The Mouse Mansion

Courier Corporation

After being sent back from the light, Alona Dare - former homecoming queen, current Queen of the Dead - finds herself doing something she never expected: working. Instead of spending days perfecting her tan by the pool (her typical summer routine when she was, you know, alive), Alona must now cater to the needs of other lost spirits. By her side for all of this - ough - "helping of others" is Will Killian: social outcast, seer of the dead, and someone Alona cares about more than she'd like. Before Alona can make a final ruling on Will's "friend" or "more" status, though, she

discovers trouble at home. Her mom is tossing out Alona's most valuable possessions, and her dad is expecting a new daughter with his wicked wife. Is it possible her family is already moving on? Hello! She's only been dead for two months! Thankfully, Alona knows just the guy who can put a stop to this mess.

Unfortunately for Alona, Will has other stuff on his mind, and Mina, a young (and beautiful) seer, is at the top of the list. She's the first ghost-talker Will's ever met—aside from his father—and she may hold answers to Will's troubled past. But can she be trusted? Alona immediately puts a check mark in the "clearly not" column. But Will is - ahem - willing to find out, even if it means leaving a hurt and angry Alona to her own devices, which is never a good idea. Packed with romance, lovable characters, and a killer cliffhanger, Queen of the Dead is the out-of-this-world sequel to *The Ghost and the Goth*.

These are the five rules Ariane Tucker has followed since the night she escaped from the genetics lab where she was created. Ariane's survival - and that of her adoptive father- depends on her ability to blend in among the full-blooded humans, to hide in plain sight from those who seek to recover their lost (and expensive) 'project'.

Felicity meets Fangirl in this contemporary novel about a young woman who must leave behind her fantasy life—inspired by her favorite WB show from the 1990s—and create a real one at college. Caroline Sands has never been particularly good at making friends. And her parents' divorce and the move to Arizona three years ago didn't help. Being the new girl is hard enough without being socially awkward too. So out of desperation and a desire to please her worried mother, Caroline invented a whole life for herself—using characters from Felicity, an old show she discovered online and fell in love with. But now

it's time for Caroline to go off to college and she wants nothing more than to leave her old "life" behind and build something real. However, when her mother discovers the truth about her manufactured friends, she gives Caroline an ultimatum: Prove in this first semester that she can make friends of the nonfictional variety and thrive in a new environment. Otherwise, it's back to living at home—and a lot of therapy. Armed with nothing more than her resolve and a Felicity-inspired plan, Caroline accepts the challenge. But she soon realizes that the real world is rarely as simple as television makes it out to be. And to find a place where she truly belongs, Caroline may have to abandon her script and take the risk of being herself.
