Bioinformatics:

Where code meets

biology Bioinformatics Algorithms Active Learning Approach This book is best followed with the Bioinformatics Specialization courses at Coursera, and I have bought this book as offline companion for the same. I will give a more detailed review once I finish all the courses and complete this and Vol 1 (Bioinformatics Algorithms: An Active Learning Approach, 2nd Ed. Vol. 1). The production values that have gone into designing this book is top notch, and the content is explained just about right to hold the attention of both biologists and

computer
...Bioinformatics Algorithms: An Active Learning Approach
...Bioinformatics Algorithms This bestselling textbook presents students with a dynamic, "active learning" approach to learning computational biology. Bioinformatics Algorithms: A Free Online Textbook Bioinformatics Algorithms: An Active Learning Approach is a joint project with Pavel Pevzner from the University of California San Diego. First published in 2014, this textbook is now in its third edition and has become a bestseller in the field of computational biology.
