A Lesson Before Dying DigiCat

A stunning, terrifying novel about a house the color of blood and the two sisters who are trapped there, by The Dead House author Dawn Kurtagich. When Silla and Nori arrive at their aunt's home, it's immediately clear that the "blood manor" is cursed. The creaking of the house and the stillness of the woods surrounding them would be enough of a sign, but there are secrets too--the questions that Silla can't ignore: Who is the beautiful boy that's appeared from the woods? Who is the man that her little sister sees, but no one else? And why does it seem that, ever since

they arrived, the trees have been creeping closer? Filled with just as many twists and turns as The Dead House, and with achingly beautiful, chilling language that delivers haunting scenes, AND THE TREES CREPT IN is the perfect follow-up novel for master horror writer Dawn Kurtagich.

Talking Trees: The Real Story By: Michelle Hinkson Gaskin
Talking Trees: The Real Story is about the secret lives of trees when they think people are looking. For Michelle Gaskin, she can never look at a tree and not see "something" suspiciously... mischievous... and thinks others will start seeing them as not just beautiful, or majestic, but comical. During the Pandemic of 2020, everyone and everything seemed somber, but the trees... well, they continued to take it one second at a time, which is how they

grow. That is why they have survived so long. Talking Trees is unique because trees do not think we see what they are up to because they are so good at standing still when we are looking; they are cunning. These words are exactly as they are meant to be... a reason to smile or bust out laughing. We could always use more laughter.

Be Bigger HarperCollins

A Newbery Honor Book that the New York Times called "an eerie delight," *The Wish Giver* is an engaging literary folk story about those who get what they wish for—whether they want it or not. The people of Coven Tree are no strangers to magic. In fact, the town's very name comes from a gnarled old tree where covens of witches used to gather. Even now, imps and fiends continue to appear, frightening the townsfolk with their devilish pranks. Usually these creatures are easy to spot. They have a particular smell, or sound, or way of moving, that betrays their dark nature.

But Thaddeus Blinn showed none of these signs when he came to Coven Tree. He was just a funny little man who drifted into town with a strange tale about being able to give people whatever they wished—for only fifty cents. There was nothing scary about him. At least, not until the wishing began...

Talking Trees and Other Tales Dorrance Publishing

A triumphant tale of a young woman and her difficult childhood, *The Glass Castle* is a remarkable memoir of resilience, redemption, and a revelatory look into a family at once deeply dysfunctional and wonderfully vibrant. Mason's Greatest Gems Harper Collins

* Winner of the National Book Critics Circle Award * Silver Medal Society of Illustrators * * Named a Best Book of the Year by The New York Times, The Boston Globe, San Francisco Chronicle, NPR, Comics Beat, The Milwaukee Journal-Sentinel, Kirkus Reviews, and Library Journal This "ingenious reckoning with the past" (The New York Times), by award-winning artist Nora Krug investigates the hidden truths of her family's wartime history in Nazi Germany. Nora Krug was born decades after the fall of the Nazi regime, but the Second World War cast a long shadow over her childhood and youth in the city of Karlsruhe, Germany. Yet she knew little about her own family's involvement; though all four grandparents lived through the war, they never spoke of it. After twelve years in the US, Krug realizes that living abroad has only intensified her need to ask the questions she didn't dare to as a child. Returning to Germany, she visits archives, conducts research, and interviews family members, uncovering in the

process the stories of her maternal grandfather, a driving teacher in Karlsruhe during the war, and her father's brother Franz-Karl, who died as a teenage SS soldier. In this extraordinary quest, "Krug erases the boundaries between comics, scrapbooking, and collage as she endeavors to make sense of 20th-century history, the Holocaust, her German heritage, and her family's place in it all" (The Boston Globe). A highly inventive, "thoughtful, engrossing" (Minneapolis Star-Tribune) graphic memoir, *Belonging* "packs the power of Alison Bechdel's *Fun Home* and David Small's *Stitches*" (NPR.org).

The Epic Fail of Arturo Zamora Vintage

An oak tree and a crow help their neighbors embrace their differences in this beautiful, nuanced, New York Times-bestselling middle-grade novel from Newbery Medalist author Katherine Applegate. Trees can't tell jokes, but they can certainly tell stories. . . . Red is an oak tree who is many rings old. Red is the neighborhood "wishtree"—people write their wishes on pieces of cloth and tie them to Red's branches. Along with a crow named Bongo and other animals who seek refuge in Red's hollows, this wishtree watches over the neighborhood. You might say Red has seen it all. Until a new family moves in. Not everyone is welcoming, and Red's experience as a wishtree is more important

than ever. Funny, deep, warm, and nuanced, this is Katherine Applegate at her very best—writing from the heart, and from a completely unexpected point of view. This book has Common Core connections.

New York Times bestselling author Khaled Hosseini says, "Set in post-revolutionary Iran, Sahar Delijani's gripping novel is a blistering indictment of tyranny, a poignant tribute to those who bear the scars of it, and a celebration of the human heart's eternal yearning for freedom." Neda is born in Iran's Evin Prison, where her mother is allowed to nurse her for a few months before an anonymous guard appears at the cell door one day and simply takes her away. In another part of the city, three-year-old Omid witnesses the arrests of his political activist parents from his perch at their kitchen table, yogurt dripping from his fingertips. More than twenty years after the violent, bloody purge that took place inside Tehran's prisons, Sheida learns that her father was one of those executed, that the silent void firmly planted

between her and her mother all these years was not just the sad loss that comes with death but the anguish and the horror of murder. These are the Children of the Jacaranda Tree. Set in post-revolutionary Iran from 1983 to 2011, this stunning debut novel follows a group of mothers, fathers, children, and lovers, some related by blood, others brought together by the tide of history that washes over their lives. Finally, years later, it is the next generation that is left with the burden of the past and their country's tenuous future as a new wave of protest and political strife begins. "Heartbreakingly heroic" (Publishers Weekly), *Children of the Jacaranda Tree* is an evocative portrait of three generations of men and women inspired by love and poetry, burning with idealism, chasing dreams of justice and freedom. Written in Sahar Delijani's spellbinding prose, capturing the intimate side of revolution in a country where the weight of history is all around, it is a moving tribute to anyone who has ever answered its call.

"Hannah and the Talking Tree" is a children's book specially designed to plant the seeds of environmental activism in the next generation. Printed on recycled paper. Gold Medal winner of the 2010 Moonbeam Children's Book Awards. Hannah is a little girl with a special and unique gift. She has very, very big ears which enable her to hear things in the world all around her that other people do not notice. She can hear the grass grow, the wind sing, and the ants march one by one. She can hear birds chirping far away and even hear the trees drinking water. Unfortunately, she is teased and criticized by other children and runs away to be alone. With her extra special powers she finds and befriends a very special and solitary tree and learns about the tragic fate of the trees around her. And now the last tree is threatened as well. Is there any way to save the lone tree from destruction? Will anyone listen to Hannah's cry for help? Instead of just giving up and letting the last tree get cut down, Hannah decides to be brave and do something herself to help save the last tree and create a world worthwhile living in. 'This book touched our hearts in a special way, showing strength, courage, empathy and love in

a short children's story. We felt a kinship with Hannah immediately for her inner strength and compassion. Hannah has a sweet sensitive nature but is not afraid to stand up for what she believes in. Not only does this book show children that it is OK to be different, but it also shows that it's good to be heard to and to listen not only to ourselves but others and the earth. Hannah helps us understand ourselves a little better and how we can impact the environment in a positive way. Her empathy is also palpable, in a world void of much empathy it is important to help children understand what it is to care for others.' --RANDI MICHELLE, Mommyreview.com

Hannah and the Talking Tree is a refreshing story about a child who adores the outdoors and especially the beauty of a special tree. To have a book written depicting children actually playing outside and appreciating nature is definitely needed during these technological sedentary times. With obesity and diabetes rates aggressively rising, children need to read about the joys of exploring this vast paradise that is found right outside the door. With Hannah's exceptional gift of big ears she has the ability to totally enjoy the intricate sounds of nature that this hustle bustle world fails to hear. During times of rejection, Hannah finds solace as she mingles with her friends and flows to the song of the wind. Isn't this the play we all once enjoyed? Play...good old fashioned PLAY! Refreshing! --Ruth Kitchen, Greening Youth Foundation

'This is a charming book for your youngsters about being different, learning to listen and the importance of saving the trees on our planet. It is a cute and colorful story about a little girl named Hannah who is different than others because of her big ears, but those ears can hear things that most can't. Hannah learns how

she should help save the trees and how to get others to help. This is an environmental story that your children will love to hear. The Dove seal for all ages is awarded to this wonderful children's book.' --Dove Family Foundation

The Overstory: A Novel Strelbytskyy Multimedia Publishing

A warm, engaging story about honesty and growing from mistakes. A boy sneaks off to play his game player when mom told him not to. He figures that as long as he doesn't get caught, he's not lying, right? A wise old tree steps in to help the boy learn that truly being honest is about more than just not speaking lies. If you have to sneak around because you know something is wrong, that's a kind of dishonesty too. And it doesn't feel good on the inside. With heartwarming wisdom, the tree shows the boy how to listen to his conscience ("...that voice in your head and feeling in your heart that tells you if something is right or wrong, even when no one is looking") and helps him learn how to forgive and grow from his mistakes. With lessons on honesty, conscience, and forgiveness, Be Proud helps children learn that honesty counts in both your actions and your words. And the book teaches children to listen to their conscience, so they can feel the true reward of making good choices-that feeling of pride for having done the right thing, even when it's hard. The story encourages a growth mindset as it shows children how we all learn and grow through perseverance. Find free printable poster, worksheets, and lesson plans at <http://TalkingTreeBooks.com>. Be Proud is Book 1 in the Talking with Trees Series, books and teaching resources that engage children emotionally, helping them learn how to use their hearts and minds to guide them toward building good character traits.

"Beautiful, useful, inspirational" BBC Wildlife Book of the Month

"A delight on every page" Evening Standard In 1664, the horticulturist and diarist John Evelyn wrote *Sylva*, the first comprehensive study of British trees. It was also the world's earliest forestry book, and the first book ever published by the Royal Society. Evelyn's elegant prose has a lot to tell us today, but the world has changed dramatically since his day. Now authors Gabriel Hemery and Sarah Simblet, taking inspiration from the original work, have masterfully created a contemporary version – *The New Sylva*. The result is a fabulous resource that describes all of the most important species of tree that populate our landscape. Silvologist Gabriel Hemery explains what trees really mean to us culturally, environmentally and economically in the first part of the book. These chapters are followed by forty-four detailed tree portrait sections that describe the history and the features of trees such as oak, elm, beech, hornbeam, willow, fir, pine, juniper, plane, apple and pear. The pages of *The New Sylva* are brought to life with truly breathtaking artwork from artist and co-author Sarah Simblet, who captures the delicacy, strength and beauty of the trees through the seasons in 200 exquisite drawings. With an interplay of black and red type on creamy paper, *The New Sylva* recalls all the charm of traditional bookmaking. And at a moment when it is vitally important for us to rediscover how to treasure our trees, the time for this visionary, beautiful book is now. This edition comes with

illustrated endpapers and a ribbon marker.
