Popular motorcycle journalist and author Mark Zimmerman brings a comfortable, conversational tone to his easy-to-

understand explanations of how motorcycles work and how to maintain them and fix them when they don't. This practical tutorial covers all brands and styles of bikes, making it a perfect companion to the owner's service manual whether you need to use the step-by-step instructions for basic maintenance techniques to wrench on your bike yourself or just want to learn enough to become an informed customer at your local motorcycle service department. This book includes more than 500 color photos and a thorough index to make it an

especially user-friendly reference for home motorcycle mechanics of all skill levels. *Lloyd's Register of Shipping* Motorbooks The Lloyd's Register of Shipping records the details of merchant vessels over 100 gross tonnes, which are self-propelled and sea-going, regardless of classification. Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it

seems as though every input you make is an expression of mastery. This is "the Zone." Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
