The following year, the fury of the sun turns back Time for everyone in the world. On PF (Power Failure) Day, a huge electromagnetic surge from the sun destroys the power grids and civilization as we know it. On Lucy's first day of second grade, she's excited to meet her new teacher, Miss Flippo, and find out everything's she's

going to learn about this year in school. And when Miss Flippo tells the class that they're going to have their very own science lab, complete with lab coats and goggles, Lucy can't wait to start exploring. But one thing is troubling her. The tree that sat outside her first grade classroom all year is gone. Where are the squirrels going to live? Inspired by her classroom lab, Lucy starts her own research mission to find out what happened to the tree, and then to lobby for the school to plant a new one. With the help of her cousin, Cora, and their new classmates, Lucy discovers that science is everywhere you look, and a lab can be anywhere you look.

Launching a new chapter book series from IRA Children's Book Award-winner, Michelle Houts, Lucy Saves Some Squirrels draws on STEM themes and is aligned with curriculum guidelines to bring a love of science to young readers, inspiring them to start their own labs and explore their world.

When 38 jetliners bound for the United States were

forced to land at Gander International Airport in Canada by the closing of U.S. airspace on September 11, the population of this small town on Newfoundland Island swelled from 10,300 to nearly 17,000. The citizens of Gander met the stranded passengers with an overwhelming display of friendship and goodwill. As the passengers stepped from the airplanes, exhausted, hungry and distraught after being held on board for nearly 24 hours while security checked all of the baggage, they were greeted with a feast prepared by the townspeople. Local bus drivers who had been on strike came off the picket lines to transport the passengers to the

various shelters set up in local schools and churches. Linens and toiletries were bought and donated. A middle school provided showers, as well as access to computers, email, and televisions, allowing the passengers to stay in touch with family and follow the news. Over the course of those four days, many of the passengers developed friendships with Gander residents that they expect to last a lifetime. As a show of thanks, scholarship funds for the children of Gander have been formed and donations have been made to provide new computers for the schools. This book recounts the inspiring story of the residents of Gander, Canada, whose acts of kindness have touched

the lives of thousands of people and been an example of humanity and goodwill.

This book is a compilation of my thoughts-- transformed into poems, quotes, and self notes. At the unseasoned age of 20, I can testify to life taking me through some expected changes and detours. There were many days that I couldn't speak, think, or even write clearly. Through silence, prayer, and this little writing outlet, I've learned so much. I've found inspiration in the most unexpected places. I've learned that it's okay to cry. It's okay to not know all the answers. It's okay to be you-- Unapologetically you.

Sometimes, it's even okay to feel lost.. So long as you remember who you are. We're all destined for greatness and success. I pray this book opens minds, encourages smiles, and inspires creativity. Above all, I'm forever grateful to my Heavenly Father for his magnificent plan over my life.

Growing up, everyone would always say how lucky I was, but at the time I was not sure what they meant. I was just doing what I always loved; skating and playing ice hockey. Everything seemed to go my way, from winning virtually every raffle I entered to scoring the game-winning goal whenever

my team needed it. As I got a little older, I could feel these things before they happened, as if I knew that I was going to catch the corner of the net to get the puck past the goalie as time expired. I felt like the luckiest girl in the world. Becoming an Olympian was something I thought about as far back as I could remember. By the time I was twelve, I was well on my way to living my dream. Then, on August 9, 2008 I suffered a stroke during a hockey game. No one suspected that such a thing could happen to a twelve-year old, but as the reality of pediatric stroke turned my dream into a nightmare, the journey back to skating and playing hockey again

showed me just how much I could accomplish with the love and support of my family and people all around me who cared. And I came to realize that I truly was the luckiest girl in the world.
