This publication is intended to plant a seed of contemplation, which we pray will take root as each of us goes about our daily interaction with the more than 1.1 million persons employed on a full-time basis, nationwide in the myriad of law enforcement agencies established in our communities. This number includes 765,000 sworn full-time law enforcement personnel; anyone of whom you may encounter in the ordinary course of your day. A recent census has documented that nationwide, law enforcement organizations also employ approximately 100,000 part-time employees, including 44,000 sworn officers. Many of us may never have a need to encounter a law enforcement official, be it positive or negative. However, given these numbers, there is a high likelihood that you will, in fact, interact with a law enforcement official at some point in your life. Within these words, there is no conscious attempt or intent to cast an ominous shadow upon the eye of integrity that is the center of the storm that law enforcement walks in each day as they work to carry out the mission of protecting and serving the people of this nation. We pledge support to those men and women who put their lives on the line to safeguard our freedoms. This publication is intended to be an aid in ensuring that their noble work takes fruitful root. Within any civilized society, there will be a need for honest, efficient, respectful and ethics based law enforcement. There is no more noble profession in any society formed by man, than serving the people. There is no greater human responsibility or undertaking than civil, thoughtful and unbiased enforcement of the laws of the land. With the establishment of such enforcement organizations, which will be staffed by imperfect Human Beings, we have a responsibility and duty to ensure that, "We, the people," do the utmost to respect those enforcing the law. However, it is equally important to understand our rights and responsibilities as we interact with the men and women we charge with the responsibility to uphold those laws and protect our very existence. If you take away nothing else from this publication, please understand this: Nothing in Life Happens in a Vacuum. We communicate through common experiences more than we do through shared languages. We should never assume that our words are being received in the way that we anticipate. This lack of certainty in communication means we must always use care in our methods of communication; especially when interacting with law enforcement.

This book provides an overview of effectively collecting, understanding, and presenting information. First, this book examines various situations via math, grammar, and logic. It is important for officers to apply math and English to the law so that they may be able to effectively articulate their actions in court. For example, laws and police actions can be evaluated via truth tables and Venn Diagrams. Second, this book discusses interrogation techniques and body language. Manipulating a suspect and collecting the right information in a legal and effective manner is a part of police work. Third, this book presents a deposition. Police officers should ask themselves the purpose of each question that is being asked during a deposition. Fourth, this book presents some resume information and typical job interview questions for potential police officers. This book addresses these specific law enforcement problems, and supplies law enforcement professionals with information and strategies for easier arrests, more accurate intelligence, more successful prosecutions, and fewer problems during incarceration.

Police interviews with suspects and witnesses provide some of the most significant evidence in criminal investigations. Frequently challenging, they require special training and skills. This interaction process is further complicated when the suspect or witness does not speak the same language as the interviewer. A professional reference that can be used in police training or in any venue where an interpreter is used, Police Investigative Interviews and Interpreting: Context, Challenges, and Strategies provides solutions for the range of interview demands found in today's multilingual environments. Topics include: What interpreting is, the skills required, and the role of interpreters in any job context Investigative interviewing in law enforcement Concerns about interpreter intervention and its impact on interview outcomes The value of word-based over meaning-based interpretation in police and legal contexts Nonlinguistic factors that can have an impact on the interpreting process The book explores the multi-faceted dynamics of conducting investigative interviews via interpreters and examines current investigative interviewing paradigms. It offers strategies to help interpreters and law enforcement officers and provides examples of interpreted interview excerpts to enable understanding. Although the subject matter and the examples in this book are largely limited to police interview settings, the underlying rationale applies to other professional areas that rely on interviews to collect information, including customs procedures, employer-employee interviews, and insurance claim investigations. This book is part of the CRC Press Advances in Police Theory and Practice Series.
