The earthy humor and the powerful emotional impact that set McMurtry's Terms of Endearment apart from other novels now rise to brilliant new heights with The Evening Star. McMurtry takes us deep into the heart of Texas, and deep into the heart of one of the most memorable characters of our time, Aurora Greenway—along with her family, friends, and lovers—in a tale of affectionate wit, bittersweet tenderness, and the unexpected turns that life can take. This is Larry McMurtry at his very best: warm, compassionate, full of comic invention, an author so attuned to the feelings, needs, and desires of his characters that they possess a reality unique in American fiction.

The downfall of the United States of America has been expedited by the recent election of Barack Hussein Obama. The country may not survive his regime, but giving him the benefit of the doubt,

author Shawn O'Reilly describes him as The Next-to-Last American President. O'Reilly, a proud conservative who is deeply worried about America's survival, describes a future date when the country no longer exists in this political satire that is only half joking around. He details the downfall, aftermath, and most importantly, the rebirth of the American people. It's still possible for the country to recover from the economic, social, and moral decay being promoted by Obama and his band of liberals. The new government, however, must resemble what the founding fathers envisioned a land that has few regulations and taxes and no violations of personal freedoms. The end is approaching, and it's time to prepare if you want to survive. Take every step necessary to ensure the well being of you and your family with The Next-to-Last American President.

Across the country and around the world, people avidly engage in the cultural practice of hunting. Children are taken on rite-of-passage hunting trips, where relationships are cemented and legacies are passed on from one generation to another. Meals are prepared from hunted game, often consisting of regionally specific dishes that reflect a community's heritage and character. Deer antlers and bear skins are hung on living room walls, decorations and relics of a hunter's most impressive kills. Only 5 percent of Americans are hunters, but that group has a substantial presence in the cultural consciousness. Hunting has spurred controversy in recent years, inciting protest from animal rights activists and lobbying from anti-cruelty demonstrators who denounce the custom. But hunters have responded to such criticisms and the resulting legislative censures with a significant argument in their defense -- the claim that their practices are inextricably connected to a cultural tradition. Further, they counter that they, as representatives of the rural lifestyle, pioneer heritage, and traditional American values, are the ones being victimized. Simon J. Bronner investigates this debate in *Killing Tradition: Inside Hunting and Animal Rights Controversies*. Through extensive research and fieldwork, Bronner takes on the many questions raised by this problematic subject: Does hunting promote violence toward humans as well as animals? Is it an outdated activity, unnecessary in modern times? Is the heritage of hunting worth preserving? *Killing Tradition* looks at three case studies that are at the heart of today's hunting debate. Bronner first examines the allegedly barbaric rituals that take place at deer camps every late November in rural America. He then analyzes the annual Labor Day pigeon shoot of Hegins, Pennsylvania, which brings animal rights protests to a fever pitch. Noting that these aren't simply American concerns (and that the animal rights movement in America is linked to British animal welfare protests), Bronner examines the rancor surrounding the passage of Great Britain's Hunting Act of 2004 -- the most comprehensive and divisive anti-hunting legislation ever enacted. The practice of hunting is sure to remain controversial, as it continues to be touted and defended by its supporters and condemned and opposed by its detractors. With *Killing Tradition*, Bronner reflects on the social, psychological, and anthropological issues of the debate, reevaluating notions of violence, cruelty, abuse, and tradition as they have been constructed and contested in the twenty-first century.

"In the face of the most perilous challenges of our time--climate change, terrorism, poverty, and trafficking of drugs, guns, and people--the nations of the world seem paralyzed. The problems are too big for governments to deal with. Benjamin Barber contends that cities, and the mayors who run them, can do and are doing a better job than nations. He cites the unique qualities cities worldwide share: pragmatism, civic trust, participation, indifference to borders and sovereignty, and a democratic penchant for networking, creativity, innovation, and cooperation. He demonstrates how city mayors, singly and jointly, are responding to transnational problems more effectively than nation-states mired in ideological infighting and sovereign rivalries. The book features profiles of a

dozen mayors around the world, making a persuasive case that the city is democracy's best hope in a globalizing world, and that great mayors are already proving that this is so"--

2nd VICTORY IN JESUS is the third volume of *THE GOINS BRICOLAGE*, a saga of Tecumseh and Stonewall Counties in the State of Indiana. It is the second part of the tale of Lamar Ainsley Goins, an inept, middle-aged minister of the Gospel who despite himself achieves national and even international success in the late 1970s and early 80s as pastor of The Temple of Holy Truth & World Outreach Center of Aschburgh. Lamar Ainsley Goins, the youngest child of the late Wilton Fox Goins, the greatest man ever to emerge from Aschburgh, has now settled into his unanticipated success, and sets his eye on ministering to a better educated and more affluent clientele to the north of Indianapolis. He puts in motion a plan to get rid of his Pentecostal ties, his grubby, down-at-the-heels Prophetess OnFire, as well as his working-class Board members and song-leader, while improving his grammar and adding the Rabboni Barry Wolfowitz, a dynamic trumpet-playing and yarmulke-wearing ersatz Christian-Jew. As Lamar finally achieves the Victory for which he seems to have been destined, the ever conniving founding pastor of the Temple, Doctor Carter Bald, no longer

pursued by the FBI and IRS, returns to Tecumseh County with a plan to take back the church and destroy Lamar's ministry.

We shut down our schools, sports, theaters, bars, restaurants, and churches—government ignored the rule of law and put individual rights on hold—but it is more than obvious now that this was all a huge distraction. The focus should have been on the aged with underlying conditions living in nursing homes. The models nowhere included what ended up being our reality, even though that reality was upon us as early as February when people in nursing homes began to die in Washington State. We should have seen it long before the lockdowns began. Now the modelers in the epidemiological profession need to learn what the economists figured out long ago: Human life is too complex to be accurately modeled, much less predicted.
