A Handbook of Gods and Goddesses of the Ancient Near East Penn State Press

From the tragic young Adonis to Zašhapuna, first among goddesses, this handbook provides the most complete information available on deities from the cultures and religions of the ancient Near East, including Anatolia, Syria, Israel, Sumer, Babylonia, Assyria, and Elam. The result of nearly fifteen years of research, this handbook is more expansive and covers a wider range of sources and civilizations than any previous reference works on the topic. Arranged alphabetically, the entries range from multiple pages of information to a single line—sometimes all that we know about a given deity. Where possible, each record discusses the deity's symbolism and imagery, connecting it to the myths, rituals, and festivals described in ancient sources. Many of the entries are accompanied by illustrations that aid in understanding the iconography, and they all include references to texts in which the god or goddess is mentioned. Appropriate for both trained scholars and nonacademic readers, this book collects centuries of Near Eastern mythology into one volume. It will be an especially valuable resource for anyone interested in Assyriology, ancient religion, and the ancient Near East.

The story of the Exodus from Egypt is of fundamental importance, both in the Old Testament and beyond. However, it also contains issues that are theologically problematic for many readers, especially concerning the actions of God. Why does God send a series of devastating plagues on Egypt? How do we understand the hardening of Pharaoh's heart? What do the answers to these

questions say about the character of God? This study addresses these questions, taking into account the complex interaction of the presuppositions of faith and responsible textual interpretation. The approach is narrative-theological and canonical--reading the story in its current form as a story, and concentrating on the various passages within the story that appear to present rationales for God's actions (especially Exodus 9:13-19 and 10:1-2). By reading these explanations in their context within the story, and paying attention to such factors as speaker, addressee, purpose, and reception, a picture is built up of the different and developing relationships between God, Pharaoh, and Moses. This complex interaction provides a way to read and understand the wider plagues story, including the plagues and hardening of the heart within it. The study concludes by considering another story with a similarly difficult portrayal of God's actions--the story of the capture of the Ark in 1 Samuel 4-7, where a similar pattern can be observed. The picture that emerges is challenging rather than comfortable--a God who is responsive, speaking and acting to confront others to make the appropriate response to him.

Nazca, once only an isolated settlement in the midst of the Peruvian desert, is today the meeting place for archaeologists from around the world. From here you can fly over the celebrated Nazca pampa and appreciate the massive scale of the extraordinary markings on the surrounding landscape. Some of these lines are over twenty kilometers long! Drawing on over thirty years of study, Erich von Daniken examines the various theories that attempt to explain the Nazca phenomena in terms of religious ritual, ancient roads, and astrological symbols. With the help of numerous photographs taken by the author--half-hanging from a small airplane--he describes the many mysteries of Nazca and puts forward a startling revolutionary solution to one of archaeology's greatest enigmas.

Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought."—Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and

Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. “Readers will hugely enjoy their quest in these pages of inspired storytelling.”—The Times (UK)

This eBook includes the full text of the book plus an additional chapter on Europe from Dr. Jeremiah's book *What in the World Is Going On?* that is not found in the print book! The world seems more fractured each day. People are asking, "Is this the End?" Never have the headlines been this jarring, the cultural changes this rapid, or the moral decay this pronounced. What on earth is happening? After each new occurrence, the most oft-heard questions are, "Will the world ever be the same again?" and "Where is God in all of this?" Over the last few decades, Dr. David Jeremiah has become one of the world's most sought-after Christian leaders on topics that deal with biblical application and modern culture. And few would dispute that the pace at which things are currently changing is unprecedented. The time has come to accept this new normal, Jeremiah says, and understand how God's hand is still at work on His eternal plan for mankind. No one can afford to ignore these warnings, but all can better understand the greater story and the role we each play in this changing world. From prophetic clues in Scripture to an understanding of the power of Christ in all believers, this book directs us on a clear path forward. The book is split into two sections, each covering items surrounding two important questions. *Is This the End of America?* and *Is This the End of the World?* Includes detailed chapters on: Terrorism ISIS and Radicalized Islam The New Russia The Bleeding of America's Borders The "Anything Goes" Society Polarization and Divisiveness The Coming of Christ and many more

Explaining the Lord's Actions in the Exodus Plagues Narrative Houghton Mifflin

Were human beings created by powers from outer space? Did extraterrestrial giants build the megaliths of Malta and the menhirs of Brittany? Was the Ark of the Covenant a machine built by the astronaut gods? In *Signs of the Gods?* Erich von Däniken travels far and wide around the globe to study the many strange phenomena that all point to one conclusion---that many thousands of years ago, Earth was visited by a race of superhuman powers and intelligence. The questions he addresses along the way include: Why are the religious sites in Greece all laid out in the same geometrical pattern---a pattern which is repeated throughout the world? Does the extraordinary longevity of the ancient Sumerian kings mean that the Land of the Two Rivers was ruled by a race of supermen? Could the first men have been produced by cloning? Do the great ruins of Zimbabwe point to an

impossibly detailed knowledge of astronomy? Erich von Däniken's *Chariots of the Gods* provoked a worldwide storm of controversy. In *Signs of the Gods?* he produces powerful arguments to support his theory of astronaut gods, with evidence that is difficult to explain any other way. Hear what he has to say with an open mind---and you may find yourself agreeing with him.

“A loopy pilgrimage from a haunted past into a hopped-up, mad new world” from the Pulitzer Prize winner and former US poet laureate (Newsday). Loneliness, loss, sadness, and mystery mark this wonderful volume of forty-nine poems by Charles Simic, winner of the Pulitzer Prize for Poetry for *The World Doesn't End* and praised as “one of the truly imaginative writers of our time” by the Los Angeles Times. “A Charles Simic poem starts with a sentence fragment, an ungainly image crash-landing at the feet of a speaker who was expecting something else entirely . . . There is a Central European sensibility at work in his poems.” —The New York Times Book Review “Simic is adept at runic inscriptions, fragments of dislodged civilizations, the shards of universal disjunction, and poignant ruin.” —The Washington Post “The quality of Simic's poems has grown steadily over the past two decades, despite a MacArthur 'genius' award and last year's Pulitzer. Such prizes seem piteously small next to the large beauties of his work.” —Harvard Book Review “Fifty poems of inimitable grace and beauty.” —Publishers Weekly “He touches the reader with an aching impact.” —The Litchfield County Times

An atmospheric and intrigue-filled novel of dead gods, buried histories, and a mysterious, protean city—from one of America's most acclaimed young fantasy writers. The city of Bulikov once wielded the powers of the gods to conquer the world, enslaving and brutalizing millions—until its divine protectors were killed. Now Bulikov has become just another colonial outpost of the world's new geopolitical power, but the surreal landscape of the city itself—first shaped, now shattered, by the thousands of miracles its guardians once worked upon it—stands as a constant, haunting reminder of its former supremacy. Into this broken city steps Shara Thivani. Officially, the unassuming young woman is just another junior diplomat sent by Bulikov's oppressors. Unofficially, she is one of her country's most accomplished spies, dispatched to catch a murderer. But as Shara pursues the killer, she starts to suspect that the beings who ruled this terrible place may not be as dead as they seem—and that Bulikov's cruel reign may not yet be over.

While walking God's trail all over the world, Steve has spotted the Creator's hand at work in many significant life moments—from finding the love of his life to befriending the tribe that murdered his missionary father; from living in the Ecuadorian jungle to creating a major motion picture and presenting it before the United Nations. Sometimes triumphant, sometimes tragic, Steve's invariably thrilling tales are those of a born storyteller.

Punch Me Up to the Gods Del Rey

Late twentieth-century Jesus novels carve out a completely new picture of Jesus. Those written by Norman Mailer, JosŽ Saramago, Michale Roberts, Marianne Fredriksson, and Ki Longfellow, among others, provide inversive revisions of the canonical Gospels. Their adaptations often turn into a critique of the whole of Christian history. The contrast novels investigated in this study end up with appropriations that are based on prototypical rewriting. They aim at the rehabilitation of Judas, and some of them make Mary Magdalene the key figure of Christianity. Saramago describes God as a bloodthirsty tyrant, and Mailer makes God battle the devil in a Manichaen sense as with an equal. The main result of this intertextual analysis is that these authors have adopted Nietzschean ideas in their writing. An attack on the so-called biblical slave morality and violent concept of God deprives Jesus of his Jewish messianic identity, makes Old Testament law a contradiction of life, calls sacrificial soteriology a violent paradigm supporting oppression, and presents God as a cruel

monster. As a result, Jewish faith appears in a negative light. Apparently, Western culture still harbours anti-Judaic attitudes, albeit hidden beneath sentiments of equality and tolerance. Timo Eskola skillfully shows that despite the evident post-Holocaust consciousness present in the novels, they actually adopt an arrogant and ironic refutation of Jewish beliefs and Old Testament faith.

Signs of the Gods? Red Wheel/Weiser

It seems humanity is in the process of being prepared, through the media and movies, for the day when we experience contact with alien beings. We have not been told of their existence because society could not handle such a drastic shift right now. In order to soften the blow, aliens have been shown as nice, and sometimes even cute and cuddly. We are being conditioned to accept them, which would make subservience more likely when they finally reveal themselves. This is the first book to warn us of this entire charade. The author, Jack Barranger, takes us back into early history when ancient man first made contact with these beings - beings that called themselves "gods" and demanded to be worshiped. The gods controlled their followers in these early religions and made us fight their wars. Our religions of today still maintain the original structure of servitude and have caused more bloodshed and warfare than any invention of man. Today, now that we are finally learning how to move past the confusion they caused, signs are appearing that these gods may once again appear openly. The author maps out these signs and insists if the gods do return, their purpose will again be to exploit us. Suggestions are made as to what we should do in the event of such a drastic scenario.

The Gold of the Gods Book Tree

The father of the ancient alien theory with more than 65 million books sold reveals everything he has withheld for years. In all his years of service, why didn't Erich von Däniken ever doubt his theory that inhabitants of other planets had come into contact with humanity ages ago, and that they still observe us today? How could von Däniken in all these years say firmly that the UFO phenomenon is real and that people are being abducted by aliens? Why does he repeatedly criticize the official historiography and our religions and thus accept scorn and hostility? The answers to these questions are: Because Erich von Däniken spoke to people who supported his theories. Because people who saw UFOs or were kidnapped by aliens trusted him. And because experts and insiders inaugurated secrets known to only a few people. In this book, the now 81-year-old presents selected eyewitnesses and insiders for the first time, reveals secrets and stories that he has hitherto kept private, and presents reports and revelations that leave one speechless!
