A beautiful story about one very ugly kid. Robert Hoge was born with a tumour in the middle of his face, and legs that weren't much use. There wasn't another baby like him in the whole of Australia, let alone Brisbane. But the rest of his life wasn't so unusual: he had a mum and a dad, brothers and sisters, friends at school and in his street. He had childhood scrapes and days at the beach; fights with his family and trouble with his teachers. He had doctors, too: lots of doctors who, when he was still very young, removed that tumour from his face and operated on his legs, then stitched him back together. He still looked different, though. He still looked ... ugly. UGLY is the true story of how an extraordinary boy grew up to have an ordinary life, and how that became his greatest achievement of all.

What does jazz mean 20 years into the 21st century? Has streaming culture rendered music literally meaningless, thanks to the removal of all context beyond the playlist? Are there any traditions left to explore? Has the destruction of the apprenticeship model (young musicians learning from their elders) changed the music irrevocably? Are any sounds off limits? How far out can you go and still call it jazz? Or should the term be retired? These questions, and many more, are answered in *Ugly Beauty*, as Phil Freeman digs through his own experiences and conversations with present-day players. Jazz has never seemed as vital as it does right now, and has a genuine role to play in 21st-century culture, particularly in the US and the UK.

Discover your own deep well of wisdom in *Intuition: Knowing Beyond Logic*—from one of the greatest spiritual teachers of the twentieth century. Intuition deals with the difference between the intellectual, logical mind and the more encompassing realm of spirit. Logic is how the mind knows reality, intuition is how the spirit experiences reality. Osho's discussion of these matters is wonderfully lucid, occasionally funny, and thoroughly engrossing. All people have a natural capacity for intuition, but often social conditioning and formal education work against it. People are taught to ignore their instincts rather

than to understand and use them as a foundation for individual growth and development—and in the process they undermine the very roots of the innate wisdom that is meant to flower into intuition. In this volume, Osho pinpoints exactly what intuition is and gives guidelines for how to identify its functioning in others and ourselves. You will learn to distinguish between genuine intuitive insight and the “wishful thinking” that can often lead to mistaken choices and unwanted consequences. Includes many specific exercises and meditations designed to nourish and support each individual’s natural intuitive gifts. Osho challenges readers to examine and break free of the conditioned belief systems and prejudices that limit their capacity to enjoy life in all its richness. He has been described by the Sunday Times of London as one of the “1000 Makers of the 20th Century” and by Sunday Mid-Day (India) as one of the ten people—along with Gandhi, Nehru, and Buddha—who have changed the destiny of India. Since his death in 1990, the influence of his teachings continues to expand, reaching seekers of all ages in virtually every country of the world.

 "Struggling to raise her little brother Donal, eight-year-old Wavy is the only responsible adult around. Obsessed with the constellations, she finds peace in the starry night sky above the fields behind her house, until one night her stargazing causes an accident. After witnessing his motorcycle wreck, she forms an unusual friendship with one of her father's thugs, Kellen, a tattooed ex-con with a heart of gold. By the time Wavy is a teenager, her relationship with Kellen is the only tender thing in a brutal world of addicts and debauchery"--

Therese Borchard may be one of the frankest, funniest people on the planet. That, combined with her keen writing abilities has made her Beliefnet blog, Beyond Blue, one of the most trafficked blogs on the site. BEYOND BLUE, the book, is part memoir/part self-help. It describes Borchard's experience of living with manic depression as well as providing cutting-edge research and information on dealing with mood disorders. By exposing her vulnerability, she endears herself immediately to the reader and then reduces even the most depressed to laughter as she provides a companion on the journey to recovery and the knowledge that the reader is not alone. Comprised of four sections and twenty-one chapters, BEYOND BLUE covers a wide range of topics from codependency to addiction, poor body image to postpartum depression, from alternative medicine to psychopharmacology, managing anxiety to applying lessons from therapy. Because of her laser wit and Erma Bombeck sense of humor, every chapter is entertaining as well as serious.

 If you knew her story, would it change the way you see her? If you knew her pain, would you care? Randi Lewis is not the kind of girl that most folks want around. She curses. She yells. She skips school. She gets in fights. Her clothes are dirty. She smells. She has a bad reputation. But behind all of this ugliness is a damaged girl with a secret life. A life filled with pain, loneliness, and anger. It's the first day of her seventh-grade year, and she's ready for a change. She has plans, and none of them involve ruining her own life before she makes it out of middle school. She just has to

ignore all of the mean looks, pointed whispers, trash talk, and harsh words--from kids and adults alike. Easy, right? But if she has any hope of making it, she must find a way to keep her Ugly Me locked inside. Because if she lets her take over again, she may not be able to recover...

Constance's mother systematically abused her daughter, both physically and emotionally, throughout her childhood. Regularly beaten and starved, the girl was so desperate she took herself off to Social Services and tried to get taken into care. When that failed, she swallowed bleach 'because it kills all known germs and my mother always told me I was a germ'. When Constance was thirteen, her mother simply moved out, leaving her daughter to fend for herself: there was no gas, no electricity and no food. But somehow Constance found the courage to survive her terrible start in life. This is her heartrending - and ultimately triumphant - story, now with fourteen extra chapters detailing the trial.

"Tromp weaves a complex historical tale incorporating love, suspense, hurt, and healing--all the elements that keep the pages turning." —Julie Cantrell, New York Times and USA TODAY bestselling author of Perennials Charlotte Anne Mattas longs to turn back the clock. Before her husband, Sam, went to serve his country in the war, he was the man everyone could rely on--responsible, intelligent, and loving. But the person who's come back to their family farm is very different from the protector Annie remembers.

Sam's experience in the Pacific theater has left him broken in ways no one can understand--but that everyone is learning to fear. Tongues start wagging after Sam nearly kills his own brother. Now when he claims to have seen men on the mountain when no one else has seen them, Annie isn't the only one questioning his sanity and her safety. If there were criminals haunting the hills, there should be evidence beyond his claims. Is he really seeing what he says, or is his war-tortured mind conjuring ghosts? Annie desperately wants to believe her husband. But between his irrational choices and his nightmares leaking into the daytime, she's terrified he's going mad. Can she trust God to heal Sam's mental wounds--or will sticking by him mean keeping her marriage at the cost of her own life? Debut novelist Janyre Tromp delivers a deliciously eerie, Hitchcockian story filled with love and suspense. Readers of psychological thrillers and historical fiction by Jaime Jo Wright and Sarah Sundin will add Tromp to their favorite authors list.

What does it take to be one of the world's best high-altitude mountain climbers? A lot of fundraising; traveling in some of the world's most dangerous countries; enduring cold bivouacs, searing lungs, and a cloudy mind when you can least afford one. It means learning the hard lessons the mountains teach. Steve House built his reputation

on ascents throughout the Alps, Canada, Alaska, the Karakoram and the Himalaya that have expanded possibilities of style, speed, and difficulty. In 2005 Steve and alpinist Vince Anderson pioneered a direct new route on the Rupal Face of 26,600-foot Nanga Parbat, which had never before been climbed in alpine style. It was the third ascent of the face and the achievement earned Steve and Vince the first Piolet d'or (Golden Ice Axe) awarded to North Americans. Steve is an accomplished and spellbinding storyteller in the tradition of Maurice Herzog and Lionel Terray. *Beyond the Mountain* is a gripping read destined to be a mountain classic. In *Ugly Freedoms* Elisabeth R. Anker reckons with the complex legacy of freedom offered by liberal American democracy, outlining how the emphasis of individual liberty has always been entangled with white supremacy, settler colonialism, climate destruction,

economic exploitation, and patriarchy. These “ugly freedoms” legitimate the right to exploit and subjugate others. At the same time, Anker locates an unexpected second type of ugly freedom in practices and situations often dismissed as demeaning, offensive, gross, and ineffectual but that provide sources of emancipatory potential. She analyzes both types of ugly freedom at work in a number of texts and locations, from political theory, art, and film to food, toxic dumps, and multispecies interactions. Whether examining how Kara Walker’s sugar sculpture *A Subtlety, Or the Marvelous Sugar Baby* reveals the importance of sugar plantations to liberal thought or how the impoverished neighborhoods in *The Wire* blunt neoliberalism’s violence, Anker shifts our perspective of freedom by contesting its idealized expressions and expanding the visions for what freedom can look like, who can exercise it, and how to build a world free from domination.

There is a famous quote which says, “The truth will set you free!” The word truth connects with other words such as ‘fact’ or ‘reality.’ However, what do you do when your facts and past reality are ugly? Do you welcome the truth for freedom sake or do you embrace spirit binding words like secret, hidden, or lies? Our ‘Ugly Truth’ is what shapes us and can work to our detriment or for our good. In this memoir, Jillian Coburn shares her riveting story through the journey of abuse, addiction, and her quest to freedom, self-love, and wholeness. A balance between a powerful story and tools to break the

chains that bind many, *My Ugly Truth: Life Beyond Abuse* aims to spark the conversations and support that will heal families from addiction and abuse.

Soon to be a TV show on Hulu Eve Babitz is a writer like no other—she “is to prose what Chet Baker is to jazz” (*Vanity Fair*)—and she has influenced a generation of writers and readers with her sophisticated, witty, and delightful work. *L.A. Woman* is quintessential Babitz, the story of Sophie, a twenty-something blonde Jim Morrison groupie gliding through a golden existence in L.A. and Lola, a German immigrant who settles in Hollywood in the twenties to drive Pierce Arrows recklessly down Sunset Boulevard and who knows that Maybelline mascara cakes and Rudolph Valentino are the essence of life. Sophie and Lola, like the many other women who move in and out of this electric saga know that while L.A. is constantly changing it is essentially eternal; through their eyes we see the mixture of high culture and low, the promises of youth and the fulfillment of nostalgia, the pink sunsets and the palm trees that are L.A. And through this fantastic tale, Babitz shares what it is to be a woman in what she convinces us is the capital of civilization.

*Ugly Crying in a Bed Bath and Beyond* is the freshman collection of poems for Nicole Siciliano. This chapbook, completed in 21 days, aims to explore the kaleidoscope of sadness, loss, reckoning with the bright spots of love, friendship and family. While this collection may serve as a self-portrait of some sort, it is also just a snapshot, a testament to the briefness by which we exist as one version of ourselves.
