A collection of essays on music and life by the famed classical pianist and composer Stephen Hough is one of the world's

leading pianists, winning global acclaim and numerous awards, both for his concerts and his recordings. He is also a writer, composer, and painter, and has been described by The Economist as one of "Twenty Living Polymaths." Hough writes informally and engagingly about music and the life of a musician, from the broader aspects of what it is to walk out onto a stage or to make a recording, to specialist tips from deep inside the practice room: how to trill, how to pedal, how to practice. He also writes vividly about people he's known, places he's traveled to, books he's read, paintings he's seen; and he touches on more controversial subjects, such as assisted suicide and abortion. Even religion is there—the possibility of the existence of God, problems with some biblical texts, and the challenges involved in being a gay Catholic. *Rough Ideas* is an illuminating, constantly surprising introduction to the life and mind of one of our great cultural figures.

For as long as people have been migrating to London, so has their music. An essential link to home, music also has the power to shape communities in surprising ways. Black music has been part of London's landscape since the First World War, when the Southern Syncopated Orchestra brought jazz to the capital. Following the wave of Commonwealth immigration, its sounds and styles took up residence to become the foundation of the city's youth culture. Sounds Like London tells the story of the music and the larger-than-life characters making it, journeying from Soho jazz clubs to Brixton blues parties to King's Cross warehouse raves to the streets of Notting Hill - and onto sound systems everywhere. As well as a journey through the musical history of London, Sounds Like London is about the shaping of a

city, and in turn the whole nation, through music. Contributors include Eddy Grant, Osibisa, Russell Henderson, Dizze Rascal and Trevor Nelson, with an introduction by Soul2Soul's Jazzie B. [Rough Ideas](#) Penguin

'World music' emerged as an invention of the West from encounters with other cultures. This book draws readers into a remarkable range of these historical encounters, in which music had the power to evoke the exotic and to give voice to the voiceless. In the course of the volume's eight chapters the reader witnesses music's involvement in the modern world, but also the individual moments and particular histories that are crucial to an understanding of music's diversity. World Music is wide-ranging in its geographical scope, yet individual chapters provide in-depth treatments of selected music cultures and regional music histories. The book frequently zooms in on repertoires and musicians - such as Bob Marley, Bartok, and Nusrat Fateh Ali Khan - and attempts to account for world music's growing presence and popularity at the beginning of the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly.
