In the current state of affairs, if you aren't willing to shift your mindset and take chances, you are sure to fall behind the pack. It is easy for us to look at something that we know nothing about and that is relatively new and assume it is a fad and likely to die soon. It is also easy for us to jump into a venture blind with high hopes of riches and leave scarred. Lucky neither of these describes the universe that is the Internet. The longer the Internet stays around, the more we use it and turn it into an important part of our daily lives. It's already close to impossible to live without it! And sure, the Internet may have had a period in its very young stages where people lost money with no direction and following unproven trends, but most of those kinks have been ironed out since! We now can find so many Internet business trajectories demonstrating high rates of success and monetary return that it would be completely foolish to overlook this new avenue of possibilities! If you have the courage to start a business, that task becomes exponentially easier on the Internet with the vastly reduced overhead. And even if you don't want to shoot that high with a entire business and just want to make a few consistent bucks in the background, there are countless methods for that as well. The bottom line is that if you aren't at least CONSIDERING how you can jack into the Internet to receive passive income, you are limiting what your life could be and you're leaving money on the table for others to scoop up!
