Tuvalu - Displacement Solutions Tuvalu
Outline Of Tuvalu Climate Tuvalu
(formerly Ellice Islands), an archipelago
located in the Pacific Ocean to the south
of the Equator, has an equatorial
climate, ie hot, humid and rainy
throughout the year. The rains, occurring
in the form of downpours of
thunderstorms, can be intense, but
usually do not last long, and do not
greatly reduce the hours of

sunshine. Tuvalu climate: average
weather, temperature ... With its limited
resource base, Tuvalu is extremely
vulnerable to the adverse impacts of
climate change, variability and extreme
weather events. Some of Tuvalu's
adaptation projects include: the
development of a disaster plan, the
plant-a-tree programme, community
water tank projects and seawall
construction. Tuvalu | UNDP Climate
Change Adaptation According to local
climate data, Iona says the biggest
impacts of climate change on Tuvalu
have been rising air temperatures, more

intense and frequent storm surges and decreasing rainfall, as ...'One day we'll disappear': Tuvalu's sinking islands ...Tuvalu became, notably thanks to the climate conference in Copenhagen in 2009, the international symbol of the consequences of climate change. Sea-level rise, one of the most known consequences, is a major threat for Tuvalu, considering that this country's highest point is 4,5 meters over sea-level (whereas most of the land is way below that point). Climate change on Tuvalu - Klima-tuvalu August-September 2011. From 29 August - 15 September, a DS team visited both Kiribati and Tuvalu as a follow-up of the 2010 mission to the Pacific. As low-lying island nations, both Kiribati and Tuvalu are extremely vulnerable to the effects of climate

change, and the citizens of these countries are at risk of losing houses, lands and livelihoods unless pro-active, rights-based solutions are ...Tuvalu - Displacement Solutions Tuvalu Map of countries, facts, tourism, national park, climate.
