A FIRST COURSE IN TURBULENCE

This is the first book specifically designed to offer the student a smooth transitional course between elementary fluid dynamics (which gives only last-minute attention to turbulence) and the professional literature on turbulent flow, where an advanced viewpoint is assumed.

Moreover, the text has been developed for students, engineers, and scientists with different technical backgrounds and interests.

A First Course in Turbulence (PDF) - Douban

Does anybody have the solution manual of the "A first course in turbulence" by Tennekes and Lumley at least I need

the solutions of problem 5.4 and 5.7. rezaslt likes this. Last edited by bababanamzdaalma; March 4, 2012 at 18:51
