Film theory no longer gets top billing or plays a starring role in film studies today, as critics proclaim that theory is dead and we are living in a post-theory moment. While theory may be out of the limelight, it remains an essential key to understanding the full complexity of cinema, one that should not be so easily discounted or discarded. In this volume, contributors explore recent popular movies through the lens of film theory, beginning with industrial-economic analysis before moving into a predominately aesthetic and interpretive framework. The Hollywood films discussed cover a wide range from 300 to Fifty First Dates, from Brokeback Mountain to Lord of the Rings, from Spider-Man 3 to Fahrenheit 9/11, from Saw to Raiders of the Lost Ark, and much

more. Individual essays consider such topics as the rules that govern new blockbuster franchises, the 'posthumanist realism' of digital cinema, video game adaptations, increasingly restricted stylistic norms, the spatial stories of social networks like YouTube, the mainstreaming of queer culture, and the cognitive paradox behind enjoyable viewing of traumatic events onscreen. With its cast of international film scholars, *Film Theory and Contemporary Hollywood Movies* demonstrates the remarkable contributions theory can offer to film studies and moviegoers alike.

This series of biographical profiles shines a spotlight on that special place "Where

the West meets the Guitar." From Gene Autry and Roy Rogers to contemporary artists like Michael Murphy, Red Steagall, Don Edwards and Riders in the Sky, many entertainers have performed music of the West, a genre separate from mainstream country music and yet an important part of the country music heritage. Once called "Country and Western," it is now described as "Country or Western." Though much has been written about "Country," very little has been written about "Western"—until now. Featured are a number of photos of the top stars in Western music, past and present. Also included is an extensive bibliography of works related to the Western music field.
