strategies of the Successors to claim his legacy. Facing the complexity of the source tradition about the ancient Macedonians yields a richer and more balanced reflection of both the history and the historiography of this important and controversial people.  
*Fire from Heaven* John Wiley & Sons  
This exciting new volume includes a selection of the most significant and

representative published articles and chapters about Alexander and covers all the main areas of debate and discussion in Alexander scholarship.

### **A Companion to Ancient Education**

Casemate Publishers

In this groundbreaking work, Elizabeth Donnelly Carney examines the role of royal women in the Macedonian Argead dynasty from the sixth century B.C. to 168 B.C. Women were excluded from the exercise of power in most of the Hellenic world. However, Carney shows that the wives, mothers, and daughters of kings sometimes played important roles in Macedonian public life and occasionally determined the course of national events. Carney assembles an exhaustive array of evidence on the political role of Argead royal women. In addition, she presents a series of biographical sketches describing the public careers of all the royal women -- including Olympias, mother of Alexander the Great, and the warrior Cynnane, his half-sister -- whose names are preserved in ancient sources. *Women and Monarchy in Macedonia* fills a growing need for an updated survey of the subject, corrects previously held assumptions, and offers a

fresh interpretation of the status, function, influence, and authority of women in the ancient world.

A History Univ of California Press

"This chapter provides an overview of the Muses in Greek mythology and argues that their multiplicity, their indefinite number, their lack of fixed personalities and their metapoetic status make them highly unusual members of the Olympian pantheon. As the embodiment of music and the means by which music is channelled to human beings they are essential to our understanding of the meaning of *mousikē* in Greek culture. Above all their origins in an oral society foregrounds the performative nature of music which has characterised it as an art form throughout the ages"--

### **Ancient Greece from Homer to**

**Alexander** John Wiley & Sons

Drawing on the latest archaeology, epigraphy and historical interpretation, this major volume presents a survey of ancient Macedon, important parts of which are published by their excavators for the first time, including the palace of King Philip II. Archaeologists and historians of the ancient Greek worlds will welcome this

milestone in the study of this rapidly changing field, packed with new information, interpretations and essential bibliography.

*A Companion to Sport and Spectacle in Greek and Roman Antiquity* A Companion to Ancient Macedonia

The first book-length overview of agricultural development in the ancient world A Companion to Ancient Agriculture is an authoritative overview of the history and development of agriculture in the ancient world. Focusing primarily on the Near East and Mediterranean regions, this unique text explores the cultivation of the soil and rearing of animals through centuries of human civilization—from the Neolithic beginnings of agriculture to Late Antiquity. Chapters written by the leading scholars in their fields present a multidisciplinary examination of the agricultural methods and influences that have enabled humans to survive and prosper. Consisting of thirty-one chapters, the Companion presents essays on a range of topics that include economic-political, anthropological, zooarchaeological, ethnobotanical, and archaeobotanical investigation of ancient

agriculture. Chronologically-organized chapters offer in-depth discussions of agriculture in Bronze Age Egypt and Mesopotamia, Hellenistic Greece and Imperial Rome, Iran and Central Asia, and other regions. Sections on comparative agricultural history discuss agriculture in the Indian subcontinent and prehistoric China while an insightful concluding section helps readers understand ancient agriculture from a modern perspective. Fills the need for a full-length biophysical and social overview of ancient agriculture Provides clear accounts of the current state of research written by experts in their respective areas Places ancient Mediterranean agriculture in conversation with contemporary practice in Eastern and Southern Asia Includes coverage of analysis of stable isotopes in ancient agricultural cultivation Offers plentiful illustrations, references, case studies, and further reading suggestions A Companion to Ancient Agriculture is a much-needed resource for advanced students, instructors, scholars, and researchers in fields such as agricultural history, ancient economics, and in broader disciplines including classics, archaeology, and

ancient history.

Philip II, Alexander the Great, and the Rise and Fall of the Macedonian Empire John Wiley & Sons

A Companion to Ancient Thrace presents a series of essays that reveal the newly recognized complexity of the social and cultural phenomena of the peoples inhabiting the Balkan periphery of the Classical world. • Features a rich and detailed overview of Thracian history from the Early Iron Age to Late Antiquity • Includes contributions from leading scholars in the archaeology, art history, and general history of Thrace • Balances consideration of material evidence relating to Ancient Thrace with more traditional literary sources • Integrates a study of Thrace within a broad context that includes the cultures of the eastern Mediterranean, southwest Asia, and southeast Europe/Eurasia • Reflects the impact of new theoretical approaches to economy, ethnicity, and cross-cultural interaction and hybridity in Ancient Thrace

**A Companion to Ancient Epic** John Wiley & Sons

From antiquity until now, most writers who have chronicled the events following the

death of Alexander the Great have viewed this history through the careers, ambitions, and perspectives of Alexander's elite successors. Few historians have probed the experiences and attitudes of the ordinary soldiers who followed Alexander on his campaigns and who were divided among his successors as they fought for control of his empire after his death. Yet the veterans played an important role in helping to shape the character and contours of the Hellenistic world. This pathfinding book offers the first in-depth investigation of the Macedonian veterans' experience during a crucial turning point in Greek history (323–316 BCE). Joseph Roisman discusses the military, social, and political circumstances that shaped the history of Alexander's veterans, giving special attention to issues such as the soldiers' conduct on and off the battlefield, the army assemblies, the volatile relationship between the troops and their generals, and other related themes, all from the perspective of the rank-and-file. Roisman also reexamines the biases of the ancient sources and how they affected ancient and modern depictions of Alexander's veterans, as well

as Alexander's conflicts with his army, the veterans' motives and goals, and their political contributions to Hellenistic history. He pays special attention to the Silver Shields, a group of Macedonian veterans famous for their invincibility and martial prowess, and assesses whether or not they deserved their formidable reputation.

**A Companion to Ancient Macedonia** John Wiley & Sons

Drawing on the latest archaeology, epigraphy and historical interpretation, this major volume presents a survey of ancient Macedon, important parts of which are published by their excavators for the first time, including the palace of King Philip II. Archaeologists and historians of the ancient Greek worlds will welcome this milestone in the study of this rapidly changing field, packed with new information, interpretations and essential bibliography.

*Alexander the Great* John Wiley & Sons

A Companion to Ancient Epic presents for the first time a comprehensive, up-to-date overview of ancient Near Eastern, Greek and Roman epic. It offers a multi-disciplinary discussion of both

longstanding ideas and newer perspectives. A Companion to the Near Eastern, Greek, and Roman epic traditions Considers the interrelation between these different traditions Provides a balanced overview of longstanding ideas and newer perspectives in the study of epic Shows how scholarship over the last forty years has transformed the ways that we conceive of and understand the genre Covers recently introduced topics, such as the role of women, the history of reception, and comparison with living analogues from oral tradition The editor and contributors are leading scholars in the field Includes a detailed index of poems, poets, technical terms, and important figures and events

*Studies in the Archaeology and History of Macedon, 650 BC - 300 AD* University of Texas Press

Alexander the Great is probably the most famous ruler of antiquity, and his spectacular conquests are recounted often in books and films. But what of his father, Philip II, who united Macedonia, created the best army in the world at the time, and conquered and annexed Greece? This landmark biography is the first to bring

Philip to life, exploring the details of his life and legacy and demonstrating that his achievements were so remarkable that it can be argued they outshone those of his more famous son. Without Philip, Greek history would have been entirely different. Taking into account recent archaeological discoveries and reinterpreting ancient literary records, Ian Worthington brings to light Philip's political, economic, military, social, and cultural accomplishments. He reveals the full repertoire of the king's tactics, including several polygamous diplomatic marriages, deceit, bribery, military force, and a knack for playing off enemies against one another. The author also inquires into the king's influences, motives, and aims, and in particular his turbulent, unraveling relationship with Alexander, which may have ended in murder. Philip became in many ways the first modern regent of the ancient world, and this book places him where he properly belongs: firmly at the center stage of Greek history.

[A Companion to Sparta](#) BRILL

This book is a comprehensive and dispassionate analysis of the intriguing Macedonian Question from 1878 until

1949 and of the Macedonians (and of their neighbours) from the 1890s until today, with the two themes intertwining. The Macedonian Question was an offshoot of the wider Eastern Question – i.e., the fate of the European remnants of the Ottoman Empire once it dissolved. The initial protagonists of the Macedonian Question were Greece, Bulgaria and Serbia, and a Slav-speaking population inhabiting geographical Macedonia in search of its destiny, the largest segment of which ended up creating a new nation, comprising the Macedonians, something unacceptable to its three neighbours. Alexis Heraclides analyses the shifting sands of the Macedonian Question and of the gradual rise of Macedonian nationhood, with special emphasis on the Greek, Bulgarian and Serbian claims to Macedonia (1870s–1919); the birth and vicissitudes of the most famous Macedonian revolutionary organization, the VM(O)RO, and of other organizations (1893–1940); the appearance and gradual establishment of the Macedonian nation from the 1890s until 1945; Titos's crucial role in Macedonian nationhood-cum-federal status; the Greek-Macedonian

name dispute (1991–2018), including the ‘skeletons in the cupboard’ – the deep-seated reasons rendering the clash intractable for decades; the final Greek-Macedonian settlement (the 2018 Prespa Agreement); the Bulgarian-Macedonian dispute (1950–today) and its ephemeral settlement in 2017; the issue of the Macedonian language; and the Macedonian national historical narrative. The author also addresses questions around who the ancient Macedonians were and the fascination with Alexander the Great. This monograph will be an essential resource for scholars working on Macedonian history, Balkan politics and conflict resolution.

A Companion to Greek Tragedy John Wiley & Sons

The first book-length overview of agricultural development in the ancient world *A Companion to Ancient Agriculture* is an authoritative overview of the history and development of agriculture in the ancient world. Focusing primarily on the Near East and Mediterranean regions, this unique text explores the cultivation of the soil and rearing of animals through centuries of human civilization—from the

Alexander’s Veterans and the Early Wars of the Successors John Wiley & Sons

From antiquity until now, most writers who have chronicled the events following the death of Alexander the Great have viewed this history through the careers, ambitions, and perspectives of Alexander’s elite successors. Few historians have probed the experiences and attitudes of the ordinary soldiers who followed Alexander on his campaigns and who were divided among his successors as they fought for control of his empire after his death. Yet the veterans played an important role in helping to shape the character and contours of the Hellenistic

world. This pathfinding book offers the first in-depth investigation of the Macedonian veterans' experience during a crucial turning point in Greek history (323–316 BCE). Joseph Roisman discusses the military, social, and political circumstances that shaped the history of Alexander's veterans, giving special attention to issues such as the soldiers' conduct on and off the battlefield, the army assemblies, the volatile relationship between the troops and their generals, and other related themes, all from the perspective of the rank-and-file. Roisman also reexamines the biases of the ancient sources and how they affected ancient and modern depictions of Alexander's veterans, as well as Alexander's conflicts with his army, the veterans' motives and goals, and their political contributions to Hellenistic history. He pays special attention to the Silver Shields, a group of Macedonian veterans famous for their invincibility and

martial prowess, and assesses whether or not they deserved their formidable reputation.

Women and Monarchy in Macedonia  
University of Oklahoma Press

The first English-language monograph on ancient Macedonia in almost thirty years, Carol J. King's book provides a detailed narrative account of the rise and fall of Macedonian power in the Balkan Peninsula and the Aegean region during the five-hundred-year period of the Macedonian monarchy from the seventh to the second century BCE. King draws largely on ancient literary sources for her account, citing both contemporary and later classical authors. Material evidence from the fields of archaeology, epigraphy, and numismatics is also explored. Ancient Macedonia balances historical evidence with interpretations—those of the author as well as other historians—and encourages the reader to engage closely with the source material and the historical

questions that material often raises. This volume will be of great interest to both under- and post-graduate students, and those looking to understand the fundamentals of the period.

**A Companion to Greek Warfare**  
Routledge

The most comprehensive and up-to-date work available on ancient Macedonian history and material culture, *A Companion to Ancient Macedonia* is an invaluable reference for students and scholars alike. Features new, specially commissioned essays by leading and up-and-coming scholars in the field Examines the political, military, social, economic, and cultural history of ancient Macedonia from the Archaic period to the end of Roman period and beyond Discusses the importance of art, archaeology and architecture All ancient sources are translated in English Each chapter includes bibliographical essays for further reading
