The Old Man and The Cat is a story of how Nils Uddenberg, retired Professor of Psychology became a beloved cat-owner even though he had never wanted a pet of any kind. One winter morning the author discovered a cat—whom he would later find was homeless—sitting outside his bedroom window, staring at

him with big yellow eyes. Slowly but surely the cat worked itself into his life. This award-winning writer who has a background in psychology could not stop himself from going deeper into the cat's inner life. Does she have a sense of humor? Is it possible to attach human feelings to her? And the trickiest question of all: Is our little cat actually interested in our attachment to her? With humor and self-awareness, Nils describes how his existence changed after the cat moved into his house. The feelings she stirs up are a surprise to him and he quickly finds himself falling in love with this speckled grey-brown little lady.

Following the events of *The Last Colony*, John Scalzi tells the story of the fight to maintain the unity of the human race. The people of Earth now know that the human Colonial Union has kept them ignorant of the dangerous universe around them. For generations the CU had defended humanity against hostile aliens, deliberately keeping Earth an ignorant backwater and a source of military recruits. Now the CU's secrets are known to all. Other alien races have come on the scene and formed a new alliance—an alliance against the Colonial Union. And they've invited the people of Earth to join them. For a shaken and betrayed Earth, the choice isn't obvious or easy. Against such possibilities, managing the survival of the Colonial Union won't be easy, either. It will take diplomatic finesse, political cunning...and a brilliant "B Team," centered on the resourceful Lieutenant Harry Wilson, that can be deployed to deal with the unpredictable and unexpected things

the universe throws at you when you're struggling to preserve the unity of the human race. Being published online from January to April 2013 as a three-month digital serial, *The Human Division* will appear as a full-length novel of the *Old Man's War* universe, plus—for the first time in print—the first tale of Lieutenant Harry Wilson, and a coda that wasn't part of the digital serialization. *Old Man's War Series #1 Old Man's War #2 The Ghost Brigades #3 The Last Colony #4 Zoe's Tale #5 The Human Division #6 The End of All Things* Short fiction: "After the Coup" Other Tor Books *The Android's Dream Agent to the Stars Your Hate Mail Will Be Graded Fuzzy Nation Redshirts Lock In The Collapsing Empire* (forthcoming) At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Judas Coyne is a collector of the macabre: a cookbook for cannibals . . . a used hangman's noose . . . a snuff film. An aging death-metal rock god, his taste for the unnatural is as widely known to his legions of fans as the notorious excesses of his youth. But nothing he possesses is as unlikely or as dreadful as his latest purchase, an item he discovered on the Internet: I will sell my stepfather's ghost to the highest bidder . . . For a thousand dollars, Jude has become the owner of a dead man's suit, said to be haunted by a restless spirit. But what UPS delivers to his door in a black heart-shaped box is no metaphorical ghost, no benign conversation piece. Suddenly the suit's previous owner is everywhere: behind the bedroom door . . . seated in Jude's restored Mustang . . . staring out from his widescreen TV. Waiting—with a gleaming razor blade on a chain dangling from one hand . . .

*The Lottery* Macmillan

This blistering novel—from the bestselling, Pulitzer Prize-winning author of *The Road*—returns to the Texas-Mexico border, setting of the famed *Border Trilogy*. The time is our own, when rustlers have given way to drug-runners and small towns have become free-fire zones. One day, a good old boy named Llewellyn Moss finds a pickup truck surrounded by a bodyguard of dead men. A load of heroin and two million dollars in cash are still in the back. When Moss takes the money, he sets off a chain reaction of catastrophic violence that not even the law—in the person of aging, disillusioned Sheriff Bell—can contain. As Moss tries to evade his pursuers—in particular a mysterious mastermind who flips coins for human lives—McCarthy simultaneously strips down the American crime novel and broadens its concerns to encompass themes as ancient as the Bible and as bloodily contemporary as this morning's headlines. *No Country for Old Men* is a triumph.

The first story set in the fishing village of Kingsport, which is featured in the later works of the one of the greatest horror writers of all time. It is rumored that the mysterious old man who lives alone in the small New England town was once a sea captain. It is also rumored that he is hoarding a treasure. When three robbers decide to steal it, they will encounter a bloodthirsty evil unlike any they ever imagined . . . "The Terrible Old Man is

the story of three career criminals looking to rob the eponymous character, an eccentric retired mariner so ancient that no one alive remembers his youth. . . . This is also the first story set in the fictional New England geography that Lovecraft will detail over the course of future writing. . . . So, what we see in these stories is Lovecraft beginning to construct the alternate world which will be the home to his most famous works, at least as much a unifying element of the author's oeuvre as those details subsequent writers and critics have defined as the 'Cthulhu Mythos.' As such, *The Terrible Old Man* is not only an effective piece of eerie storytelling, it is also an important stepping stone in the development of a bigger Lovecraftian world." —The Blood-Shed "A piece of minimalist brushwork, with most of the narrative suggested by negative space . . . In sharp contrast to the central Mythos tales, the horror is allusive and oblique, the violence kept off-stage." —Tor.com
