In his groundbreaking new textbook, Mick Fryer offers students of Business Ethics clear explanations of a range of theoretical perspectives,

along with examples of how these perspectives might be used to illuminate the ethical challenges presented by business practice. The book includes: Realistic scenarios which gently introduce a theory and demonstrate how it can be applied to a real-life ethical dilemma that everyone can relate to, such as borrowing money from a friend Real organisational case studies in each chapter which

illustrate how each theory can be applied to real business situations. Cases include Nike, Coca Cola, BMW, Shell, Starbucks and GSK 'Pause for Reflection' boxes and 'Discussion Questions' which encourage you to challenge the established notions of right and wrong, and empower you to develop your own moral code

Video Activities in each chapter with

[The Infinite Game](#) Unfair Trade From Robyn Cadwallader, author of the internationally acclaimed novel *The Anchoress*, comes a deeply profound and moving novel of the importance of creativity and

the power of connection, told through the story of the commissioning of a gorgeously decorated medieval manuscript, a Book of Hours. London, 1321: In a small shop in Paternoster Row, three people are drawn together around the creation of a magnificent book, an illuminated manuscript of prayers, a book of hours. Even though the commission seems to

answer the aspirations of each one of them, their own desires and ambitions threaten its completion. As each struggles to see the book come into being, it will change everything they have understood about their place in the world. In many ways, this is a story about power - it is also a novel about the place of women in the roiling and turbulent world of the early fourteenth century; what

power they have, how they wield it, and just how temporary and conditional it is. Rich, deep, sensuous and full of life, Book of Colours is also, most movingly, a profoundly beautiful story about creativity and connection, and our instinctive need to understand our world and communicate with others through the pages of a book.  Over the past two years, Conor Woodman has travelled the globe on the trail of the world's most

profitable, most unpleasant criminals. In *Sharks*, Conor leads us through the underworlds of cities such as Bogota and Jerusalem, unravelling the stories and uncovering the characters behind them. Action-packed adrenaline journalism is Conor's signature, and it's exactly what he delivers here. *Sharks* is his most daring reportage to date, reliving how he put aside his safety in the

course of one breathtaking encounter after another, assembling a picture of a world you never knew existed.

The Enchantress Returns

Harper Collins
 In the aftermath of the Civil War, the West is invaded by hordes of bold, dangerous men. And with the railroad coming to Black Creek, Kansas, the town becomes a magnet to every whore, tinhorn, outlaw, and killer in the

territory. A gang of human vultures, led by the shadowy, murderous Harvey Kidd, has started a bloody guerrilla war with the Union Pacific Railroad, robbing payrolls, killing workers, and burning bridges. Black Creek is next on Kidd's list. Into this explosive mix rides human powder keg Dane Bowman, a mysterious stranger with a big iron on his hip.

Lightning-fast and leather-tough, Bowman whipsaws outlaws and lawmen alike, taking on all comers, turning Black Creek into a corpse-strewn battleground. It all leads up to a showdown on Boot Hill that unleashes a bloody storm of lead destined to become a legend of the West....

Camelot's Queen Little, Brown Books for Young Readers
A detailed up-to-date survey of the most

important woman writer from Greco-Roman antiquity. Examines the nature and context of her poetic achievement, the transmission, loss and rediscovery of her poetry, and the reception of that poetry in cultures far removed from ancient Greece, including Latin America, India, China, and Japan.

Woodman traces a range of products back to their source to uncover who precisely is benefiting and who is losing out. He goes diving with lobster fishermen in Nicaragua who are dying in their hundreds to keep the restaurant tables of the US well stocked. And he risks falling foul of the authorities in Laos as he covertly visits the country's burgeoning rubber plantations, established to

supply Chinese factories that in turn supply the West with consumer goods. In the process, he tests accepted economic wisdom on the best way to create a fairer world - and suggests a simpler but potentially far more radical solution. Matt Mason is attempting to put the army behind him, building a life for himself training anti-poaching forces on a Kenyan game reserve. He's looking forward to meeting up with his eldest child, Jo, who has graduated naval college and taken a summer job working on a billionaire's yacht in the Red Sea. But then he receives a call informing him that Jo's boat is missing, likely

abducted by Somali pirates. Mason must call in favours from old contacts as he follows Jo's trail. She isn't the abduction target, she won't be worth the pirates keeping for long. But she is still Matt Mason's daughter, and she knows she needs to survive to fight. IF YOU MISSED THE FIRST IN THE NEW MATT MASON SERIES FROM AN AUTHOR WHO HAS BEEN THERE AND DONE IT

From the author of the National Book Award finalist *Black Leopard, Red Wolf* and the WINNER of the 2015 Man Booker Prize for *A Brief History of Seven Killings* "An undeniable success." — The New York Times Book Review A true triumph of voice and storytelling, *The Book of Night Women* rings with both profound authenticity and a distinctly contemporary energy. It is the story of Lilith, born

into slavery on a Jamaican sugar plantation at the end of the eighteenth century. Even at her birth, the slave women around her recognize a dark power that they- and she-will come to both revere and fear. The *Night Women*, as they call themselves, have long been plotting a slave revolt, and as Lilith comes of age they see her as the key to their plans. But when she begins to understand her own

feelings, desires, and identity, Lilith starts to push at the edges of what is imaginable for the life of a slave woman, and risks becoming the conspiracy's weak link. But the real revelation of the book-the secret to the stirring imagery and insistent prose-is Marlon James himself, a young writer at once breathtakingly daring and wholly in command of his craft. New York Times bestselling author T. R. Reid travels around the world to solve the urgent problem of America's failing tax code, unravelling a complex topic in plain English - and telling a rollicking story along the way. The U.S. tax code is a total write-off. Crammed with loopholes and special interest provisions, it works for no one except tax lawyers, accountants, and huge

corporations. Not for the first time, we have reached a breaking point. That happened in 1922, and again in 1954, and again in 1986. In other words, every thirty-two years. Which means that the next complete overhaul is due in 2018. But what should be in this new tax code? Can we make the U.S. tax system simpler, fairer, and more efficient? Yes, yes, and yes. Can we cut tax rates and still bring in

more revenue? Yes. Other rich countries, from Estonia to New Zealand to the UK—advanced, high-tech, free-market democracies—have all devised tax regimes that are equitable, effective, and easy on the taxpayer. But the United States has languished. So byzantine are the current statutes that, by our government's own estimates, Americans spend six billion hours and \$10 billion

every year preparing and filing their taxes. In the Netherlands that task takes a mere fifteen minutes! Successful American companies like Apple, Caterpillar, and Google effectively pay no tax at all in some instances because of loopholes that allow them to move profits offshore. Indeed, the dysfunctional tax system has become a major cause of economic inequality. In A Fine Mess,

T. R. Reid crisscrosses the globe in search of the exact solutions to these urgent problems. With an uncanny knack for making a complex subject not just accessible but gripping, he investigates what makes good taxation (no, that's not an oxymoron) and brings that knowledge home where it is needed most. Never talking down or reflexively siding with either wing of

politics, T. R. Reid presses the case for sensible root-and-branch reforms with a companionable ebullience. This affects everyone. Doing our taxes will never be America's favorite pastime, but it can and should be so much easier and fairer. *Unfair Trade* Penguin Explores the homogenization of American culture and the impact of the fast food industry on modern-day health, economy,

politics, popular culture, entertainment, and food production. *Unconventional Warfare (Special Forces, Book 1)* Hachette UK THE FIRST IN A BRAND NEW SERIES FROM SAS: WHO DARES WINS STAR.
